

WHEN the frost strikes the bloomer will the cycle be in hook?

Arkansas seems willing to accept the big prize fight, though even Texas has repudiated it.

THE S. B. traveling man was overhauled down in Jackson county recently and robbed of \$16. His medicines were unharmed.

SAN FRANCISCO has caught the bloomer craze in earnest. A restaurant has been established there with all the serving maids dressed in bloomer attire.

THE Arlington Record under the able supervision of Editor Maxwell will probably be enlarged at the beginning of the year to a seven column folio. Maxwell is a hustler.

THE Inter-Ocean suggests that the first gripsack that the president should unpack when he reaches the White House ought to be that one containing his "new vigorous foreign policy."

SENATOR IRBY, of South Carolina has "unsheathed his sword and thrown away his scabbard." It now remains for Senator Tillman to uncock the bottle and throw away the cork.—New York Press.

THE powers in Turkey have at last agreed to accept the scheme for reform in Armenia drawn up by England, France and Russia. According to this agreement the Turks are to recognize the Armenian Christians, and they may to some extent be allowed to hold office. It is feared, however, that this decision may cause another serious outbreak in that country.

HON. H. V. GATES, president of Heppner Light and Water Co., is a progressive business man and is becoming greatly interested, financially, in several water and light plants in different parts of the country. This necessitates his traveling about a great deal and he does not fail to observe the places where business is done. In the Hillsboro Independent we find the following mention made by him in regard to Heppner, after speaking of other towns: "At Heppner money is easy and in sufficient volume to meet the economical needs of the people. The satisfactory condition of things is attributed to the large sales of beef cattle made last spring supplemented with a moiety realized on wool."

SENATOR JOHN H. MITCHELL and Congressman W. R. Ellis have been making a tour of Eastern Oregon to ascertain the needs and wants of their constituency. This is not construed into anything else, as a rule, and everywhere the honorable gentlemen have been treated with marked courtesy due distinguished guests. However, once in a while some low-browed, low-bred cur, who, failing to attract any attention by his continued mouthings, bites himself like a snake pinned to earth, and howls still louder. A gentleman will assist in treating guests decently, but what can be expected of a filthy, ill-bred ass? Were it not that the very paper on which this is printed would be contaminated by the mention of one man's name, who deserves even more than this short paragraph bestows, we would not desist from doing so. It is pleasing to know that there are but few such people in this world.

Some fishermen at Arlington caught a sturgeon last Friday that weighed 540 pounds. This is worth 4 or 5 cents per pound in Portland. It also contains 140 pounds of eggs, worth 10 cents per pound. These men catch from one to two sturgeon every day, but Friday's catch was the largest so far. Sturgeon fishing is rapidly paying.

Famous College President.

Rev. Erastus Rowley Made Well by Paine's Celery Compound.

As the school year opens, attention is directed to the oft-repeated advice of leading educators, warning teachers, parents and scholars against the fearful results of exhaustive brain work among young people.

To thousands of girls and boys, unnerfed by the strain of school life Paine's celery compound, (which was first prescribed by America's greatest teacher, Prof. Edward E. Phelps, M. D., L. L. D., of Dartmouth College) has been a blessing, making them well and strong, feeding the brain and nerves, and enriching and purifying the blood. The recent recommendation of Paine's celery compound by Principal Camp of New Haven and the equally outspoken praise of this greatest of remedies by ex-President Cook of the National Teachers' Association, are two of the thousands of such testimonials from parents and teachers throughout the country. Nothing in the world so strengthens

the weak, so readily restores lost nerve force, so surely makes the ailing and peevish young woman or growing boy well and cheerful.

And for the aged and infirm the whole world knows its wonderful curative powers. Rev. Erastus Rowley, president of the famous Kentucky Female College, writing to the proprietors of Paine's celery compound, says:

"I was for several years a sick man. My sickness was attended with constipation, with nervousness and insomnia, and the least excitement would cause palpitation of the heart. I have in the last three or four years used several widely advertised preparations. Finally I took Paine's celery compound and I regard it as superior to all others, especially if used strictly as you direct. By using this I do not suffer from constipation, inability to sleep, or from palpitation of the heart as formerly. I am still using Paine's celery compound at times, and shall take pleasure in recommending it to others."

RACES TODAY.

A Large Attendance Expected at the Opening Events—The Half and Quarter Dashes.

The following are the entries for today: Half mile dash, free for all, Cox, Tampa, Baby Ruth and Black Alder. Quarter mile dash, free for all, Steamboat Bill, Black Prince, Gray Dick, Pin Ear.

These races will be red-hot and it will take good guessing to pick the winners. The day promises to be clear, and as the track is in fine condition, visitors can rest assured of a fine day's sport.

Some 35 or 40 horses are in attendance, and most of them are "cracker jacks." Sunday Tom Keeney got in from Long Creek with Pin Ear and Tampa and was closely followed by Gray Dick, Paddy Ryan, Grasshopper and Maggie, in charge of Bill Cushman. Billy Cowins is training Rubberneck, a local horse.

Tomorrow the contests will be as follows: One thousand yards, free for all, purse \$100; three-eighths and repeat, free for all, purse \$100. All who want a good afternoon's sport should be in attendance.

Cataract Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists.

Geo. Brown was down from Hardman yesterday.

Mrs. Gene Noble is on the list of convalescents.

Otis and A. W. Patterson came in from Pendleton on last Saturday.

Prof. J. D. Brown and family visited friends at Lexington Saturday last.

"Destiny, or a Gambler's Wife," at the opera-house this evening. Don't fail to see it.

Born—To the wife of Mr. Moreland, five miles west of Heppner, a 10 pound daughter.

Ira Nelson, formerly of Heppner, is temporarily located in Portland at 140 1/2 3rd street.

E. R. Pickard, brother of Marice Pickard is up from Eugene to attend the races.

Walt Thompson runs stage between Heppner and Mount Hood, arriving every day except Monday and leaving every day except Sunday. Shortest and cheapest route to the interior. F. Cobb, agent.

THE COYOTE.

ED. GAZETTE: From all sections of the county comes complaint of the depredations committed upon sheep, calves, pigs and chickens by coyotes, which are multiplying rapidly and each year becoming bolder and more destructive. The residents of the rural districts realize that some thing must be done to exterminate them.

Thousands of dollars worth of stock are annually destroyed in the county and the fact confronts us that the longer action is delayed the greater the cost of extermination. So far as we have heard any expression from the sheep men—who are the more deeply interested—they are in favor of raising a fund to be added to any bounty the county may offer.

It is conceded by all in this section of the county that the county should offer a bounty of not less than one dollar, and then if the sheep men will add another dollar per head it will be an amount that will insure their speedy extermination. One cent per head upon the sheep given to the assessor this spring, it is estimated, would raise a sum sufficient to meet all demands on the sheep owners. Some may consider this too large a bounty, and that a less amount would accomplish the same result, but experience in offering bounties upon any species of animals has proven that an amount large enough to be an incentive to the people to wage a vigorous war of extermination has been the cheaper in the end.

This money paid as legislation in favor of any particular class of citizens—probably nine-tenths of the amount would be paid to residents of the county who in turn would pay it to the merchants and mechanics and thus all would reap the benefit. If any object to a bounty let them hold up their hand. A. G. BARRINGTON, GALLOWAY, Or., Oct. 18, 1893.

On the farm there is continually occurring little accidents to man and beast that cause delay to the farmer in his work. The duration of this delay is a matter of importance to the thrifty tiller of the soil. As a quick and reliable remedy for ailments and abrasions of the flesh, there is none better than Dr. J. H. McLean's Volcanic Ointment. It has proved its worth by many years of constant and successful use. Price 25c, 50c and \$1.00 per bottle.

CURE TAKE THE BEST THAT COUGH WITH SHILOH'S CURE

For Thin Children.

Children are always thin and pale when they do not assimilate enough fat. This seems strange, perhaps, but it is literally true. Unless there is a healthy assimilation of fat food the blood becomes depleted, tissues waste away, vitality becomes low and the body languishes for the need of proper nourishment.

Scott's Emulsion

is useful to children, especially in two ways. It is Cod-liver Oil emulsified, thus being easily assimilated and rendered palatable, with the Hypophosphites of Lime and Soda added to tone up the nervous system and nourish the bones. This combination of these potent nutrients is just what thin children need to give them flesh, color and vitality. Almost all children like it.

Don't be persuaded to accept a substitute! Scott & Bowne, New York. All Druggists. 50c. and \$1.
