toast bread

and keep it dry. There'll be no danger of its molding. But moisten the bread with water, and see the result, in a short time it is covered with mold. It is just so with consumption. Its germs will not grow in the lungs unless everything is suitable to them. Weakness, poor blood, loss of appetite, coughs and colds often prepare the ground for the development of the germs of consumption. To destroy germ-life the system must be kept in a well-nourished condition. Do not lose flesh. Take Scott's Emulsion, with hypophosphites, as a preventive. It furnishes the reinforcements necessary for the body to conquer in the easiest possible form. The oil is in a state quickly taken up and rapidly transformed into the organs and tissues.

When you ask for 5cott's Emulsion and your druggist gives you a salmon-colored package with the picture of a man and lish on it—you can trust that man with your prescriptions!
