

DANGER TO DEMOURACY.

Hon. Geo. Prince, a South Carolina democrat recently visiting Washington, probably gave away more than he intended when he said of the political situation in his state. "For some time it has been evident that the democrats would sooner or later have to contend with another party, and now that all danger of black supremacy has been removed (by continually restricting the right to vote), and the democrats have virtually ceased fighting each other, it is apparent that the republican party will come into the field prepared for vigorous battle on purely economic issues. South Carolina has of late years grown to be heavily interested in cotton and woolen milts and other manufacturing enterprises. The people who have put their money into these are becoming strongly impregnated with the doctrine of protection. With the race problem settled, a great many of them will not hesitate to ally themselves with the republican party on the ground of its fostering attitude towards American industries. From this source will come the Chicago Evening Journal, falls on its troubled with headache since. future danger to democracy in business manager—in the case of this South Carolina."

Danger Signals

More than half the victims of consump-tion do not know they have it. Here is a list of symptoms by which consumption can certainly be detected:—

Cough, one or two slight efforts on rising, occurring during the day and frequently during the night.

Short breathing after exertion.

Tightness of the chest.
Quick pulse, especially noticeable in the evening and after a full meal. Chilliness in the evening, followed by Slight fever. Perspiration toward morning and

Pale face and languid in the morning. Loss of vitality.

If you have these symptoms, or any of them, do not delay. There are many preparations which claim to be cures, but Dr. Acker's English Remedy for Consumption has the highest endorsements, and has stood the test of years. It will arrest consumption in its earlier stages, and drive away the symptoms named. It is manufactured by the Acker Medicine Co., 16 and 18 Chambers St., New York, and sold by all reputable druggists.
