THE report has been circulated that the venire of jurors as published in the last issue of the Gazette was altered or amended in this office, especially that part relating to the occupation of one of the number. Whether this report was given publicity by those who did not know better we cannot say, but for the information of any who may have been led to believe the report, as well as those who circulated it, we will say that the venire is prepared by the clerk and given to the sheriff, and after all have been summoned it has been the custom to furnish thus paper with the same for publication, when it always appears verbatim, being treated the same as a summons, sheriff's sale or any other court document. Any who so desire can probably see the same by calling on the sheriff.
