Poor Indeed! There are degrees and kinds of poverty, just as there are differences of opinion among those who compute and measure poverty and riches by different stand-ards. Some men deem themselves poor because they are less rich than others, again there are comparatively poor people who are satisfied wih a competence. There is a kind of poverty for which no amount of wealth can compensate, name ly, a poverty of bodily stamina, evinced by nervousness and a derangement of the functions of digestion, bilious secre-tion and the bowels. To restore vigor upon a permanent basis there is one remedy that fully covers the requirements, "fills the bill," and this is Hostetter's Stomach Bitters. By restoring digestion, giving a healthful impulse to the action of the bowels and liver and tranquillizing the nerves, it fulfills the condition necessary to a resumption of strength by the system. It also over-comes malaria and rheumatism.

BAD WEATHER. Late Snows and Cold Rains Kill Many
