WORLD'S EXPENSIVE BRIDGES. Structure Uniting New York and

Brooklyn Heads the List. The very latest official computation outs the total cost of the Brooklyn bridge at \$17,489,855. The bridge when contracted for was to cost \$10,800,000. At least, such was the original estimate of John A. Roabling, who in 1867 put the cost of the bridge at \$7,000,000 and of the approaches to it \$3,800,000. Actually, the bridge cost \$15,000,000, which was not much of an increase over the original figures when the difficulties of the undertaking came into account, the bridge not being opened until sixteen years after the original estimate was made. Subsequent expenditures, which have brought the total cost up to the present figure, are due to the acquisition of new approaches and to improvements upon the structure which were not and could not have been calculated upon when it

was opened twelve years ago.

The Brooklyn bridge is the most expensive work of the kind in the world, exceeding in cost any other bridge of which authentic figures are available. The bridge over the Forth, in Scotland, cost \$14,000,000, the Victoria bridge in Canada cost \$12,000,000, the bridge across the Volga at Caratov, in Russia, cost \$4,000,000. The cost of London bridge was \$10,000,000, of Waterloo bridge \$5,500,000, and of the Westminster bridge \$2,500,000.

With the enormous increase of viaduct work for railroad purposes in the United States the profession of "bridge builder" has become a very important one, steel and iron work having largely superseded masonry, since by improved processes in their manufacture structural iron and steel have materially decreased in cost.

-Cracked Sandwiches.-A savory sandwich is made from crisp unsalted, unsweetened crackers, spread with a paste made from three tablespoonfuls or Roquefort cheese, a tablespoonful of butter and a teaspoonful of parsley chopped very fine. Serve with a green salad, or lay each on a crisp lettuce leaf before serving. Watercresses mixed with the yolks of hardboiled eggs also make an appetizing mixture with which to make sandwiches of brown bread. Season the paste with a little olive oil, vinegar and paprika. "Cut the bread for all sandwiches thin," though not new, is an often forgotten injunction.-N. Y. Evening Post.

Mr. D. P. Davis, a prominent livery-man and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experi-ence that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflam matory rheumatism and suffered intensely. The first application of Cham-berlain's Pain Balm eased the pain and the use of one bottle completely cured him." For sale by Conser & Brock, druggists.

GOOD AS GOLD.

How Unused Railway Tickets May Be Redeemed at Slight Cost.

Some men with valuable unused railway tickets on their hands sell them to scalpers, while others go to the railway company that issued them and obtain their value in money. Most men, how-ever, do neither, and accept the loss when the ticket is worth less than on dollar. Indeed, many men do not realize that railway companies stand ready to redeem unused tickets, even of small R. W. BAXTER, Gen. Agent, value, so that the companies must be richer by many thousands of dollars per J. C. HART, Agent, Heppner, Oregon year by reason of this neglect or igno-

Every railway ticket bears the name of the general passenger agent of the road issuing the same. It is a simple matter to inclose the ticket with a letter directed to the general passenger agent, asking him to refund the money paid, and explaining the reason why the ticket is left unused in the hands of the purchaser. It is courteous to inclose a stamped envelope in which the money may be returned.

When all these things have been done, says the New York Sun, the ompany usually acknowledges the re ceipt of the ticketholder's communica tion and promises to investigate the matter. The investigation consists in the proper identification of the ticket and a little bookkeeping to set all right in the accounts. Then the purchaser receives from the company a check for the amount due, along with a lotter requesting acknowledgment on the part of the recipient. That closes the transaction, and there is no material loss on

-The Ningara falls all-the-year-round skating rink, which is the fad in London just now, stands on historic ground. On the site where it is built Hall block west of the Union Depot of C. B. & was once the cottage of Nell Gwynne, Q. C. M. & St. P., C. & A. P. Fr. W. & C., and the C. St. L. & P. Railroads. and her neighbor John Milton's house stood next door-a curious juxtaposition indeed.

-Monterey bay, California, has for several weeks been swarming with all kinds of fish. The surface of the water is constantly stirred and churned by the schools of fish. Sardines are so numerous that they are caught by bucket-

New ideas germinate almost hourly in the brain of Cyrus Teed, of Chiengo. He thinks of laying out a model city on a Louisiann plain. The streets are to be 400 feet wide, and each street is to be so arranged in tiers as to have four separate roads, one above the other—the lowest for pedestrians, the next for bicyclists, then one for wagons, | botel. and the highest one for railroads.
