Low freight rates are given on shipments to Pendleton for scouring and packing in transit. Many of the leading buyers make this place headquarters, and all large operators frequently visit Pendleton warehouses. As a market this place is equalled only by The Dalles in quantity of wool which attracts competition, with this advantage :

From no point in the Northwest, Portland included, is wool shipped East at less expense than from Pendleton.

Water competition has not afforded sufficiently low rates upon wool in the grease and dirt, to equal the lower expense incurred by shipping only clean, scoured wool from Pendleton.

Owing to this fact Pendleton buyers are enabled to pay as much or more for wool at this point than is averaged at other places having reputations as "high markets." based upon exceptional sales of fancy lots of light wools. Considering character of wool,
