reason to believe it will be a slow, dracgy year. Our business in the past has been buying for Oregon and Eastern mills and dealers. Realizing how slow the mills and dealers will be in placing their orders this year, we think our method of handling will be an advantage to the grower, and considering the wool will not be moved from the home market nor from under your control without consent; you must not look upon our roposition ut the light of shipping on consignment.

For ten years past, "excepting 1803, the year of the panie," wools have brought better prices in the home markets, as the season advanced, than at the opening, and we believe this will be especially so this season.

When growers are not in a position to hold their wool, or feel inclined to sell to pay their oills, we will make an advance at a liberal rate of interest; will take charge of the wool, pay the teamster's and other charges when requested to do so, and when wools are to be shipped to The Dalles by rail, we will take care of the railway freights from point of shipment to The Dalles, and

Dalles by rail, we will take care of the railway freights from point of suppoint to the balles, and at such points as Heppner and Arlington, we will have a representative who will take charge of the wool and forward it. You will keep in mind that when shipping to The Dalles there will be no extra expense to you, and considering the low price of wool, we have concluded to do this work at ½ cent per pound brokerage. We will be pleased to hear from you, and send regular accounts of eastern and local markets when requested. The J. M. RUSSELL CO.
