Another Congressman.

Paine's Celery Compound, the Great Spring Remedy, Made Him Well.

A congressman is a public servant in the full sense of the word. He is responsible to his constituents, to his party, to himself—the honorable office is full of hard, thankless work, and heavy responsibility. Congressman William W. Grant is grateful to the friends who directed him to Paine's celery compound, when prolonged official work had well nigh exhausted his health and strength. His letter reads:
Committee on Expenditures War Dept. House of Representatives, U. S., Washington, D. C., Feb. 28, 1896.
I found relief in Paine's celery compound for insomnia. Its action on the circulation and digestion was also beneficial. Very truly yours
William W. Grant.

There is something wrong when one feels "tired all the time." It is contrary to every condition of good health. There ought to be no necessity of drumming into the ears of tired men and women who feel they are broken in health, and are every day losing in weight and strength, the urgent need of taking Paine's celery compound, now 'tis spring, to restore their spent nerve force and purify their blood. Some of the earliest good results noted from taking Paine's celery compound during these spring days is a regularity of the bowels, a better appetite, sound sleep, and good digestion. A healthy blood supply is regulated by the nerves, and when these vital tissues become fatigued and badly nourished, the bad effect is seen in falling digestion, distressing, ringing sounds in the ears, dizzy spells, depression, neuralgia and lassitude. These days afford every one the opportunity for shaking off old weaknesses and persistent disorders. Physicians of every school have been from the start urgent to inquire into the formula of Paine's celery compound, that they might satisfy themselves of its wonderful power of making the sick well. Prof. Edward E. Phelps, M. D., LL. D., as soon as he presented Paine's celery compound to his fellow physicians, was always anxious to have the inventor tried in cases that had resisted the usual methods of treatment, that he might prove the truth of every claim made for his newly discovered formula for Paine's celery compound. The great remedy always gave relief, and in 99 cases out of 100 made people well. Paine's celery compound cannot be judged by the standard of any ordinary medicine, arsenarilla or nerve tonic. It is a great modern, scientific discovery, singularly unlike any remedial agent that has ever aimed to effect a similar purpose—to make people well. Paine's celery compound is the one real remedy known today that never fails to benefit. Get Paine's celery compound, and only Paine's celery compound if you wish to be well.

REPLICATION EXTRAORDINARY.
An Open Prayer to Lord Harvey Scott.
From Tillamook Headlight.

Almighty and most merciful Harvey Scott, we come before thee on benched knee, humble supplicants for thy mercy. We fervently beseech thee, all-seeing, omnipotent and Heavenly Scott, to bestow upon us a continual due of thy blessings. Oh, Lord Scott, come down from thy perch on high and be among us for a brief season. Thou of great understanding, wilt thou condescend to step from thy throne and enlighten us poor, meek, insignificant beings, who are totally unworthy of thy good offices and kind protection. We know that we have sinned and trespassed against thee, and that it is only through thy tender mercies that we are not already cast into the bottomless pit of despair, where the world roareth and fro, and the debased sinner looks upward on the point of many a spear whence the heavens are rent asunder. We have erred and strayed from thy path like lost sheep. We have done things which we ought not to have done and have left undone things which we ought to have done. Make us see the awful condition which confronts us before it is everlasting too late. Send the arrow of conviction deep into the hearts of the wayward ignoramuses. Put it in their hearts to serve thee while they may. [A-men.] Permeate their souls with the love of Scott! [Lord Grant.]

Oh, thou great and eternal one; thou of infinite wisdom; thou austere and ascetic being, who rulest with an iron hand; thou great and only Scott; thou who mayest smile the firmament under and with one fell stroke wipe the universe out of existence; wouldst thou spare us yet a few days that we may prepare to meet thee.

All praise be to thy name! [B-a-a-a] We thank thee that we are permitted to live, and we shall consecrate and consecrate our lives to thee. [Amen.] Separate our whims from us as far as the east is from the west, unworthy because we are. Imbue us with thy love. Oh, Lord Scott, wouldst thou bless some of our erring brethren. Put words on their tongues and wisdom in their hearts, and especially wouldst thou send Bill Smith and Sister Wilson with a suitable degree of intelligence. Oh, Scott, thou knowest that they will require a special effort on thy part and demand thy immediate attention. [Lord Grant.] Make them snow. Where they should have grey matter they have cellular tissue. Thou alone hast the great power in thy powerful hands. A surgical operation may be necessary,

but oh, great Scott, this is a case of emergency. May all in the land bow down and worship thee that thy name may be glorified. Counsel us in the ways that give thee pleasure. Give us thy protection. Guide, guard and protect us through the uneven journey of life; alleviate the sufferings of our frail and dying bodies, and at last save us for Scott's sake. Amen!

Don't think because you are sick and nothing seems to give you relief that you can't be cured. There must be a cure for you somewhere. If your doctor can't cure you, perhaps he has mistaken the cause. Anybody is liable to make a mistake sometimes. One in three of us suffer from indigestion, and one out of three dyspeptic doesn't know it. That is, he may know he is sick, but he blames it to something else. Indigestion is the cause of half of our dangerous diseases. Shaker Digestive Cordial, made from tonic medical roots and herbs, is the most natural cure for indigestion. It relieves the symptoms and cures the disease gently, naturally, efficiently, giving fresh life, strength and health to sick dyspeptics. At druggists. A trial bottle 10 cents.

PRESS COMMENT.
Salem Statesman: If the candidacy of Judge Northrup in the second district is to be judged by his speech opening the campaign, he should be snowed under by an overwhelming vote. He panders to the favor of the free trade democrats and the mugwump republicans by claiming to be a "moderate protectionist." That is the sort of a protectionist Wilson is. The "moderate protectionist" in the democratic party devised and passed the present tariff law, that is ruining the industries of the country and plunging it headlong into bankruptcy. The "moderate protectionist" republican demagogue is more to be feared than the genuine free trader. If we get a sprinkling of them into congress, and if the "gold bugs" of Wall street and their sympathizers and the free raw materials men of the East succeed in keeping the financial question to the front, we will secure no tariff legislation at all. By all means, for the benefit of this suffering country, the Northrup, the milk-and-water tariff men, should be kept out of the halls of congress. Ellis is a safe man. He will vote for more than "moderate protection." He will vote for protection that will protect. Then his free silver ideas will not hurt the country. The era of prosperity that will sweep over the land will swallow up that issue. It will be lost sight of and forgotten in the events and the measures that will press forward to engage the attention of the American people.

BEAUTIFUL THOUGH PAINFUL.
We sing "Come Gentle Spring," and are often very sorry that we did anything of the kind, for Spring, though beautiful, is sometimes very painful. The very luxury we enjoy in the return of the balmy air is the latest source of a great many pains and aches. It is because the nerves are relaxed in this way that they become weak and easy prey to sudden attacks of neuralgia, but we have in St. Jacob's Oil something that restores the tone, vigor and strength of the nerves to what they had been. The prompt use of it in these neuralgic attacks of springtime is sure to be followed by a perfect cure.

ELLIS WILL BE ELECTED.
From Baker City Republican.
There is nothing more certain than that the country people will throw a large vote for Hon. W. K. Ellis. Since the Oregonian has determined on his defeat, the people outside of Portland will give that journal to understand that it does not dictate the defeat or election of any man in Oregon. Nevertheless it charges down upon Mr. Ellis with a clear-toned song of presumptive triumph, and will find that a people not Oregonian ridden, which reside outside of the Astoria of Oregon, are subjects quite germane to be considered. It is about time that the people of this state teach the Oregonian that it is not the Carr of the political doctrines of any man.

Our metropolitan paper talks glibly of the ignorance and degeneracy of the country folk. It puts its Portland candidates into the field to defeat a nominee residing in the country, and then unblushingly asks the farmers and other out-of-Portland citizens to vote for their city manseled political slave. But like electricity, progress in independent individual political action travels fast. Even out here in Baker county we are not Oregonian political ticket-leaves men. This fact of Oregon has been sought in the sweep of what we call "standing under the yoke," and we are going to work for, vote for and elect Mr. Ellis. Just after the 3rd day of June the Oregonian will find its political fog-horn immensely battered when sitting in the whispering gallery of this state listening to the news of Mr. Ellis' election.

A Small Spot May Be Cancer!

It is very often that the most insignificant symptoms are forerunners of the most violent disease. There is not a more destructive disease than cancer, and in a majority of cases it is first indicated by a very small scab or sore, to which no attention is attracted, until it before long develops into most alarming conditions. Here is such a case, where the first symptoms were too small to be noticed for quite a time. Mr. J. B. Arnold belongs to one of the oldest and best families of Carolina; he is well and favorably known throughout South Carolina, and has resided at Greenwood for years. Cancer is hereditary in the family, an aunt on each side having died from it. Several years ago a small spot, like a tiny ulcer, about the size of a bird-shot, appeared just under his left eye, above the cheek bone. He thought nothing of it for some time, until it began to grow rapidly, spreading all the time, and destroying the flesh as it went.

MR. J. B. ARNOLD.
He says: "It gave me a great deal of pain—those sharp, darting pains so characteristic of cancer. I took many so-called blood-purifiers, without the slightest effect, and sought the help of the best physicians, but they did me no good; one told me, however, that I was incurable and had better make my arrangements accordingly. I was on the verge of despair, when Dr. J. L. Miller, one of the leading druggists of my town, recommended S. S. S. The first bottle seemed to make me worse, but Dr. Miller told me this was a favorable symptom, and by the time I had taken the second bottle, the cancer began to discharge, and as I continued this became quite profuse, and kept up for some time. Then it gradually grew less, and after awhile ceased altogether, and to my delight the place dried up and is cured entirely, so that nothing remains but a scar."

"I consider S. S. S. a boon to suffering humanity, and feel that I owe my life to it, as the cancer had made such progress when I began S. S. S., that my death was declared to be only a matter of a very short time. The cure effected in my case is considered by every one most remarkable, and clearly demonstrates the fact that S. S. S. does cure hereditary cancer. No one who is afflicted with this dreadful disease can afford to fail to give S. S. S. a trial, for that is all that is necessary to convince them of its virtues."

The above is but one of many remarkable cures being daily made by S. S. S. Cancer in its alarming prevalence, and manifests itself in such a variety of forms, that any sore or scab, it matters not how small, which does not readily heal up and disappear, may well be regarded with suspicion.

The fact that S. S. S. cures hereditary cancer, which is considered incurable, places it without an equal as a sure cure for all manner of rare blood diseases, such as Scrofula, Eczema, Contagious Blood Poison, or any other form of bad blood, *Alopecia Constitution*.

A WOOL MARKET.

PENDLETON

This has become an established market for Eastern Oregon, Washington and Idaho wools. Last season three million pounds were received here by rail from Huntington, Baker City, Heppner, Arlington, and from Yakima, Spokane, Lewiston, Walla Walla and intermediate stations.

Low freight rates are given on shipments to Pendleton for scouring and packing in transit. Many of the leading buyers make this place headquarters, and all large operators frequently visit Pendleton warehouses. As a market this place is equalled only by the Dallas in quantity of wool which attracts competition, with this advantage:

From no point in the Northwest, Portland included, is wool shipped East at less expense than from Pendleton.

Water competition has not afforded sufficiently low rates upon wool in the grease and dirt, to equal the lower expense incurred by shipping only clean, scoured wool from Pendleton.

Owing to this fact Pendleton buyers are enabled to pay as much or more for wool at this point than is arranged at other places having reputations as "high markets," based upon exceptional sales of fancy lots of light wools. Considering character of wool, and shrinkage, it may safely be claimed that the average sale in Pendleton

Net the Grower more Cash for the same amount of wool than can be obtained in any other Market in the State.
