## STATUE TURNED GREEN. istonishing Transformation in One Night

Caused by Acid: A singular transformation in the ap pearance of a statue of the great musician. Spohr, that stands in the market place of the town of Cassel, in Hesse-Nassau, Germany, recently caused consternation among the inhabitants of that sleeply little municipality, says the New York World. The believe it, but there was no doubt that the statue had, over night, turned green. Hitherto the figure had stood in the market place, a stately memorial in bronze.

The Cassellites concluded that super natural means was not an explanation of particular value, and they investigated. It was found that an artful

prentice boy had been the agent,

The boy had taken the matter seriously to heart and, perhaps, was inspired by his subject. It seemed to him that Spohr was deserving of more Baby is going to Shut Eye town, He consulted a chemist, who was a friend of his, as to what would best clean bronze, and the chemist suggested hydrochloria acid. ## A TERRIBLE GUN.

New Cannon That Can Destroy a Ship Ten Miles Bistant.

Maxim the gunmaker, and Dr. Schupphaus, the gaupowder expert, have invented a new cannon and torpedo powder which will knock all modern war vessels to pieces like eggshalla This big gun will throw a huge camoo ball full of explosives ten miles, and when it strikes it will smash into kindling wood everything within hundreds

In fact, this new terror doesn't even have to hit a warship to do this. If the shot lands in the water near by will sink the ship and stun everybody on board from the force of the ex-

The discovery is called "the Maxim Schupphaus system of throwing aerial torpedoes from guns by means of a special powder which starts the proectile with a low pressure and in creases its velocity by keeping the pressures well up throughout the whole length of the gun." Patents on the system have been taken out in the United States and European countries

The special powder employed is alnost pure gun-cotton, compounded with such a small per cent of nitroglycerine as to possess none of the disadvantages of nitroglycerine powders. and preserved from decompe through a slight admixture of urea. It is perfectly safe to handle, and can be beaten with a heavy hammer on an anvil without exploding.
