

THE BEST FAMILY MEDICINE
She Has Ever Known. Words of Praise from a New York Lady for
AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equalled."

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent the grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known. Mrs. MARY JOHNSON, 388 Rider Avenue, New York City.

Women

Who are nervous, weak, worn out with local troubles find pure blood, nerve strength, and perfect health in Hood's Sarsaparilla.
We do not say the above to raise false hope. It has been the experience of many, very many women in those intensely trying periods which demand and consume so much force—those special physical trials we delicately indicate by merely using the words—Maid, Mother, Matron.
Like a confidential friend we suggest the use of Hood's Sarsaparilla, a reliable blood purifier and tonic. It has helped many others and will help you.

BIG JOHN MORIARTY.

Said to be the Tallest and Strongest Man in Eastern Maine.
John Moriarty, known all over eastern Maine as "Barney Kelley's Giant," died in Oldtown hospital recently of typhoid fever, says the Lewiston Evening Journal. He has been for nearly two years employed as construction hand on the Bangor & Aroostook railroad, and later on the new Ashland branch, where he became sick.
Moriarty stood 6 feet 9 3/4 inches in his stocking feet, and generally weighed 240 pounds. Had he been fat he would have been enormous. But he was very lean. "Why," said Barney Kelley, "you could feed the giant on porterhouse steak and eggs and he wouldn't gain a pound; but he was an awful tough man!"
His arms were very long and he had hands as powerful as the paws of a gorilla. All over his body the muscles stood out in lumps and cords, and his strength was immense. He could do as much work as two ordinary men, and on that account his services were always in demand at more than common wages. He was especially serviceable as a derrick man—he could turn the heavy crank all day without tiring. An ax was like a toy in his hands. He could end and shoulder a small log or piece of timber that two ordinary men could barely lift, and in every department of hearty manual labor he was a very Hercules.
Many stories are told of the giant's mighty strength. Once, when two saucy woodsmen "guyed" him about his towering height, he seized them by the shoulders, one in each hand, and knocked their heads together till their teeth rattled—and they were two good-sized men.
At another time some toughs came into a barroom where he was and proceeded to "clear the place out." Moriarty took them, two at a time, and pitched them half way across the street as though they were so many ninetails.

HARD TUSSELE WITH BRUIN.

Oregon Hunter Attacks a Bear with an Ordinary Jackknife.
J. C. Hearing, who was hunting and trapping in the Blue mountains, a few miles west of Elgin, met with a little adventure with a bear recently that might have proved rather serious to him had it not been for the intervention of one of his dogs, says the Portland Oregonian. He was engaged in setting traps, and as he had considerable weight to carry he had no weapon with him except a jackknife, and on his rounds his dogs discovered the winter quarters of a bear in a big hollow tree. The bear was at home, and was pretty much alive, as subsequent events proved. As bear pelts are quite valuable, Jake was quite anxious to secure this one, but was afraid that if he went to camp, a mile and a half distant, bruin would escape, so he lashed his pocket-knife to the end of a stick and attempted to cut the animal's throat. He only succeeded in inflicting some painful flesh wounds, which so enraged the brute that it suddenly came out of its hole, and was almost on him when one of his dogs made a sudden onslaught on the animal's rear, which diverted his attention long enough to enable Jake to dodge behind a tree, and the dog soon made it so tropical for the bear that it was glad to take refuge in a tree, where they kept it until a gun was procured from camp, when the animal was quickly dispatched.

PICKED UP IN THE STREET.

A Blacksmith Finds His Tool to Be a Nugget of Pure Gold.
Curious things sometimes happen in the gold bearing regions of the north-west. The Blackfoot (Dakota) News tells of a somewhat remarkable experience which occurred to a blacksmith at that town lately.
The smith, whose name is Farmer, had in his shop a grindstone which he wished to "taper off." For this purpose a small stone was requisite. So he went out of doors and made search for a stone of the right size and shape.
He found one somewhat smaller than a hen's egg, and returned to his shop to begin to smooth down the edge of the grindstone with it. He had not "smoothed" long before he thought that the stone worked rather queerly, and was, in fact, too soft to grind the stone. He took it to his anvil and broke it in half, and then he found that he had picked up a nugget of pure gold.
Unfortunately, it was a rather small nugget. He sold it for \$5.52 cents, and though this was a very good price for a public picked up in the street, it was not wealth.

Waits Long for a Drink.

On Laurel hill in Bridgeton, N. J., there stands a house between whose walls is hidden a quart bottle of the purest applejack. The bottle has rested there for 29 years, and has, according to the old story told, eleven years more to stay. When the house was built, 39 years ago, a quart bottle was filled with "jack" and tightly sealed and plastered in the wall by a man who had the house built. The bottle is not to be taken from its dark recess until the son of the man who placed it there for him becomes 59 years of age. The "boy" is now 39 years of age, and in all these years has kept true to the promise made in the days of his youth to his father not to touch the bottle of applejack until he reaches the half-century mark in life's journey.

Louis Napoleon's Prediction.

A correspondent of the New York Sun calls attention to the fact that in his "Recollections of a Minister to France" Mr. Washburne says, "I was somewhat surprised to hear him (Napoleon III) remark that he thought Spain could not hold Cuba, and that the result would be that she would sacrifice all her soldiers and spend all her money and then lose the island in the end."
A Fortunate Answer.
An amusing correspondence recently took place between a Wisconsin farmer and a local boiler firm. The farmer wrote as follows: "Dear Sirs: I have a 1,000 acres of trees that I want cut. I can't get them cut for \$100,000, but I will pay you ten hundred dollars for an engine that will do my work," and he went on to explain just what sort of an engine he wanted. The boiler firm saw that the engine necessary to accomplish the devastation of his virginial forest would cost \$1,000, and they informed him to this effect. A week passed and then the following witty epistle came from the Wisconsin farmer: "Dear Sirs: what 'a all got out wed I want of an engine or boiler if I had \$10,000?"

HOME TREATMENT.

That Will Give Instantaneous Relief and a Permanent Cure in all Catarrh, Throat, Bronchial, Heart, Lung, Stomach, Kidney and Liver Affections,
Placed Within the Reach of All.

Dr. Darrin, the celebrated physician,

who makes the Eye, Ear, Catarrh, Deafness, Throat, Bronchial, Lungs, Kidney, Stomach and Liver especially, has opened offices in this city, at the Palace hotel, until July 3, for the treatment and care of the afflicted in this vicinity, who cannot afford to take a journey to large cities to consult specialists. Dr. Darrin's reputation is so well known that the afflicted throughout this part of the country should not hesitate to avail themselves of his phenomenal skill.
Dr. Darrin makes a specialty of all diseases of a chronic and obstinate character that have for years, or a lifetime resisted the ordinary modes of practice, and are the classes of maladies in the treatment of which he has become pre eminent throughout the American continent, and especially on the Pacific coast, and by his success has achieved for himself an enviable reputation.
For those who cannot possibly place themselves under office treatment he has formulated a method of "Home Treatment" whereby the suffering may be favored with his latest modes of cure, which in many cases give instantaneous relief and soon effects a permanent restoration to health—which includes building up and reorganizing the whole constitution.
Dr. Darrin treats all curable nervous, chronic, acute and private diseases of whatever nature, and makes a specialty of all diseases of eye, ear, nose and throat, catarrh and deafness, bronchitis, la grippe, consumption, dyspepsia, constipation, heart, liver and kidney diseases.
He permanently cures all diseases of the genito urinary organs, in either sex. All peculiar female troubles are confidentially treated.
Those who contemplate calling on the doctor should do so at once as his time is limited here and you may need more than one treatment.

For your Protection.—Catarrh "Cures" or Tonics for Catarrh in liquid form to be taken internally, usually contain either Mercury or Iodine or Potassa, or both, which are injurious if too long taken. Catarrh is a local, not a blood disease, caused by sudden change to cold or damp weather. It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the results of catarrh will follow: severe pain in the head, a roaring sound in the ears, bad breath, and sometimes an offensive discharge. The remedy should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents.
