HOW IS THIS SOURCE?

Recently the Salt Lake Tribune, a supporter of Bryan, published in its columns a "special" to the Chicago Tribune which we give below, headlines and all. It has been charged by the partisan Bryan press that the opposition papers were manufacturing telegraphic news which portrayed a condition of affairs in the Bryan camp not altogether of the "happy family" character. One enterprising Eastern Oregon journal has taken the pains to telegraph Chairman Jones as to the truth of these rumors of disagreement. Jones denies that there is anything but harmony, and is confident of Bryan's election.

The following is the Tribune's "special": "Gorman to lead. Jones to be retired and a new plan arranged for Chicago, Sept. 16.—A special to the Tribune quotes Senator Faulkner of West Virginia as saying it is definitely settled that Senator Gorman will in a short time be at the head of the democratic campaign committee. 'Chairman Jones will not formally resign,' he said, 'because that will cause demoralization in the party, but Senator Gorman will be at the head of the campaign work within a few days.'

"The first thing Senator Gorman will do, will be to put a stop to the rear platform speeches of Mr. Bryan. It is doubtful, too, whether Senator Teller will make any speeches in New York, as Senator Gorman regards that state irredeemably wedded to the gold standard. The great fight will be made by Senator Gorman in the States of Iowa, Illinois, Minnesota and Michigan, which are essential to the success of Mr. Bryan."

HOW OUR GREAT SHIPPING ONCE SCARED ENGLAND.

Under the benign policy of protection according to the policy of discriminating duties, which despite every impediment which foreign nations put in our way had built up and steadily maintained in the carrying of practically all of our foreign commerce, the London Times, in May, 1827, thus thunderously squealed:

"It is not our habit to sound the tocsin on light occasions, but we conceive it to be impossible to view the existing state of things in this country without more than apprehension and alarm. Twelve years of peace, and what is the situation in Great Britain? The shipping interest, the cradle of our navy, is half ruined. Our commercial monopoly no longer exists; we have closed the western Indies against America from feelings of commercial rivalry. Its active seamen have already engrossed an important branch of our carrying trade to the East Indies. Her starred flag is now conspicuous on every sea and will soon defy our thunder."

And straightway the United States proceeded to repeal the navigation act under which these magnificent successes were being achieved. What fatuous, aye, what criminal folly!

SENATOR DAVID B. HILL has decided to support the Chicago ticket, yet thinks that Bryan will lose New York by not less than 150,000 votes. Hill made a strong protest against the adoption of the free silver platform at Chicago and refused to vote for any candidate.

JOHN BOYD TRATHER, the nominee of the populists of New York, has been asked to withdraw. He does not stand squarely on the Chicago platform, it is said.

Sleeplessness and Nerve Exhaustion

PRODUCED BY INFLAMMATORY RHEUMATISM.

Two Cases in Gladwin County, Mich., Cited to the fact that Nerve Debility can be Treated with a Nerve Food Successfully.

DO NOT USE A STIMULANT, USE A NERVE FOOD.

From the Courier-Herald, Saginaw, Mich.

In the long list of diseases that human flesh is heir to, none are perhaps more painful than inflammatory rheumatism and its attendant ills. The sufferer lies racked with pains that seem almost unbearable and many times even death itself would be a relief. Tortured by pains that seem beyond human skill to drive away or even alleviate, the wretched sufferer tosses on a bed of pain, hoping that something may be found to release him from the thralls of that dreaded malady. A case of this character recently came under the observation of a representative of the Courier-Herald, while he chanced to be in the thriving little town of Gladwin, the county seat of Gladwin county, Michigan. While there he heard of the case of Mrs. William Flynn, who had been a victim of inflammatory rheumatism in its worst form and had endured untold sufferings from it. It had drawn her hands out of shape until they resembled bird's claws. She had fallen away in flesh until she was almost a living skeleton and her sufferings were so great and constant that she became a victim of sleeplessness. All of these troubles contrived to make her condition most alarming and she became the victim of hallucinations, seeing terrible things and fancied dangers every where.

Then, at a time when the most serious consequences were threatened, she was induced to try a most remarkable remedy that had cured one of her friends and after a short time a happy termination of her terrible illness was assured. Asked in regard to her trouble and its treatment Mrs. Flynn responded as follows: "Two years ago I had a terrible attack of inflammatory rheumatism that prostrated me utterly so that I was entirely helpless. The trouble was in a very violent form and drew my hands out of all shape. It also affected my lower limbs, which became badly swollen and helpless. I had had attacks of rheumatism several times before but none so violent as this. I had constant pains in the joints and violent headaches. There were also times when I had chills very severe and these were followed by periods of violent perspiration that was exceedingly profuse and weakened my constitution. This condition kept on for about three months.

"One day a lady friend who had used Dr. Williams' Pink Pills for Pale People with great benefit, met my little girl on the street and on learning of my condition advised me to get some Pink Pills and take them. I got a box and began to use them according to directions. After two or three doses they acted very clearly on my nervousness. I had not been able to sleep for a long time and this was beginning to tell on me very severely. I had fallen away in flesh until I was very thin and weak and my hands were hardly more than skin and bone. As I said after two or three doses of Pink Pills they began to quiet my nervousness, and I could sleep. I continued to gain so that in a few months I was again able to be up and do my own work. I am free from the pains in the head and at night I can get healthful and refreshing sleep. These pills have done a great deal of good for me and I cannot speak too highly of them. There are also other cases around me where they have been used and they have acted beneficially as they did in my own case. I cannot say too much for them and say these few words of testimony in order that others who are suffering as I was, may try them and get relief."

"More business, less noise" is the motto of the republican party. ARIZONA republicans endorse the St. Louis platform without any reservation. TURKEY is still slaughtering Christians. The civilized nations have stood this thing too long. Cows still roam the streets of Heppner. Will the new cow ordinance prove to be a dead letter, too? How to earn the dollar we have is the problem that will be settled in November by the election of McKinley. JOHN BOYD TRATHER has been chosen as the democratic candidate for governor of the state of New York. J. B. Montgomery, of Portland, who has written several letters for the Oregonian advocating inter-

national bimetalism, since McKinley's nomination, has written another letter in which he has decided to support Bryan. There are plenty of recruits to fill his place. SENATOR MITCHELL'S speech, to be delivered here on the 13th of October, should bring out every voter in Morrow county. THE city of Kobe, Japan, has been wiped out by fire and flood. The loss of life is appalling and the damage will not fall below 1,000,000, yen. CANDIDATE SEWALL, of Bath, Maine, president of the American Merchant Marine Association, has given the organization notice that he will no longer serve as president. RUNNING on a free trade platform and endorsing the republican principle of protection to the American marine wouldn't work together, hence Mr. Sewall's action.

Recently, while a representative of the Courier-Herald was at the thriving village of Gladwin, Gladwin county, he heard of a case of this nature and that it had yielded to a short treatment with a celebrated remedy, the name of which has become a household word in every hamlet, village and city in the land. The victim of this unusually severe case of nervous trouble was Ransom Simmons, an old and well known resident of the village. His nervous condition had grown worse and worse, until the slightest unusual noise, or even the opening of a door would almost drive him frantic. Skilled physicians had studied over his case and prescribed the usual remedies, but their efforts were unavailing, and the patient continued to get worse. Finally, one day in reading a newspaper, he encountered an item in regard to a case similar to his own, and read with great interest of the means by which it had been cured. He at once decided to try the remedy, and did so. As to the results of its use, we can do better than quote Mr. Simmons own words. When asked to narrate his experience, he spoke as follows: "As the result of a long continued illness I became the victim of nervous debility in its most violent form about four years ago. It kept growing worse and worse until I had become so nervous that the least noise around the house, or the entrance of anyone into the house, would throw me into a violent nervous paroxysm. I tried medicines for the trouble, but was not relieved. Finally, I read in a Detroit, Michigan paper about a cure of a trouble somewhat similar to mine, effected by a medicine known as Dr. Williams' Pink Pills, and decided to give these pills a trial. After I had taken a box of the pills, my nervousness began to be relieved, and after taking ten boxes of Pink Pills I was so well that I discontinued their use, and have not had to use them or anything for nervous troubles for two years past. In my case they acted quickly and effectually on my nervous troubles, and they proved an efficient and reliable remedy. Since using them I have recommended them to others, and they have used them with great benefit."

Mrs. Simmons corroborated her husband's statements and was earnest in her good words for the remarkable remedy that had been the means of affording her husband much needed rest, and had freed him from the violent nervous debility that had made his life miserable. Many cases similar to this one of Mr. Simmons' have been noted, wherein Dr. Williams' Pink Pills have been used with eminently satisfactory and speedy results, and liability to frequent and excessive nervous excitement has been readily relieved and the shattered nerves built up and restored to a normal, healthy condition.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatitis, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness in either male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box, or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

THE GREAT QUESTION.

A Washington correspondent says in a recent letter:

The calm, dispassionate, legal-like open letter which Attorney General Harmon made public several days ago is by far the most important utterance that has come from the administration, against Bryan's anarchistic tendencies, not excepting the letter from Mr. Cleveland. Mr. Harmon's letter deals exclusively with that clause of the Chicago platform declaring against what it termed federal interference in local affairs, which everybody knows to have been assumed at Mr. Cleveland's prompt suggestion of the interference with the U. S. mails by the railroad rioters at Chicago, the most creditable thing in his administration, and with Mr. Bryan's pledge not to do likewise should he become president, and a similar state of affairs be brought about again. The following words of Attorney General Harmon are worthy of the careful study of every good citizen, regardless of party: "This in my judgment, is a far more serious matter than the money question or any other question now before the people, grave as they all are. Our form of government may survive a wrong decision of those questions, and the people may endure for a time the evils which result from false systems of finance and taxation, but if the president has deliberately disregarded the instrument upon which the United States is founded, by supplanting the authority of a sovereign state by armed force, a precedent has been made which threatens our form of government, while if a candidate for president may properly pledge himself in advance, as Mr. Bryan has done, to do nothing to protect the property, maintain the authority and enforce the laws of the United States, unless and until the officers of another country request or consent, then we really have no federal government, for a government which is not entirely free to use force to protect and maintain itself in the discharge of its own proper functions, is no government at all." Mr. Harmon also quotes the resolution offered in the senate by Senator Daniels, of Va., who presided over the Chicago convention, voted for the platform and who is now on the stump for Bryan, indorsing in the strongest language the president's action in suppressing the railroad riots.

Your Worst Enemy Writing

With the rheumatism is an individual whom, if you have a Christian spirit, you would forgive. He is, no matter what his delinquencies, punished enough. Nothing short of Tophet could enhance his misery. Moreover, he is in serious peril. The disease is always prone to attack his heart and kill him instantly. As a means of curing this disease, Hostetter's Stomach Bitters has the highest reputation and the most authoritative professional sanction. Its use in the preliminary stage of the complaint is the wisest precautionary measure rheumatic invaders can possibly adopt. The Bitters is also a remedy of the greatest utility in malarial and kidney trouble, dyspepsia and liver complaint, constipation and nervousness. It counteracts the effects of hardship and exposure in camp or inclement weather, and is a capital promoter of appetite and sleep. Give this fine remedy the persistent trial to which all medicines of standard reputation are entitled.

THE strike and subsequent lawlessness at Leadville, last week, has cost several lives and wrought the destruction of thousands of dollars worth of property.

"For five weeks I lived on cold water, so to speak," writes a man who suffered terribly from indigestion.

He could hardly keep anything on his stomach. What stayed wasn't properly digested and gave him terrible pains.

This is not an uncommon case. Dyspepsia don't get enough nourishment. They are generally thin and weak.

They may eat enough but they don't digest enough. Much of what they eat turns into poison. If this keeps on getting next.

That's why it is best to take Shaker Digestive Cordial, as soon as symptoms of indigestion appear.

It cures all the evils of indigestion, and prevents the evils which indigestion causes.

McClure's Magazine for October. No reader of the "Bonnie Briar Bush" stories can fail to be interested in the opening article in the October McClure's. It is an account of Ian MacLaren, the author of those most genial tales, by an intimate personal friend, the Rev. D. M. Ross, describing him as a minister and pulpit orator, in which characters he had become eminent long before he took up authorship, as well as his literary methods and career. A series of portraits, pictures of Ian MacLaren's several residences, and some original Dramatocopy views illustrate the paper.
