RAMPANT DEMOCRACY.

Democratic Press Burst All Bonds in Their Indignation.

In every contest in Ohio, Iowa, Illinois and Michigan when the Democrats were on a free islver or cheap money platform they have been overwhelmingly beaten. What evidence have we that there is to be a change in '96?-Montgomery (Ala.) Advertiser.

The financial plank in the platform adopted by the Democratic national convention at Chicago is distinctly a declaration for such repudiation of existing debts, public and private, as can be secured by the enforcement upon the country as legal tender money of a debased silver coinage conformed to a degraded standard of money New Orgraded standard of money.-New Orleans Picayune.

Scratch a silver man and you come to a Populist. In the heart of each burns the desire to get as much as possible and give as little. If either of them hap-pen to be a debtor, this desire takes the form of repudiation. As most of them are debtors repudiation is the thing they are for, and in the Chicago platform they go for it straight.—New York

It is but proper to say in fairness and justice to the grand old Democratic party of Hamilton, Jefferson and Jackson that we cannot depart from the ways of the fathers upon the financial question, and, therefore, cannot, much to our regret, follow the Democratic banner as it trails into a foreign camp; and must, as a matter of self-respect, refuse to support Mr. Bryan upon the financial platform upon which he has been placed and stands.—Dayton (O.)

Till the contest is decided our voice shall be raised and our influence given for the election of Mr. McKinley to the presidency. The security of the currency is the paramount question of the hour. It eclipses issues. Believing that this security can best be attained by the success of the Republican party, we promise it our sincere and hearty support for its presidential ticket in the impending campaign. We have never impending campaign. We have never believed that the Republican party made the best selection possible to it, but it is difficult to see how any candid man can deny that the selection of the Republican party was eminently more fitting and appropriate. There is an absence of dignity in the Democratic selection which is seen both in the candidate himself and in the circumstances that attended his nomination.—Boston Herald.

Will Lose Hundreds of Thousands. Will Lose Hundreds of Thousands.

Savannah News: All Democrats will not approve the declarations in respect to coinage, bonds, the currency, income tax and railroads. These latter declarations are much more Populistic than Democratic. It looks very much as if they were put into the platform for the express purpose of currying favor with the Populists. In fact, if we are not mistaken, Senator Tillman said in his speech in the convention that the purpose of them is to influence the Populists to come into the lines of the Democracy and become a part of the Democracic party. He did not seem to take into consideration the fact that the adoption party. He did not seem to take into consideration the fact that the adoption of Populistic declarations might not break up the Populist party, but would pretty certainly drive hundreds of thousands of Democrats out of the Democratic party.

Boss Champions of Disorder.

Trenton (N. J.) American (Dem.): But, whatever may be the course of the politicians and the party leaders, there will be thousands of Democrats in New Jersey who—not in resentment of the contumely with which the state and its interests have been treated but fee continuely with which the state and its interests have been treated, but from personal and public motives—will refuse to give their approval to a convention and a candidate which have publicly and vaingloriously threatened the destruction of the natiou's credit, the diminution of values, the retardment of business, the attack on property, and the triumph of disorder above the law and those called upon to administer it. And they will so refuse in the belief that they will so refuse in the belief that all other party issues fade into insignificance in comparison with the issue as it has been formulated at Chicago.

Danger to Liberty.

Galveston News: The fact is that the programme formulated at Chicago merely marks the skirmish line of a great and final battle for social revolution, industrial reconstruction, and constitutional subversion. Without constitutional safeguards there can be no assurance of either free government or individual liberty. An unchecked social Democracy means no law but the law of brute force, no rule and no order but the rule and order of irresponsible tyranny. Intelligent citizens grounded in wholesome appreciation of the constitutional essentials of a stable republic, who supremely cherish the priceless interests of constitutional liberty and security, who feel that there can be no true progress without the conservation of these interests, will not fail to see in present emergencies where their common danger lies. Realizing also that the problem of defense is their common concern, they can well understand that how they may bear fense is their common concern, they can well understand that how they may best proceed to combat, defeat and disarm their common enemy is a question of momentary expediency to be decided in the light of current exemps ing circumstances.

South Dakota Views.

Sioux Falls Argus-Leader: The Democrats have declared for a policy which will inevitably establish the single silver standard; will, in our opinion, wreck the national credit and reputation; will, for standard: will, in our opinion, wreck the national credit and reputation; will, for many years, make commercial confidence impossible; will spread ruin over the land; will destroy all hopes of bimetallism in the generation; and will indefinitely postpone a revival of good times. Under these circumstances the Argus-Leader can see its duty only in one channel. Believing, as this paper does, that the honor, safety and prosperity of the United States would be seriously jeopardized by the success of the Democratic party on its present platform, the Argusardized by the success of the Democratic party on its present platform, the Argus-Leader, with sorrow for the broken associations, with regret at parting from a name it has revered and loved, but with a consciousness of unavoidable duty, withdraws from the grand old Democratic party, which has, in our judgment, left its time-honored principles in pursuit of strange gods, and will throw whatever influence it may possess on the side of the Nation's prosperity and honor.

To Attempt the Impeasible.

Staunton (Va.) News: A law declaring that wheat, regardless of the surplus on the markets or the demand for it, should sell the year round at \$1 per bushel, and that corn and cats, no matetr what their intrinsic value, should always sell at the same figure as wheat, would be just as sensible as a free coinage of silver law and would be just as easy to carry into effect. The gist of the whole matter is that to attempt to coin silver in unlimited quantilies and to make it even in value at a given fixed ratio with gold is to attempt the impossible and to do what in the very nature of things cannot be done.

Syracuse News: The Chicago plat-Syracuse News: The Chicago platform is a wide departure from the platform adopted by the last Democratic state convention at Saratoga. It was so wide a departure that the New York delegation felt compelled to abstain from participation in the nomination of candidates on that platform. It remains for the coming Democratic state convention to formulate the policy of the New York Democracy. That convention, in nominating presidential electors, will point the way to Democrats which shall lead to the preservation of the party—the preservation of its unsuited bonor and integrity. The party which this year celebrates its 100th anniversary will not be permitted to go down to a dishonorable grave.

EDITOR DANA'S ADVICE.

Democrats Should Vote for McKinley and Not Sacrifice Principle to Party.

New York Sun: The political reasons for not putting up an honest-money can-didate this year on a genuinely Demodidate this year on a genuinely Demo-cratic platform are strong and obvious.

The nomination of another Democratic candidate would contribute to the per-sonal comfort of Democrats who are re-luctant to vote for Mr. McKinley, but it would accomplish nothing else. And this method of voting for a principle only would surely imperil the result in many a close state. a close state.

It will be said that there are such Democrats. It will be said that there are Democrats who can persuade themselves under no circumstances to cast their votes for any Republican candidate for President. favor, and during only two of the remaining six years—that is to say, in 1889 and 1891—was the outward movement large enough to attract attention. In 1889 there were large importations under the tariff of 1883 for the purpose of anticipating the increased duties of the Mc-Kinley bill, and this caused an outward flux of gold in payment. In 1891 the extraordinary outflow arose largely because of the Baring failure, which caught in its crash many foreign holders of American securities, who, being pinched for ready money, had to return some of those securities to this country fror redemption. ready money, had to return some of those securities to this country fror redemption. These explanations are ample to account for the exceptional exports which characterized two of the years of the Harrison administration, when the revenues of the country were upon a highly protective basis. Adding imports together and comparing results for the fifteen years in question we find that the aggregate exports to the amount of \$101,568,310. During this period the national debt was reduced from \$2,349.567,232.04 in 1879 to \$1,563,612,455,63 in 1832, a total reduction of \$785,964,776.41.

Now let us turn to the years from 1893 to 1896, when "tariff reform" held the boards:

| 1885 | Exports | \$87,506,463 | 1894 | Exports | 4.528,942 | 1895 | Exports | 30,984,449 | 1896* | Exports | 74,511,252

1895. Exports 20.984,449
1896. Exports 74.511,252
*Eleven menths ended May 31.
Here we have a total loss of gold during the short era of Democratic "tariff reform" of \$197.531,106, or a net loss in four years of \$95,962,976 over the net gain accumulated during the preceding lifteen years. During these same disastrous four years of Wilson-Gorman tariff reform, the national debt has been increased in principal \$250,454,330, and in interest yet to be paid almost \$250,000,000, or over \$500,000,000 in all. Had the voters of the United States not heeded the false arguments of Democracy in 1892 the national debt, instead of being increased in principal and interest over half a billion dollars in the intervening four years, would, at the same rate of decrease which prevailed from 1879 to 1892, have been lowered to the extent of \$224,558,507,32, and instead of a loss of \$197,531,106 through gold exports we should, at the ratio of the preceding fifteen Republican years, have had a net gain through imports amounting in the four years to \$27,085,012. Recapitulating these losses, and not saying anything of the tremendous percent. Recapitulatfour years to \$27,085,012. Recapitulating these losses, and not saying anything of the tremendous personal losses inflicted by the "tariff reform" experiment upon all classes of American citizensfor these in the aggregate are obviously incalculable—we find that the "change of 1892" from McKinley protection to Wilson-Gorman free trade has cost the government of the United States directly, in its finances, not less than \$246,174.

its finances, not less than \$949,174, 625,32, a conclusion reached as follows:

DEBTOR AND CREDITOR CLASSES.

From a Pamphlet Entitled "The Silver Snake."

What has been said about the merits of the question in a philosophical sense is plain and seems sound, but may there not be other reasons why silver should be coined at the ratio of 16 to 17

What other reasons can there he? Well, such reasons as those given with respect to the debtor class as against the creditor class.

Name some. It is said that the country for the past twenty years has been gradually getting into the hands of what is called the credinto the hands of what is called the creditor class, which is alleged to be a very small proportion of the population, while the great majority have fallen into the debtor class and into the absolute control of the others. Now it is alleged that these creditors, as a rule, are harsh and, practically owning the majority of the people and shie to dictate to them, are "sucking" what is called the "life blood" out of the country.

Who are these terrible creditors who are doing this? Name a single class.

Well, the hankers and money lenders, for instance; the "money power," as it is called.

Well, the bankers and money lenders, for instance; the "money power," as it is called.

Then the country is gradually getting into the hands of a class of which the secrety out of the people and enalwing them. That is the argument then is it? Well, you are from Hockford, II. Let us take the situation right in Blockford. That city, as we understand it, is the second intgest invalture manufacturing place in the world, being next to that is asid about the lerrible class of creditors he from Hockford as in any other place in the constry, and there is nothing in the motion of the debtor class he true, the fromble must be as apparent in Blockford as in any other place in the constry, and there is nothing in the panels who have created the wealth after it is created the wealth of those who simply handle the wealth after it is created the hankers, for instance. Now, what

is the real situation in Rockford? The number of bankers in that city is, eitegether, thirteen, and the total amount of capital which these thirteen bankers have is \$375,000. The total amount of deposits in their banks is \$3,400,000. So that these thirteen bankers, with a total paying capacity of but \$375,000, are entrusted with \$3,400,000 of other people's money with which to do business in any manner they choose. Upon its face, it would seem that any number of men who have a total paying capacity of but \$375,000 must be of great integrity, uprightness and reliability to be entrusted by the very people with whom they live and do business with whom they live and do business with whom they have a total paying capacity of \$3,400,000. Who are the people who have entrusted this thirteen with so large a sum of money, so much in excess of their paying capacity? They number 9,500 in that city of a total population of 30,000. In this case, therefore, who are the debtors? They are undoubtedly the bankers. These thirteen men owe these 9,500 depositors \$3,400,000.

Now, if all that has been said about the rapacity of the creditor class be true, think of the situation in which these depositors have these poor bankers. If all that has been said about the posarty.

positors have these poor bankers. If all that has been said about the poverty, the wretchedness and the enslaved con-dition of the debtor class be true, think of the miserable plight of these poor

of the miserable plight of these poor bankers.

What is true in Rockford must be true of the whole country. The real debtors of the country are bankers, and the real creditors of the country are the depositors, and it is to the credit of the bankers of the United States, as it is to the credit of the bankers of Rockford, that although they could net 50 per cent. on the dollar if the coinage of free silver at 16 to 1 were made legal, by paying their depositors who have deof free silver at 16 to 1 were made legal, by paying their depositors who have deposited gold at 32 to 1 with them in silver at but 16 to 1, none of the bankers of the City of Rockford, and but very few of the bankers in the United States, who would have so much to gain by the adoption of this free silver lunacy, have advecated this policy, lunacy, have advocated this policy, which would enable them at one stroke

lunacy, have advocated this policy, which would enable them at one stroke to clear so much money.

This brief statement makes it plain that all the vilification which has been bestowed by Populist orators and newspapers upon the creditor class of the United States has been emitted because of totally false misapprehension as to who the creditors are, and it is but a sample of the profound ignorance underlying the whole free silver agitation that they have undertaken to describe as vampires, blood suckers, Shylocks, etc., the great producing classes of this country who are its real creditors and who own all the money deposited in the banks and upon which bankers do business and upon the borrowing of which most of the manufacturing and production of this country is carried on. Se that the Populists of this country who have been claiming to be the friends of the people, have been denouncing them upon the supposition that the denunciation has been describing the bankers; whereas, the real truth is, the bankers are the debtors and the depositors are the creditors.

According to that the Populists won't accomplish free silver?

Well, there are in the United States 9,000,000 depositors in the sayings institu-

accomplish free silver?

Well, there are in the United States 9,000,000 depositors in the savings institutions of the country, and they own deposits amounting to about \$5,000,000,000.

If all the people in the United States who can vote, should vote, the total vote cast in a national election would be about 14,000,000; but the largest average national vote cast is about 11,000,000; hence, the total number of depositors in savings institutions in this country largely outnumbers any majority of votes which has ever been cast in a national election.

election.

In the single state of New York there are 1,700,000 depositors in the savings banks of that state. They have on deposit \$600,000,000. In the state of New York there are but about 1,200,000 voters; the number of depositors in the savings banks of that state exceeds the number of voters in that state by 500.

These figures show the utter impossibility of any such movement as the free silver movement succeeding in this country, because its success would inelection. free aliver movement succeeding in this country, because its success would involve the conversion of more people than have ever voted on one side upon any question in this country, to the absolute belief that it would pay them to settle with the savings institutions in which their money lies, at 50 cents on the dollar for every 100 cents on the dollar they have on deposit.

> From a Manifesto by the Illinois Sound Money Democrata.

A national convention convened under the constituted authority of our party has just closed its sessions in the city of Chicago.

It entered upon its work by violating all precedents in the rejection of a dis-tinguished Democrat as its temporary presiding officer.

It deprived a sovereign state of a voice in its deliberations by unseating without cause or legal justification delegates elected with all the regularity known to party organization.

It refused to endorse the honesty and fidelity of the present Democratic national administration.

It adopted a platform which favors the

free and unlimited coinage of silver by this country alone at the ratio of 16 to 1, and thereby it repudiated a time-honored Democratic principle which demands the strict maintenance of a sound and stable

onal currency, Finally, to make it plainer that, al-though in name, it was not in fact a Democratic convention, it nominated for President one who is not in his political convictions, and has not always been even in his professions, a Democrat.

Senator Palmer Out.

Springfield, Ill., July 11 .- Senator John Springheid, in., July 11.—Senator John M. I'almer has come out openly against the Chicago pistform and nominees Bryan and Sewall. He said today that he personally knows of 500 Demograts in this (Sangamon) county who will not support the ticket, and he thinks there are twice that number who will not. He

continued:
"No Democrat, so far as I have been informed, will support the l'opnilat ticket nominated at Chicago. My own plan is that the Democrats of Illinois, in co-operation with Democrats of other states, call a convention and numerate candidates. I favor local tickets in all the congressional districts and in all the congressional districts and in all the counties, in order to preserve the Demo-

fratic organization."
Having thus stated his views as to the course that ought to be pursued the senator was asked if he thought there
