

Republican Ticket.

For President, WILLIAM MCKINLEY, Of Ohio. For Vice President, GARRETT A. HOBART, Of New Jersey.

THE EXPECTED VERDICT.

Before this paper reaches its readers the election of president and vice president will have been settled, we hope for the best interests of this great country...

There are many issues in the campaign just closing. It is not the money question alone, as the "pops" would have you think...

The Bryan platform does not suit our people. It declares for a change in the money standard of this country, without regard for consideration of the well tried plan of protection to American industries...

That the verdict is for the best, this paper is well assured. It will be settled in the interest of that great, grand standard-bearer, the Napoleonic representative of America's best blood and best thought...

A TERRIBLE storm visited the East recently and many lives were lost.

BRYAN supporters tore down the American flag at Chicago and stamped upon it.

How about the Mitchell-Heppner road? Has it died and will the adverse decision of the Grant county circuit court keep it dead?

The Columbia is now practically open to the Dalles. Let the obstructions be removed at Celilo and the grandest river in America will teem with business.

THE E. O. will get a good long rest now. It can go back to its old system of being anywhere and everywhere till the next campaign.

TODAY'S work means more business for this country or terrible distress and harder times. We believe that the good judgment of the American people will cause them to cast a majority of the votes for McKinley and protection.

FLENTY of money has been posted in Heppner for the past two weeks to bet on the general result, odds 2 to 1 on McKinley, but little of it has been taken.

LET'S stop talking politics long enough to say a few kind words for Heppner and Morrow county.

THE greatest parade ever seen in Portland occurred last Saturday night in honor of McKinley and Hobart.

THIS paper takes pleasure in announcing that the locks at Cascades will be opened for business on Oct. 5th, 1896. This celebration should be attended by all citizens of Eastern Oregon...

WITH election over Heppner should come back to earth once more and wake up. The appearance of the county paper indicates that Heppner either has very few business men or that they are not "up to snuff"...

CLEVELAND has his ax out, it is said, for those government officials who have been taking too much interest in politics and too little in the duties assigned them.

The staple good Japan tea is Schilling's Best.

The price is so low that to call it good is to seem to lie about it.

The grocer gives your money back, without a word, if you want it. That don't look like lying, does it?

EDITORIAL NOTES.

A personal friend of President Cleveland says that he has made up his mind to recognize the independence of Cuba, unless the rebellion is put down by Spain within the next three months...

It being now pretty well understood that the Venezuelan Boundary Commission will report in favor of the claims of Venezuela. England, with a view to saving herself humiliation, has decided to agree to arbitration before that report is made.

From all over Indiana comes news that the state is absolutely safe for McKinley. The following letter from Indianapolis is a fair sample of what is being written from other sections of Hoosierdom.

The republicans were not surprised to learn that Algard's managers had abandoned all hope of carrying Illinois for Bryan and were offering to trade votes for McKinley for votes for Algard for governor.

Unimpeached and unimpeachable stands the republican claim of not less than 270 electoral votes for McKinley and Hobart and of a republican majority of more than 30 in the next house.

The Columbia is now practically open to the Dalles. Let the obstructions be removed at Celilo and the grandest river in America will teem with business.

THE E. O. will get a good long rest now. It can go back to its old system of being anywhere and everywhere till the next campaign.

DIAMOND DIGGERS.

Laws Which Are Made to Keep Them Honest.

The Detective System and Its Working in Mines of South Africa—How the Precious Gems Are Shipped.

Of course the expenses of a company owning a block of claims are enormous, and a large number of stones have to be found before the margin for a dividend arrives. The expense and difficulty of reaching the diamond field in the early days kept away the rosy element to be found in our western mines.

Such diggers as have remained on the fields since the "early days" seem never to be tired of talking of the life they then led as the happiest they have ever known.

The law has become so stringent and the detective force so active that a diamond buyer for it is a matter of "15 years hard" to be convicted of buying a stolen diamond.

It was astonishing to find out how often the culprit turned out to be a man in a good and respectable position, and often the very men who were the loudest in the denunciation of the crime were themselves practicing it.

The mines have now drifted into the hands of a few large companies, and the Transvaal is the Eldorado to which all eyes in Africa are turned.

TWO INVENTIVE THIEVES.

They Took a Bicycle from the Rider on a Bet.

The bicycle thief is inventive this year. A young man was practicing circles in front of his house when two fellows stopped on the pavement to admire him.

The smaller of the two said that was too light, and that he believed in wheels weighing at least 30 pounds.

"What do you know about wheels?" "Why, I've ridden more wheels than you ever saw," replied the other.

"I'll bet you five dollars I can. Let me show him on your wheel. I won't hurt it."

He could ride all right. He wobbled slowly on the wheel for a short distance, and then swished around the corner and was away like the wind.

"You'd better run after that fellow," said the stranger. "I don't know him."

The owner of the wheel set off, but the short stranger must have been a mile away by that time. Then when the owner came back the stranger also had gone.

Silk muslin embroidered with pearls and made over white silk is the latest thing for wedding gowns, and with sprays of orange blossoms here and there it is vastly more becoming to the average bride than the severe white satin.

Pique and silk is a rather incongruous combination, but it is fashionable, and so we must look upon it with favor whether we like it or not.

THOREAU'S COMPANIONS.

He Made Friends in the Forest with the Life Around Him.

The mice which haunted my house said to be introduced into the country, but a wild native kind not found in the village.

At length, as I leaned, with my elbow on the bench one day, it ran up my clothes, and along my sleeve, and round and around the paper which held my dinner, while I kept the latter close and dodged and played at be-peep with it.

A phoebe soon built in my shed, and a robin for protection in a pine which grew against the house.

The young squat still and flat, often running their heads under a leaf and mind only their mother's directions given from a distance.

UNHAPPY AUSTRIA.

Her Only Capable Parliamentary Party Is Broken by Dissensions.

The cruel humiliation Austria suffered in Italy was followed by the crushing blow at Sadova, and the not less painful collapse of a brother's ambitions in Mexico, says the Saturday Review.

AN IMMENSE MEETING.

Gotten up at the Last Moment, but Saturday Night's Meeting Was Successful.

The largest crowd that ever gathered at a political meeting that was not advertised nor spoken of until 24 hours beforehand, says the Heppner correspondent to the Oregonian, met at the opera house Saturday night, the occasion being the last meeting of the Morrow County McKinley and Hobart Club.

The speaker of the evening was Frank Motter, of Portland, who, at the outset, told the popocrats that if they had any questions they desired to ask, to fire them in as he was loaded to the brim with information, and desirous of unloading.

Then he went into a discussion of the money question, and in eloquent and burning words denounced the Bryan policy. It is admitted by all that Mr. Motter's argument on this question was by far the best that has been made here during the campaign.

WON THEIR CASE.

H. H. Hendricks returned from Canyon City Friday, having been gone two weeks. He won the case he went over on, which was that of Warren Carner vs. Grant county, a writ of review taken to set aside the action of the county court in establishing a county road between Waterman Flat and Kahler Basin.
