

of Grant over Greely in 1872 when the latter failed to secure a single electoral vote. No president since Monroe has ever gone into the White House with such a testimonial of popular approval as that which President McKinley will carry. More truly of him than of any first term candidate in our history might it be said that he is the people's president.

DELEWARE'S three votes go to McKinley.

TOM WATSON gets even by saying "I told you so."

DICK BLAND has been re-elected to congress from Missouri.

KENTUCKY'S official count gives the democracy one elector. The remaining twelve go to the republicans.

MARK HANNA will return to his private business; he wants no position under the administration. This should certainly satisfy the popocracy.

"THE suggestion that Mr. Bryan be made United States senator from Washington does not meet with much favor, and especially from those who happen to be thinking of that very position for themselves," says the Seattle Post-Intelligencer.

THE Cincinnati Enquirer, after fighting McKinley to the bitterest extreme, made the following judicious comment when the returns came in: "It is the judgment of this journal that the grazing would be better if the fall rains had been more profuse."

THE Chicago Record, St. Louis Democrat, N. Y. World, and several other prominent papers have Senator Mitchell in their cabinet slate for either the position of secretary of the navy or interior. This is very complimentary to Mr. Mitchell, but he would probably prefer to return to the senate.

SENATOR BUTLER, the populist chairman, rather rubbed it in on the democrats when he issued an address to the country putting all the blame for defeat on them, and asserting that the populists will be the principal opponents of the republicans in 1900. The address has made the democrats hopping mad, but Butler thinks them of so little consequence now that he doesn't care.

MAJOR MCKINLEY might have searched the nation over and he could not have found another man who would have managed his campaign so wisely and skillfully, without an error to be corrected, as Mr. Hanna has. The loyal people can well offer thanks to the wise general of the campaign. It was an educational campaign and not one of brag and bluster and mud slinging.—Union Republican.

THAT some appointments of importance will be tendered to gold democrats for their assistance in the campaign is probable, but it is not believed that they will include a cabinet position. The diplomatic services offers opportunities. A man has only to be a patriotic American to represent his country satisfactorily abroad, but a member of the cabinet must be in sympathy with all the policies of the head of the administration under which he serves, or he disarranges machinery which ought to run smoothly to get the best results.

Do You Want to be a Martyr? Probably not! But if you do, try and get the dyspepsia by unwise feeding. Then you'll suffer martyrdom with a vengeance! Some people are martyrs to the grave, suffering from all its attendant horrors of heartburn, wind and pain in the stomach, weary slumber and night-terrors, nervousness, nausea, biliousness, lassitude and lassiveness. No necessity for all this. The complaint, obstinate as it is, when the ordinary remedies are brought to bear upon it, invariably yields to the great stomachic, Hestetter's Stomach Bitters, which restores tranquility to the gastric region and nerves, regulates the liver and bowels, both of which are disturbed by weakness of the stomach, and promotes appetite and an increase of flesh. That "little pill" of the stomach, the dinner bell, "wails" upon the ear, suggests on whom to dine, and you quail after a commonplace dinner. You also become bit of the stomach, which is the cause of nervousness, rheumatism, and kidney trouble.

JONES did his talking before good election. Hanna showed "still judgment in saying nothing" after the battle was won.

MCKINLEY is elected not only by the electoral majority but also by the largest popular majority known to history since the formation of this government. It will exceed 1,000,000, being three times larger than that of the Cleveland landslide four years ago, and nearly as large again as the popular majority

DISPATCH BRIEVITIES

Three McKinley Electors. WASHINGTON, Del., Nov. 13.—Gov. Watson issued a proclamation today declaring that all votes cast for James G. Shaw and James G. Shaw, Jr., for presidential elector shall count for James G. Shaw, as his name was on the several ballots in two ways. This will send three McKinley electors from Delaware to the electoral college.

Kentucky's Official Vote. FRANKFORT, Ky., Nov. 13.—Official counting of the vote shows that Cash, the first elector on the ticket for McKinley and Hobart, has 218,054; Smith, the highest on the Bryan and Sewall ticket, 217,736. Smith defeats the lowest McKinley elector. McKinley's plurality is 258 taking the two highest votes.

One of Mr. Hanna's Enterprises. New Castle, Pa., Nov. 14.—The Rossena furnace, owned partly by Mark Hanna, of Cleveland, started today after several months' idleness.

"Dude" Lewis to Marry. SEATTLE, Nov. 14.—James Hamilton Lewis, congressman elect, left for the East last night. It is said he is to be married to a New York young lady.

Death of T. C. Hyde. BAKER CITY, Ore., Nov. 14.—T. Calvin Hyde, aged 49 years, a prominent attorney, died this morning. He leaves a wife and five children. Deceased was born in Oregon City.

For the Cabinet. Says the St. Louis Globe Democrat: "How would this do for a cabinet for President McKinley; Secretary of state, Thomas B. Reed; secretary of the treasury, William B. Allison; secretary of war, Joseph R. Hawley; secretary of the navy, John H. Mitchell (Oregon); secretary of the interior, Carl Schurz (or some other gold democrat for some post or other); postmaster general, William Warner; attorney general, Henry Clay Evans; secretary of agriculture, James A. Walker (Virginia?)"

CURE FOR CRIPPLED CHILDREN.

The National Surgical Institute, No. 319 Bush St., San Francisco, successfully treats all cases of orthopedic surgery. One of our surgeons of this institute will be at the Palace Hotel, Heppner, Thursday, November 19th, one day, to examine cases. The success of the Institute in treating all cases of curvature of the spine, diseases of the hip and knee joints, club feet, crooked limbs and bodily deformities as well as piles, fistula, nasal catarrh and all chronic diseases has made for the Institute a national reputation. Write for circular. References may be had to: J. C. Hayes, Heppner, Mrs. A. Gilliam, Heppner, A. A. Bowers, The Dalles, Hon. Thos. L. Davidson, Salem and hundreds of others.

Democratic Testimony

The St. Louis Republic, one of the few leading papers of the country that supported Bryan, and the result in Missouri shows that its efforts were successful, has dropped free silver since the election and now gives testimony relative to the return of prosperity. Following are the headlines of three long articles in a recent issue. "A General Return to Business that has been Neglected; Mills and Factories will Run Overtime in Fall Old orders; Political Excitement Past; The Revival is not confined to any one section of the country; All Industries Affected." "Yellow Metal Again Shows its face everywhere; Employers Showing a So-called Object Lesson by Paying off in Gold; Heavy deposits at the banks; Savings that were hoarded being transferred to the interest-paying institutions; Some Subterranean Figures." "Up goes Wheat, with Cotton and Corn in the Wake; 84 cents a Bushel Reached Yesterday, with a prospect of higher prices; General Advance in stocks; Government Bonds are strong and a Hearty Activity is Everywhere Exhibited; An Encouraging Outlook." This is much better than to refuse to see actual conditions, and then assert that they do not exist.

The wife of Mr. Leonard Wells, of East Brimfield, Mass., had been suffering from neuralgia for two days, not being able to sleep or hardly keep still, when Mr. Holden, the mercantile there sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr. Wells the next day he was told that she was all right, the pain had left her within two hours, and that the bottle of Pain Balm was worth \$5.00 if it could not be had for less. For sale at 50 cents per bottle by Conner & Brock.

It's a True American. We met the enemy and we are theirs. Wm. McKinley has been elected president by one of the largest electoral votes ever given and by the popular vote. He is a true statesman and we hope he will give us an administration under which the country will prosper. As is well known to our readers we disagree with him on the prominent question at issue, but still we hope for the best. He is the president of no party. He is the president of the American people. If our political opponents prosper under his administration, so will we. If they do not prosper the prosperity promised by the victorious party, the American people will arise in their might at the next election and hurl them from power. This is one of the blessings of a free and independent country.—Eugene Cloud.

THE NEWFOUNDLAND DOG.

The Newfoundland dog takes his name from the island where he is supposed to have originated. Many, however, believe that the Norsemen, who discovered America in the year 1000, introduced this dog in Newfoundland. He is by some classified among the wolf-dogs, while others, on account of his large pendulous ears, say that he should not belong to this family, but that he and the St. Bernard should occupy a place by themselves.

The Newfoundland, says Harper's Young People, since his introduction in England, has improved in appearance, and is now larger and heavier. In Newfoundland and Labrador these dogs are used as beasts of burden, drawing considerable loads of wood and provisions on sledges. Their feet are partially webbed, and therefore they are most excellent water dogs. The scent is not strong, and as the dog is slow and clumsy, he is not valuable to the hunter, except as a retriever when speed is not required.

In the island of Newfoundland this dog is almost totally black, but the English varieties are usually black and white. As a watch-dog the Newfoundland is only second to the mastiff. He is amiable to children and small dogs. Kept in contact with the water dogs, he is ill-tempered, and flies at those for whom he has previously shown the greatest regard. Where a dog cannot be allowed to run, and must be chained up, the Newfoundland should not be kept. This dog is a great life-saver, and by instinct will jump into the water to save even an enemy from drowning.

THE VAMPIRE BAT.

A Dead Creature That Is Common in India. I have always despised bats, said a Cleveland man recently, and it always sends a shudder over me whenever one of the hideous creatures approaches me. The bats of this country, however, are not to be dreaded in comparison to those of the vampire species which abound in India. Just imagine a big mouse with a horn on his head like a rhinoceros, furnish him with a pair of demon-like wings, and you have a very good picture of this latter kind. The natives dread the vampire bat on account of his blood-sucking propensity. In the sultry nights he fans the heated slumberer with his wings while his needle-like teeth are being inserted into the veins of his victim, quenching his thirst for blood with such gentleness that it is only by some fortunate chance that he is discovered before the mischief is done. It is a well-authenticated fact that if an individual is once bled by a vampire he is invariably chosen, in preference to all others equally exposed for a subsequent attack, and even if he were to move ten or twenty miles away, no immunity is gained thereby, as the bat is sure to follow him and keep up his blood-thirsty attack until his victim succumbs or the animal is discovered and killed. Cattle and horses, from being more exposed, are more frequently chosen as the subjects of attack by these loathsome creatures.

UNAPPRECIATED BANANAS.

Some Superstitions About Haddock and Fern Root. The banana possesses wonderful sustaining properties, and yet years ago, in the warm countries where it flourishes, the banana was thought of so lightly that it was allowed to waste if not eaten by the cattle. The plant itself was valued simply as a shade for coffee trees, between rows of which it was planted. Somebody once told me, says a writer in the Gentlewoman, that the Spaniards used to regard the banana as a forbidden fruit, because they detected in its heart the transverse section of the cross.

CHAMPIONS IN THEIR LINE.

They are telling a story of a Dutch man who presented himself at the registrar's office recently to obtain a license for his approaching marriage, and who, on being asked the name of the bride, was compelled to confess that it had quite escaped him, and he had to return home for the necessary information. It's a pretty good story of absence of mind, but there are others on record that are even better. There have been cases where persons have even forgotten their own names.

Landing the historian, was subject to the most violent fits of abstraction. One night, returning home late, he rang the front door bell, and when a servant called out from an upper window that the professor was not at home, he said: "All right, I'll come again," and walked away.

There was an English clergyman, Rev. George Harvest, who was engaged to a daughter of the bishop of London, but on the day of his wedding went fishing, and forgetful of the appointed hour did not appear at the nuptials. The lady broke off the match.

8110 Howard #100. The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying its foundation, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have no month, faith in curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Read for list of testimonials. Address, F. J. CERRY & Co Toledo, O. Sold by Druggists, etc.

Was Not Inmate.

In a recent issue of this paper mention was made of the insanity of Clyde Thompson, who drives stage for his brother, Walt Thompson, owner of the Heppner Monument stage line. This information was given us by parties who came over the line at that time and consequently was published in good faith, but since then the Gazette learns that the report was not well-founded and no desire to correct the same in justice to Mr. Thompson and his friends. Clyde was quite ill at the time as the result of a severe bilious attack, but has now fully recovered and is at present spending a few days vacation in this city. We trust other papers that published this article will in justice to all concerned correct the same.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c. and \$1 per bottle at Conner & Brock's drug store.

Tempting Offer.

Although Bryan was defeated yet he has certainly made himself famous, and is now the recipient of many tempting offers. Two large mercantile establishments in Chicago and New York, respectively, have each offered him \$25,000 annually as a drawing card. A law firm in the latter city has offered him the same amount and doubtless for the same purpose. But the latest is from some philanthropist from the state of Washington who proposes to make him U. S. senator from that state where the liberal law requires no length of time as a resident. This is certainly charitable but would probably meet with strong opposition up there. "Dude" Lewis, newly elected congressman, has his eagle eye on this position, not to mention about seventeen populists of more or less importance. However, it is safe to say Mr. Bryan's recently gained fame will not injure him even though he was unsuccessful, and a lucrative position will await him at every turn.

Catarrh Means Danger.

Because if unchecked it may lead directly to consumption. Catarrh is caused by impure blood. This fact is fully established. Therefore it is useless to try to cure catarrh by outward applications and inhalants. The true way to cure catarrh is to purify the blood. Hood's Sarsaparilla, the great blood purifier, cures catarrh by its power to drive out all impurities from the blood. Thousands of people testify that they have been perfectly and permanently cured of catarrh by Hood's Sarsaparilla.

Delay in Train. The Heppner train last Sunday failed to make connection with the east bound train on the main line, owing to the fact that the train was detained near Cascade Locks by the washout of the bridge crossing Herman creek. The passengers were transferred when the west bound train arrived there Sunday morning, and the bridge was not completely repaired until this morning when the first train passed over. The Heppner train awaited the arrival of the delayed train, and consequently did not arrive home today until 10 o'clock. Three days accumulated mail was also brought up.
