

That Tired Feeling

Makes you seem "all broken up," with-out life, ambition, energy or appetite. It is often the forerunner of serious illness, or the accompaniment of nervous troubles. It is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is therefore apparent to every one, and the good it will do you is equally beyond question. Remember

Hood's Sarsaparilla

A VERY CREDITABLE ENTERTAINMENT.

The literary and musical entertainment given at the opera house Wednesday evening under the auspices of the M. E. church, South, was certainly very creditable to Rev. Anniversary and Drive Whist Party.

One of the very pleasant social events of the present season in this city was the drive whist party given by Mr. and Mrs. Frank McFarland at their home last Tuesday evening, this being the occasion of the sixteenth anniversary of their marriage. Following the arrival of the invited guests eleven tables were conveniently arranged when drive whist was indulged in for several hours. The prizes were awarded to Mrs. E. W. Rhea and Geo. Conser. Booby prizes, Mrs. W. P. Dutton and S. P. Garrigues, after which an appropriate luncheon of coffee and sandwiches was served. The remainder of the evening was spent in social conversation, music and dancing, and when the guests departed at a late hour it is safe to say all wished that Mr. and Mrs. McFarland might enjoy many more such anniversaries.

Those present were: Mr. and Mrs. E. R. Bishop, Mr. and Mrs. Wm. Dunn, Mr. and Mrs. Geo. Conser, Mr. and Mrs. W. C. Brock, Mr. and Mrs. J. N. Brown, Mr. and Mrs. E. W. Rhea, Mr. and Mrs. Phil Cohn, Mr. and Mrs. Henry Blackman, Mr. and Mrs. T. K. Bartholomew, Mr. and Mrs. H. W. Bartholomew, Mr. and Mrs. W. P. Dutton, Mr. and Mrs. S. W. Spencer, Mr. and Mrs. R. C. Willis, Mr. and Mrs. S. P. Garrigues; Misses Ada Bartlett, Lattie Farnsworth, Florence Crittenden, Ada Jones, Elizabeth Hatlock, Mabel Leazer, Jennie Nobles, Edith Minor, Lena Rhea, Ada Minor and Edith Potter and Messrs. Abe Jones, Bobb Hynd, M. B. Galloway, W. B. Irwin and A. W. Patterson.

A Great Remedy.

According to a celebrated anatomist there are upwards of 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food. Indigestion is want of juices, weakness of glands, need of help to restore the health of these organs. The best and most natural help is that given by Shaker Digestive Cordial. Natural, because it supplies the materials used by the glands to prepare the digestive juices. Because it strengthens and invigorates the glands and the stomach, until they are able to do their work alone. Shaker Digestive Cordial cures indigestion certainly and permanently. It does so by natural means, and therein lies the secret of its wonderful and unrivaled success.

WHAT OUR EXCHANGES SAY.

Why all this hue and cry from certain quarters as to Senator J. H. Mitchell's standing on the money question? In his speech at McMinnville Mr. Mitchell quoted the St. Louis platform and said: "On this I stand and on this I have stood—bimetallism by international agreement." Could any words be more pronounced than these?—Transcript.

By way of illustration of the way industrial conditions change and tariffs must change with them, take the duty on tin-plate. Before 1891, all the tin-plate consumed in this country was imported. There was a considerable duty on tin-plate, but not enough to equalize domestic and foreign cost of production. The McKinley law doubled the duty roughly, and gave birth to a new domestic industry. Tin plate mills sprang up everywhere, were conducted with thrift and energy, established trade connections and commanded the market. Our imports of tin-plate diminished constantly until now they are only one-third of what they were in 1891. But in the meantime the Wilson law has restored the old duty without checking the American production. Having had three years' high protection, the industry is so firmly established that it can thrive and grow with protection that was inadequate to start it. It would have been unjust to consumers to continue the McKinley duty. Now they get American tin for less than Welsh used to cost.—Oregonian.

Wheat now at 85 cents at Portland is a long way better for the farmer than wheat at \$1 used to be.—Oregonian.

There are a lot of wicked fellows down in the wicked city of Portland that are grinding a large number of knives to an exceedingly keen edge with the purpose in view of assisting in relieving Senator Mitchell of his official scalp at the coming session of the legislature. Already we see communications in the Oregonian (written no doubt by some member of the reportorial or editorial force of that paper) expressing grave concern as to whether it is altogether proper and right, in view of the splendid victory achieved by the sound money forces of this state, to send a man to the United States senate from Oregon whose views on the money question (from a Harvey Scott standpoint) are not beyond reproach and who never at any time uttered a word in favor of any but the gold standard. Of course all this is but a prelude to the fight which will be instituted by Joe Simon, ex-Senator Dulph and the Oregonian against Mr. Mitchell's return to the senate. Everybody knows it is coming and this choice combination of as well walk out from their cover and begin their work at once. Mr. Mitchell will succeed himself notwithstanding all this, however, and the carefully laid plot to install another in his place will fall to the ground shortly after the legislature convenes in biennial session.—Milton Eagle.

Several would-be trimmers of political maneuvers are trying to force Senator Mitchell to open his mouth that they may see whether or not he has any gold filled teeth. If they can find that the senator has his dental cavity filled with silver instead of gold amalgam, they propose that he shall not chew any senatorial gum. One Lydell Baker is thus engaged in trying to tickle the senator till he laughs, for the purpose of making an inspection of the senator's incisors, cusps and molars.—Plainsdealer.

Senators Mitchell and McBride left Portland Saturday evening for Washington, accompanied by Congressman Hermann. Senator Mitchell declined to say anything concerning his position on the silver question, except to remark that he had made fifty-five speeches in the recent campaign working for the election of McKinley on the St. Louis platform. The senator seems to think his record sufficient guaranty as to what he will do, but there are some hard-hearted and thick-headed people who are not satisfied and who insist on some definite statement of the senator's views.—The Dalles Chronicle.

Senator Mitchell and his friends can dismiss any doubts they may have entertained as to his re-election. The matter is now made as certain as any purely mundane matter can be, if the future can be judged by the past. The Oregonian has commenced the fight against him in a mild way, by permitting the small political fry to nibble at his heels in trashy correspondence. The Oregonian will grow weary of the puerile and futile attacks of the itching scribbler before long, and will editorially attempt to assist in the job with its heavier metal and longer range.

Some people cannot let a sleeping lion alone, and get hurt when the awakening takes place. We have the profoundest admiration for the ability of the Oregonian editor, for his learning and his vigorous and crystal English; but when it comes to political intelligence, his bump is represented by a cavity. Mitchell is on pretty safe ground.—The Dalles Chronicle.

We believe Mitchell and McBride and Tongue and Ellis will look out for wood, fat, lumber, sugar and fruit. If they do, with success, Oregon will be justly proud of her "big four."—Statesman.
