## Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver troubles, catarrh—cures which prove

The Columbia people never forget the printer—were there more like them—and annually the Gazette receives this handy little token of their good will, which, like their wheels, is a model of beauty, very substantial and equally as useful.

The Gazette would like to see a few Christmas ads in its columns—that is, if our merchants have any Christmas goods to sell. Gilliam & Bisbee are the only merchants, of Heppner, so far, who have boldly announced that they would like to sell some holiday goods, and it is well worth your time to call upon them.

Dr. McFaul was taken suddenly ill at Myers' restaurant last evening, but recovered sufficiently in a short time as to be able to ride home in the 'bus, and today is very much better. His illness is caused by overwork, having had to make a great many long rides in the country recently.

## MACEO PROBABLY DEAD.

One of the Leading Cuban Generals Falls From a Spanish Bullet.

KEY WEST, Dec. 10.—It is learned positively that the report of the deaths of Maceo and young Gomez are false. Both are believed to be near Miami, while Weyler is near San Cristobal, searching for Maceo. It is thought the latter will co-operate with Gomez, and then an advance on Havana is looked for.

## THIS IS DIFFERENT.

Havana Dispatch Confirms the News of Maceo's Death.

HAVANA, Dec. 10.—Dr. Maxim Zertuchaw, the personal physician of Antonio Maceo, has surrendered to Colonel Lort, the Spanish commander at San Felipe, this province. The doctor confirms the announcement that Maceo was killed on December 7th, near Punta Brava, in an engagement between the insurgents and the Spanish column commanded by Major Cirujeda.

Dr. Zertuchaw was shot in the chin, the bullet breaking his jaw and passing out near the neck and shoulders. A second bullet wounded him in the abdomen.

## OLD SPORT AGAIN.

Resumes After a Summer's Experience Up in Montana and Elsewhere.

The sporting editor, after some months of innocuous despatch, whatever that means, has again laid aside his silk tie, and straddled the editorial tripod, atop upon the fabled reared his duties.

In the recent campaign we were told that "the way to resume is to resume." This is a bulky good advice.

Montana horse racing is all right. It is needless to mention that a summer's experience, in which we won lots of races and gave the talent the worth of their money pretty often, wound up prosperously, for we have the horse, our life and good health yet. And think of the fun we had!

Now there's Dee Matlock, and Ed. Getchel, and the "jocks," Patton and "Yak." Well, they all made money but left it in safe keeping, up in Montana. There's nothing safer in which to deposit than the Savings Bank of Faro. It is always wise to throw the responsibility of money matters on some person who makes a business of taking care of money.

Did Matt didn't stay long enough to test his luck good, but he may give the talent a taste of his life next year.

Low Tillard is on deck with Sinner who has broken the record in being a dead failure. That's what Low tells the boys, but when he "winks the other eye" it means that he can skin them good and will be out for "the long green" next spring.

Mike Roberts and Dave McAtee will put a crimp into the boys' next year with General Coxy, who is a rattling good horse to get away with free silver—belonging to his owners. But he was sick last year.

Several valley towns, following the noble example of Heppner, have passed strict laws on gambling, with the result that it is entirely suppressed except where the boys have money and can find a secluded room.

We think that Montana will be good next year. The bankers will be at the same old stand no doubt.

"Long Tom" Stephens, who was reported as having been killed near Burns recently, may have met his match that way but we doubt it. In our opinion he is at the same old stand and healthy.

## Fallen From a High Estate.

There is confined in the county jail at Pendleton a man by the name of John F. Elliott, who furnishes an example of the frailty of the human race, says the E. O. Elliott is charged by whisky, and is held on a charge of forging the name of H. F. Pierce to a check for \$30. He is of a good English family. One brother, George H. Elliott, is governor of Tennessee, a British peerage in Africa, and has been a member of the British parliament. As uncle, Sir Gilbert Elliott, was many years ago speaker of the house of commons, and a brother-in-law is lieutenant governor of Manitoba. When a young man Elliott accumulated a fortune amounting to \$20,000 in Australia, where he held an office under the government, but became involved in domestic troubles, going from bad to worse, finally coming to Southern Oregon, where he married a half-breed Indian woman. From there he moved to the Unstilled Indian reservation, and has lived a varied sort of life, all the time drinking heavily. Now he is a perfect wreck, having fallen from a high position among men to a level with the lowest type of humanity.

## No Reason to Get Angry.

The Gazette has been endeavoring to collect some delinquent subscriptions, as well as to get a few new subscribers, by taking county scrip at its face value. Some have evidently misunderstood the proposition. All we want is what is due us, and we are willing to make a discount in order to get it. If one desires the Gazette our plan gives them an opportunity to get it. No business men in Heppner have been any more lenient than the Gazette people. None will be any more so in the future, so long as it is consistent with good business principles, but what is due us we must have in some shape.

## Didn't Catch Him.

Ed. E. Oates, deputy sheriff of Walla Walla county, arrived here Monday afternoon on his way home after having made a long and uneventful chase after the bank robber, Fitzhugh, whom he followed close until the sawtooth range of mountains was reached, a heavy snow storm following Fitzhugh's crossing of the range and interfering with the officer's progress. Ed. returned home by the way of Long Valley, Idaho, and has given up hopes of capturing the fugitive other than by wire. It is thought Fitzhugh is making his way to California. Mr. Oates had a hard trip and concluded to recuperate a few days here in Union.—Union Scout.

## CURAN RESOLUTIONS.

Introduced by Senators Cameron, of Pennsylvania, and Mills, of Texas.

WASHINGTON, Dec. 10.—Senator Cameron, of Pennsylvania, introduced the following resolution:

"Resolved, By the senate and the house of representatives that the independence of the republic of Cuba should be and the same is hereby acknowledged by the United States of America."

"Resolved, That the United States should use its friendly offices with the government of Spain to bring about the close of the war between Spain and Cuba."

Mills, of Texas, followed the Cameron resolution at once by the following:

"Resolved, That the president of the United States is hereby directed to take possession of the island of Cuba with the military and naval forces of the United States and hold the same until the people of Cuba can organize a government deriving its powers from the consent of the governed and arm and equip such military and naval forces as may become necessary to secure them against foreign invasion."

The Mills resolution was referred to the foreign relations committee.

Call of Florida followed with a resolution recognizing the republic of Cuba. The resolution has already been published.

Pictures of Palestine. Specially taken under the editor's direction.
