CHICAGO, Milwaukee & St. Paul R'y

Glance at this Map

Of the Chicago, Milwaukee and St. Paul Railway and note its connections with all transcontinental lines and St. Paul, Omaha, and remember that its trains are lighted with electricity and heated by steam. Its equipment is superb. Elegant Buffet, Library, Smoking and sleeping cars, with free reclining chairs. Each sleeping car berth has an electric reading lamp, and its dining cars are the best in the world. Other lines are longer than this, but none are shorter, and no other offers the above luxurious accommodations. These are sufficient reasons for the popularity of "The Milwaukee." Long Reigns.

According to the "Gotha Almanac," which has just been issued for 1894, the king of England has reigned longer than any other ruler in the world, having ascended the throne in 1837. Next to her in point of time are Emperor Francis Joseph of Austria and Frederick, the grand duke of Baden. The monarchs who have reigned the shortest time are Prince Frederick of Waldeck and Duke Alfred of Saxe-Coburg-Gotha. The oldest monarch, according to the "Almanac," is the pope, who is more than eighty-three years of age. The grand duke of Luxembourg and the king of Denmark, respectively seventy-six and seventy-five years of age, stand next to him in this regard. Grand Duke Karl Alexander, who lives in Weimar, is fourth in point of age, and Queen Victoria, with her seventy-four years, is the fifth oldest monarch. The youngest crowned heads are the little queen of the Netherlands, who is thirteen, and the king of Spain, who is seven and a half year old.

Asked Too Much.

"Is it true that your engagement is broken?"

The beautiful girl inclined her head slightly and acted as if she considered the subject a particularly painful one.

"He must have done something terrible," persisted the best friend, "I never knew of anyone more devoted than you."

"We could have been happy if it were not for his intolerant spirit," answered the beautiful girl. "I gave in to him on every point that I could and still retain my independence, but when he insisted that I should give up my bicycle and ride the make he favored it was too much."—Chicago Post.

The Sexes in Bernah.

The new woman should take her way to Bernah. There, travelers say, is the only place on earth where true equality between the sexes exists. In spite of this, it is claimed, no women are more womanly than the Bernah women whose great sense enables them to see the line where they ought to stop. In the higher classes a woman has property of her own and manages it herself. In the lower classes she always has a trade and runs her business on her own responsibility, the sexes choose their own operations, and it is curious to see the men sometimes sewing or embroidering, while the women have nearly all the retail trade of the island on their hands.

WELL WORTH A GLANCE.

WILLIAM PENN'S will is in the possession of Frank T. Sablin, of Philadelphia.

Sparkling champagne was first made by Petrus Perignon, a monk, who died in 1715.

WARD PRENTISS, aged ten, son of Dr. Prentiss, of Jamaica, N. Y., lost the sight of an eye through a shot from an air gun, aimed at him by a little comrade.

A toy snake four feet long was displayed before Miss Mamie Lynch, aged sixteen, in Bridgeport, Conn., by a comrade, and so terrified the girl that she has become insane.

WHAT seemed to be a lively fall of snow in very large flakes over a limited area in the tenement district of New York on a recent bright and breezy morning resolved itself on close inspection into flecks of foam from the mounds in a wash tub, flung to the winds by some small persons on a fire escape.

GATHERED ON THE RAIL.

Southern Pacific locomotives will soon use for fuel briquets made of coal dust and asphaltum.

The narrow gauge railroad now in use is one of twenty inches in North Carolina, built last year for transporting timbers.

The length of railroads open in Russia increased from 13,340 miles in 1878 to 17,277 miles in 1889, being an increase of 3,937 miles only.

The recent run of the "exposition flyer" over the Lake Shore road between New York and Chicago was the fastest long-distance run on record. The distance of 930 miles was covered in two minutes less than twenty hours.

When Queen Victoria travels by rail she pays the companies 75.00 per mile for herself, and first-class fare for everyone else in the royal train. This is supposed to make good the loss entailed by the temporary stoppage of traffic.

Eighteen railway companies have aided the Columbian exposition by loaning \$67,500 of its stock and \$350,000 of its bonds. Among these the Baltimore & Ohio took \$50,000 in stock, and the Illinois Central \$30,000 in stock and \$100,000 in bonds.

FOR HOUSEWIVES.

Don't put a bright colored carpet into a room where the furniture is dull, old or of neutral tints.

Don't have chandeliers or hanging lamps with rooms of low ceiling; use side brackets in such cases.

Don't furnish a north room in blue or any other cold color; something of a warm tint should be chosen.

Don't hang a heavy portiere over a narrow door; generally speaking, hangings are out of place in a small house, or in small rooms.

Don't fill the center of the room, unless there is plenty of space on all sides; nothing offends good taste so seriously as the sense of being "cluttered up."

Don't have too much of one kind of decoration in the house; two rooms upon the same general pattern are quite enough—an individual scheme for each apartment is better.

Don't use all your liveliness and gallantry away from home, and let the unpleasantness manifest itself in the family circle; try the other course for a time, and see how that will work.—Household.

TOLD WITHOUT NAMES.

An Oregon man is suspected of insanity merely because of his "incoherent talk on religion and love."

A young English woman has been appointed lecturer on fruit growing before the Derbyshire county council.

A New Haven hermit is accused of "molesting his neighbors," and a court will decide whether he is guilty of this unheralded offense.

A curious and very objectionable crank is one who has developed in Birmingham, England. He goes about with a long steel hat pin and stabs all fashionably dressed ladies whom he encounters.

ROMANCES of the war of 1812 are told by a colored hermit, aged ninety-four, who dwells in a hut in the woods near Taunton, Mass. He never tells the same story twice, and is as earnest as if he believes his own stories.

Illiteracy and Crime.

The number of prisoners confined in seventeen states is 110,558, and among these the illiterates, in proportion to numbers, contribute six times their quota. The records in the towns show an even greater proportion of crime among the ignorant and the illiterates, which for the whole country furnish to each thousand of persons eight times as many prisoners as those who can read and write. It is plain from these facts that our schools have already greatly reduced the amount of crime, and that when we shall have succeeded in getting rid of all illiteracy we will still further reduce the number of criminals.
