

# Scrofula Swelling

**On the Neck and Great Weakness Caused by Impure Blood—Was Constantly Crowing Woes.**

"When my son was a year old he was in very poor health and we could get nothing to relieve him. At the age of 2 years he began to complain of soreness on both sides of his neck and soon began to gather on one side and grew to half the size of an egg. We then became more uneasy and began to doctor him for scrofula. He gradually grew worse, however, until at the age of twelve years we had lost all hope of his recovery. He became so weak he could sit up but a few minutes at a time. My wife saw Hood's Sarsaparilla recommended as a great blood purifier and we sent and got a bottle. We began giving our boy the medicine according to directions and it was not long before we saw he was improving. He continued taking it until he was in very good health. He is now 13 years old and is well. We recommend Hood's Sarsaparilla for all troubles caused by impure blood." S. M. SILVER, Grouse, Oregon.

Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Get only Hood's.

**Take Notice.**

1. The sum of five cents per line will be charged for "cards of thanks," resolutions of respect, lists of wedding presents and donors, and ordinary notices, (other than those the editor or shall himself give as a matter of news) and notices of special meetings for whatever purpose.

2. Notices of church and society and all other entertainments from which revenue is to be derived shall be charged for at the rate of five cents a line. These rules will be strictly adhered to in every instance.

Advertising rates reasonable and made known upon application.

**A GOOD CLUBBING LIST.**

Now that the great political campaign is over and the winter season again with us, all will want an adequate supply of fresh and varied reading matter for the long evenings. Cognizant of this the Gazette has made clubbing arrangements with a number of periodicals and now offers the following to all new and renewal subscribers:

The GAZETTE \$2.50 and	Club Rate
Weekly Oregonian, \$1.00	\$3.50
" S. F. Examiner, \$1.00	3.75
" N. Y. Tribune, \$1.00	3.00
" Inter-Ocean, \$1.00	3.25
" S. F. Chronicle, \$1.00	3.25
Three-a-Week N. Y. World, \$1.00	3.75
Webfoot Plaster, 50c.	2.50
Leslie's Weekly, \$4.00	5.00

**Here and There.**

Local matter on 4th page.

Conductor Dunn is in Portland.

Pat K-lehar was in Sunday last.

Rev. Jenkins came up Sunday last.

Found—Two boys' hats. Call at office.

J. H. Kolman returned recently from a trip below.

Mrs. Redfield has been on the sick list for the past week.

Miss Elizabeth Matlock is in Pendleton visiting friends.

It's out today, first of the season. Hop Gold Book beer. 38-41

"Uncle" Jake Shiner and Lee Matlock are in from the range.

Jas. Leahy brought in some horses for sheepmen Saturday.

Mr. and Mrs. W. L. Hill were in from Davidson yesterday.

E. W. Rhea & Co., pay the highest price for hides and pelts. If

O. S. and W. A. Andrews are hauling in their wool from Alpine.

Hon. J. N. Brown returned from Washington on last Saturday.

Edgar Matteson and Reub. Gaunt were in Saturday from shearing.

Henry Thompson reports M. S. Corrigan as quite ill down near Alpine.

The Gazette is worth its weight in gold as an advertising medium. Try it.

L. R. Fairchild and J. N. Fordyce traveling home, were here Sunday and yesterday.

As usual, always in the lead. Hop Gold Book beer on sale today. See that you get it. 38-41

If you haven't paid your subscription and you are behind and your paper stops, you can guess the reason. We can't do business on promises.

## BE SURE TO TAKE NOTICE

To the Neversweats and all Other Inoffensive People.

This is to give all members of the Neversweats to understand that on Thursday next, about half past seven, there will be a meeting in Tom Ayers' barn, and nothing short of a den death will be taken as an excuse for absence, "either." Some degree work will be done at that time. Pap Minor is also requested by all means that are in his power to be present, as the Tye is very certain that his committee will have to report. Pap is also requested not to wear carpet slippers on that occasion as he will doubtless have some work to do.

Bob Willis ought to remember that he must be on deck with his bible or take the consequences.

Eli Keeney should bring along his regulation garb of office, too.

Sam Meadows needn't get fussy over that new baby and stay away, if he has any respect for Pap Minor's number 14's.

Tom Durban can get a man to fire his engine Thursday, and he had better lo it.

John Spray will be over from Haxstock with the seeds of this order intact, without doubt.

Peter Borg must engross the minutes up in good shape and come over, watches or no watches.

The officers thereof having been separately warned, I do hereby collectively and generally invite all brethren on Thursday night. PAP SIMONS, Tye.

Dr. B. F. Vaughan will leave very soon for Long Creek. Those needing work should come in at once.

The Gazette is under obligations to Mrs. James McHaley and Mrs. John Brown for old copies of the Gazette.

J. B. Boyd and wife came in this morning from Spokane and will leave tomorrow for Long Creek where Mr. Boyd is employed, as foreman on the Eagle.

Jack Parker got back Sunday from below after an absence of two and one-half years. Jack has had a hard road to travel and has profited there. He will leave for Moutana soon.

Edward Bartlett, of Sandon, B. C., has purchased a lot of mules of Ben. Swagart, besides other stock elsewhere, and will soon ship to his home over the line. He will probably leave this evening.

The old lady was right when she said the child might die if they waited for the doctor. She saved the little one's life with a few doses of One Minute Cough Cure. She had used it for croup before. Conser & Brook.

Father Briody writes from Condon that he was unavoidably detained from meeting his congregation here at the time set, but he promises to be here on May 16th, at which time a mission will be held in the Catholic church. All are invited.

The land case, Jas. K. Allen vs. Mrs. Hattie Cecil over a quarter section of land is up before Clerk Morrow as referee. Judge Freedland taking the testimony. Attorney Redfield is for Mr. Allen while G. W. Rea represents the other parties.

Rev. Wilbur Harwood preached to a large audience at the M. E. church, South, Sunday night last; subject, "The Spirit of the Age." Rev. Harwood lectured last evening on missionary matters to a fair audience, as per previous announcement in the Gazette.

One of the best and neatest pieces of residence property in Heppner will be sold here on the 26th inst. It is known as the Nordyke place and is situated near Tom Morgan's—nearly every person in Heppner knows where to find it. There is an acre and one-third in fruit trees and garden, and the buildings are of excellent character. Go see it.

J. M. Boardman is down from Montana for cattle. On the 15th or 16th of June he will make a shipment from Wallula and on June 10th will ship several thousand head from Huntington. These cattle are intended for the range. Mr. Boardman is a very pleasant gentleman and the editor of the Gazette is indebted to him for a great deal of general information about Montana.

**STUPENDOUS SIZE OF THE SUN.**

Some Comparisons That Afford a Conception of the Sun's Immensity.

Ponder also upon the stupendous size of that orb, which glows at every point of its surface with the astonishing fervor I have indicated, writes Sir Robert Ball in McClure's Magazine. The earth on which we stand is no doubt a mighty globe, measuring as it does 8,000 miles in diameter; yet what are its dimensions in comparison with those of the sun? If the earth be represented by a grain of mustard seed, then on the same scale the sun should be represented by a coconut. Perhaps, however, a more impressive conception of the dimensions of the great orb of day may be obtained in this way. Think of the moon, the queen of the night, which circles monthly around our heavens, pursuing as she does, a majestic track, at a distance of 240,000 miles from the earth. Yet the sun is so vast, that if it were a hollow ball, the moon could revolve on its orbit which it now follows, and still be entirely inclosed within the sun's interior.

For every acre on the surface of our globe there are more than 10,000 acres on the surface of the great luminary. Every portion of this illimitable desert of flame is pouring forth torrents of heat. It has indeed been estimated that if the heat which is incessantly flowing through any single square foot of the sun's exterior could be collected and applied beneath the boilers of an Atlantic liner it would suffice to produce steam enough to sustain in continuous movement those engines of 20,000 horse power which enable a superb ship to break the record between Ireland and America.

**Ladies' Shirt Waists**

NO FINER LINE TO BE FOUND IN HEPPNER

New Shipment Received this Week from Chicago.

This season Shirt waists will be very much in favor among the ladies. We have just what you want.

We are also displaying our fine line of

**STRAW HATS**

Our new stock of Spring and Summer dress goods will arrive in a few days.

**E. W. RHEA & CO.,**

The First National Bank Building,  
HEPPNER, - - OREGON.

## W. C. T. U. MATTERS

**Mrs. Urub Visits Heppner and Talks Interestingly on Temperance Subjects—Other Notes.**

It has been the good fortune of Heppner people to be again favored by a visit from Mrs. Ada Wallace Urub, state and national organizer and lecturer for the W. C. T. U. Her visit extended over Tuesday, Wednesday, Thursday and Friday, the 20th, 21st, 22nd and 23rd ult., and all public meetings and lectures were enjoyed each day by good audiences, beginning with a reception given at the residence of Mrs. Belle Thompson on Tuesday afternoon. This was a delightful occasion and as the hours passed in conversation, both entertaining and instructive, and in doing justice to the fine dinner prepared by the hostess, it was demonstrated that W. C. T. U. women although such earnest workers, are also sociable beings.

The lecture Tuesday night at the M. E. church, South, subject "That Old Bachelor," presented that interesting but crusty personage in several unexpected attitudes. After showing up his unpretentious domicile with its seldom-used broom and historic and antiquated distowel, etc., a parallel was drawn between this one-sided method of housekeeping and that of our venerable relative, "Uncle Sam," and the abuses of our national administration were exhibited in so strong and true a light as to be simply astounding.

On Wednesday afternoon a "Mothers' meeting" was held at the M. E. church, which was well attended and much interest was manifested in practical questions pertaining to subjects near to the woman's heart.

Wednesday night the subject discussed at the Christian church, "A Woman's Sphere," showed in a convincing way that while a woman may not be excused from home duties and social amenities yet the channels of her life may be deepened and broadened into a usefulness and beauty which none but the ideal "new woman" has yet attained.

Mrs. Urub lectured again on Tuesday night at the M. E. church, the audience at this, as all other meetings, being good considering the busy season. Her argument on this occasion was most convincing, being an earnest appeal for perseverance in temperance work although the worker meet with discouragement and rebuff again and again. Many signed the pledge and became members of the union.

The talk to girls at the Baptist church on Friday was the closing meeting of the series. This will long be remembered by Heppner girls, and the earnest words spoken in her sweet winning manner found their way to the hearts where she had already a warm place, and those young lives were made better and brighter for all time to come.

The thanks of the W. C. T. U. are due to all who so kindly assisted to make the meetings so pleasant and profitable. The four churches who opened and lighted their houses for us, the ministers and others who helped with music and singing, the Gazette for numerous kindnesses are all remembered with due appreciation and Heppner W. C. T. U. will go on in its labor of love strengthened for new duties or for faithful performance of the old.

**SOCIABILITY OF INDIANS.**

They Are Fond of Paying Social Visits Among Themselves.

Indians, contrary to widely received opinions, are of a social nature and fond of paying friendly visits, the etiquette of which would make a chapter of itself. Not much attention is given to the order of their going while in the dust of travel, but when arrived within a short distance of their destination a halt is called, the ponies are relieved of their burdens, the rawhide packs are opened, and gala dresses and fine ornaments come to light. The two young men selected to be the bearers of gifts of tobacco deck themselves for their mission and ride on in advance. A surprise party is not in the Indian's list of amusements; he takes his enemy unawares, but not his friend. The young men return with messages of welcome; sometimes members of the family to be visited come with them personally to conduct the party.

Meanwhile, writes Alice C. Fletcher in Century, all have been busy prinking; brushing and braiding their locks, painting their faces, and donning their best gear, the wide prairie their dressing-room, their mirrors each other's eyes. When the visiting party is again en route there is not a man or woman who is not gorgeous with color and the glitter of shell or feather finery. Even the children have daubs of fresh paint on their plump little cheeks, while the dudes are wonderful to behold, resplendent in necklaces, embroidered leggings, and shirts, and with ornaments innumerable braided into their scalp locks. The visit over the Indians go back to their homes pleased and contented, happy if they find, as may not always be the case, that the enemy have not been at work in their absence.

**THE CARRIER PIGEON.**

An Explorer's Wife Cheered by the Message That It Brought.

One day a wonderful bird tapped at the window of Mrs. Nansen's house at Christiana. Instantly the window was opened and the wife of the famous arctic explorer in another moment covered the little messenger with kisses and caresses, says the Philadelphia Times. The carrier pigeon had been away from the coast 30 long months, but it had not forgotten the way home. It brought a note from Nansen stating that all was going on well with him and his expedition in the polar regions. Nansen had fastened a message to a carrier pigeon and turned the bird loose. The frail courier darted out into the blizzarding air. It flew like an arrow over 1,500 miles of frozen waste and then sped forward over another 1,500 miles of ocean and plains and forests, and one morning entered the window of the waiting mistress and delivered the message which she had been awaiting so anxiously. We boast of human pluck, sagacity and endurance, but this loving little carrier pigeon, in its homeward flight, after an absence of 30 months, accomplished a feat so wonderful that we can only give ourselves up to the amazement and admiration which must overwhelm everyone when the marvelous story is told. Mrs. Nansen's pigeon is one of the wonders of the world.

**SUBSTITUTE FOR GLASS.**

Gelatious Substance Spread on Galvanized Iron Web.

"The first successful substitute for glass," says an architect in the Washington Times, "is tectorium, a gelatious composition. It has not appeared in this country at all, as yet, but is being introduced in Europe.

"This gelatious substance is given rigidity by being spread on a galvanized iron web, which holds the sheet in any desired shape, but does not obstruct the passage of light. It is translucent, but not transparent, and can be stained in such a manner as to exactly imitate stained glass.

"It cannot be broken nor softened by the rays of the sun, but is flexible and easily bent into any desired shape. When unstained it at first is yellow, but on exposure to the sun it turns white, at the same time becoming harder and more durable.

"Like glass, it is a poor conductor of heat. It is lighter than glass, and on this account is well adapted for roofs. Unless it can be made transparent it can never hope to entirely supersede glass, but its cheapness and superiority to glass in other directions are securing for it extensive sales for factory windows, skylights for hot-houses, roofing and like purposes."
