System Broken Down and Hope Almost Abandoned—Health Restored by Hood's Sarsaparilla.

"For fifteen years I have suffered with catarrh and indigestion and my whole system was broken down. I had almost abandoned any hope of recovery. I purchased six bottles of Hood's Sarsaparilla and its effects have been marvelous. It has made me feel like a new man. I am able to sleep well, have a good appetite, and I have gained several pounds in weight." JAMES WILDER, Oronville, Wash.

"I had a scrofula swelling on one side of my neck and ulcerated sores in my nostrils, caused by catarrh. I also had small, itching sores on my limbs. I bought three bottles of Hood's Sarsaparilla and began taking it and the sores soon healed. My blood is purified, and the scrofula has disappeared." O. D. McMASUS, Missoula, Washington.

Indeed Miss Leach, who has had charge of the business, thinks that she will be able to settle everything up before Mrs. LeBalister's return. At present Miss Leach is looking after the store, with Sheriff Matlock in charge.

LOOKS LIKE A BILK.
The Rev. (?) W. T. R. Harwood May be all Right But Evidence is Against Him.

A gentleman of color, a minister presumably, floated in upon us recently and at once proceeded to bill the town for a lecture. Showing recommendations, he was taken in by our local clergy as a Christian gentleman and a fellow minister, and had no trouble whatever in securing the M. E. church, South, in which to deliver his lecture. Out of deference to the colored gentleman, he was given an opportunity to preach on the Sunday evening preceding his lecture on Monday night. This was a fatal mistake. In the common parlance of the day, he couldn't preach "fast enough to keep his feet warm." He showed no ability and if educated as he claimed, in the best schools of England, he must have gone through college on the short course—in the front door and out of the back. He had an excellent audience, however, everyone desiring, it seemed, to hear the colored missionary talk. His first effort settled the business and his audience on Monday night was pretty scattering.

The proceeds of the lecture were no doubt small, as he "stood off" most of the board bill and never said as much as "thank you" to the print shop to which he was indebted a small amount for making an announcement of his lecture, as this office always charges half rates for such work. To the hotel, he promised to send the money back from Pendleton. This he has not done.

This paper believes that Harwood is a bilk, and if the truth was known, an impostor also. Any person who will a printer will not do to trust in any community. Any man who will best a board bill is about as low as they make them. If Rev. Harwood had said that he was not able to pay the printing bill, or had acted like an honest man; if he had written to the hotel that he was unable to meet his promise, matters would have been different.

MEMORIAL DAY.
Doings of the G. A. R. and W. R. C. for That Occasion.

The Gazette is informed that preparations are being made by the members of the G. A. R. and W. R. C. to properly observe "Decoration Day."

On May 23, Rev. Drake, of Lexington, will deliver a memorial sermon in the Congregational church at that place, and on May 30th, Rev. Fleisher, of Heppner, will deliver a similar sermon in the M. E. church, at this place, after which the members of the orders above mentioned will decorate the graves of soldiers in the Heppner cemetery. The decorations at Lexington will occur on Saturday, May 29th, and all are invited to participate.

Those donating flowers should see or write to either Mrs. W. W. Smead or Mrs. N. A. Kelly, both of this place, at once. Let every patriotic citizen assist, and the Gazette takes it that there are none other in our midst.

Gene to Washington.
On Sunday last Mr. Josef Mueller, the rustling representative for the Wiley B. Allen Co., of Portland, departed for points in the state of Washington on business. He makes the trip overland behind his fast nag, a recent purchase, of which he is quite proud. Mr. Mueller will be absent some two weeks and before returning will visit Portland where he goes to prepare for publication two musical compositions of his own, written since coming to Heppner last fall. The Gazette can say that Mr. Mueller is one of the most successful salesmen in the employ of the Wiley B. Allen Co., and his equal for energy and enterprise is rarely met with in the line which he represents. It takes this to sell pianos—it takes this to make a success of any business.

A. Andrews is up from Alpine today. Put your name on the Gazette's subscription list.

Bill Hale, better known as "Wild Bill," is in from Idaho.

The Gazette will give some encouragement notes in next issue. Let us work for it.

John Brownlee and son and Albert Ballance are in from Long Creek for freight.

The report of the Congregational meeting or conference at Lexington last week will appear in next issue.

WE MAKE THE CORRECTION.

Love of Peace Causes the Gazette to Humbly Knock Under.

The Gazette has had a hard row to hoe lately. Our neighbor, Sam Meadows, who, by the way, is a pretty good one, too, was greeted by a new arrival in the family not long ago, which the Gazette did chronicle as tipping the beam at 9 pounds, which Sam says is correct. This was all right till Judge Freeland came rushing in frantically one morning to say that he had a stranger in his family which he had decided to adopt, and it weighed 10 pounds. Sam grew suspicious and was not content till he had dug up the figures and then it was found that between the desire of the Gazette's editor to make a happy father happier, and a food parent's wish to show the prize baby of the neighborhood, the figures had been raised just 4 pounds. Then our troubles began, and in order to have peace we have decided to give the facts in the case.

We will say, however, that while Sam has the best of this matter, ostensibly, yet we have circumstantial evidence that he tinkered with the scales so that they would weigh heavy, but we will let the matter rest if Sam is suited. The Gazette wants peace and quietude and will get down and apologize this time.

WOOL BUSINESS.
Everything Quiet at Present and Prices Not as Good as Formerly.

But little wool is being sold in Heppner at present owing to the depression of prices. This is occasioned by the retroactive clause of the new tariff law, which, if it had gone into effect by the concurrence of the senate with the house, would have stopped free importations of wool after April 1st. Wool-buyers and sheepgrowers are both resting on uncertainties in not knowing just when the proposed tariff law will go into effect, hence are waiting on their ears to see just where they are at. As soon as the bill becomes a law prices will advance and wool traffic will become lively again.

The London market is a little better than last year owing to the unusual demand on this side. When it became known that the April clause was a dead letter, prices advanced appreciably, but were much depressed earlier in the spring when it appeared likely that the retroactive clause would stick. There is also a considerable shortage in the Australian clip.

H. C. Myers, accompanied by his son, Oscar, arrived Sunday from the sands near Grants with his sheep. Norman Myers is also here, having arrived by train.

LIVE TIMES IN HEPPNER.
Mr. Blackman Says Era of Prosperity is at Hand.

The town of Heppner, Morrow county, is at the present time enjoying its full share of prosperity, and from all accounts the residents have not witnessed such a prosperous era for many years, suggests the Pendleton Tribune. Mr. Henry Blackman, collector of internal revenues for this district, returned to Portland Tuesday from a visit to his family in Heppner, and to a reporter of the Portland Oregonian said:

"Heppner is the liveliest town in Eastern Oregon today. The streets are crowded with people, and every one seems to have money to jingle in his pocket. Last Saturday was the liveliest day seen there for many years. The street was filled with sheepmen, cattle buyers, trailers, sheepbreeders and farmers. Two photographers were kept busy on the street taking pictures of shears and their girls, and the old-time sights of draw poker, faro and other games were a reminder of the flash times of 1880.

"Fully 70,000 sheep have been contracted for to be delivered after shearing, the average price paid being \$1.50. The wool clip of Morrow will this year be close to 3,500,000. Several lots have been sold thus early, bringing from 7 to 8 1/2 cents. The sheepmen are now holding their wool, owing to the uncertainty of the tariff bill. Experts state that the clip of 1897 will be 1,400,000 pounds short, and if this proves true, wool will bring a good price.

"The farmers are also bright and cheerful. All the crops look well, and there is about 15 per cent more acreage sown than last year. If the grain escapes the destructive hot winds, there will be 1,000,000 bushels of grain harvested in Morrow county next summer, which, even at 50 cents a bushel, will bring a large amount of money to the people. With the sale of sheep, wool, cattle and grain, fully \$1,000,000 will come to Morrow county, a great portion of which will eventually find its way to Portland.

"There is not a vacant residence house in Heppner. Some building is being done, and the people are very hopeful. In fact, it really looks as though the prosperity promised is taking root. Of course, that is a concession for a democrat to make, but it really looks so. One of the best indications I noted was the amount of business done in Heppner last Saturday. One store took in \$920 cash in general trade. The credit system is no longer in vogue there and everybody seems to have money."

Mr. B. has given the brightest side of the case. Heppner is fairly lively but it lacks a great deal of being the town it was formerly. However, Mr. B.'s article is in the main a correct one, though he undervalues the average price paid for sheep. It is nearer \$1.75 per head than \$1.50, and if anything higher than that. He also states that the exports claim that the shortage of wool is 1,400,000,000 pounds.
