

### Impure Blood

Rheumatism, Kidney Troubles and Sick Headache the Result - Doctor for Years Without Relief.

"My blood was out of order, and I began taking Hood's Sarsaparilla. It has purified my blood and relieved me of rheumatism, kidney troubles and sick headaches. I have been afflicted with these difficulties for years. I am now able to do a good day's work. Rheumatism has troubled me since I was a child, but I am now entirely cured." Miss Phoebe Bailey, Box 45, Pasadena, California.

Chas. Green came in this morning to look after wool matters.

T. W. Ayers, Jr., came in from Pendleton yesterday on business.

Sam Sternberg, the well known traveling man, was in town yesterday.

Melvin Logan writes friends that he is located near Oksdale, Cal., following farming.

The brand new ad. of the brand new drug store, E. J. Slocum, manager, is in this issue.

Chester Deering, special agent of the Pennsylvania Fire Ins. Co., was in town this week.

J. M. Boardman, who is buying cattle for Montana range, got in last night from Burns.

It is reported that Frank Matthews, who is known as a pretty speedy sprinter, will run a stranger at the race track tomorrow for \$50 a side.

Mrs. Martha Van Winkle, mother of I. L. Van Winkle, of Heppner, accompanied by Mrs. Mary Reynolds, a sister of the latter, arrived from Weston today on a visit.

Mr. Arnett, who is purchasing cattle for range near Dickinson, S. D., will soon ship 1,000 head of cattle from Wallula, having purchased most of them in the neighborhood of Burns.

Frank Borg returned home from Peoria, Ill., where he had been attending a horological school, on last Wednesday morning. Frank completed the various courses with credit to himself and the institution. He recently completed a model of a watch escapement, on a large scale, the sort commonly used in American watches. It is a wonderful piece of work and the Gazette does not blame Frank for being proud of it.

The people generally regret that Greece has not made a better stand against her ancient enemy, the Turk, but there seems to be no regrets manifested that R. C. Willis, of the Pioneer Brick, Blackman stand, is making such a glorious fight against the enemies of the people, "extortion" and "war prices." This is a winning fight. Mail orders are attended to carefully. Willis has a mower, a buck and a cart for sale. Closing out this line.

**What We Inherit**

We are not to blame for. We cannot be held responsible for the dispositions and tendencies which we derive from our ancestors, nor are we responsible for the germs of disease which may manifest themselves in our blood as a heritage from former generations. But we are responsible if we allow these germs to develop into serious diseases which will impair our usefulness and destroy our happiness. We are responsible if we transmit to our descendants the disease germs which it is possible for us to eradicate by the use of Hood's Sarsaparilla, the one true blood purifier. This medicine has power to make rich, red blood and establish perfect health in place of disease.

The ladies' hand paraded the streets this afternoon attracting universal attention. Their concert this evening will be well worth attending.

**MATTERS IN GENERAL.**

Some Points and Pointers, and Matters Personal and Impersonal.

The race track is for racing and training purposes. If Sport is any judge, some misconceptions exist. We do not need to particularize.

Penland Buttes has also had to be operated on, Dr. Welch doing the job in an excellent manner. Buttes' difficulty is not serious but would be mighty distasteful to Sport or anybody else.

Sport thinks that Geo. Conser and Fred Bartholomew are two of the most chivalrous men in the colony. The ladies rode the push cart from W. P. Dutton's place, Fred and George walked and did the propelling, arriving safely at the depot a little behind time. The ladies were not at all tired. But it was such fun down grade.

The race track is being worked on this week. No one has had the temerity to say that it doesn't need it.

All the horses are looking well and their owners talk like "four-time winners." 'Tis well that there is a word known as "Hope."

There will be plenty of good saddle horses for sale just after the first of June. Sport doesn't want any.

Sport suggests that the track should be managed this year so that the bills will all be paid. The printers got nothing last spring but glad smiles, and donated \$25 worth of work besides.

Tom and Cass Matlock will take in the Montana circuit this year. Sport advises the Montana fellows to do their best if they want Matlock money.

Foot races are all right but Heppner has had experience. Sport wouldn't bet on a "ten second" man against a cow.

Col. Jas. B. Eddy, Gen. H. B. Compton and Mr. Macrum, comprising the board of railroad commissioners, were here Tuesday last. The Gazette hopes that the board inspected the road sufficiently to notice that ties are too rotten to be safe for trains to pass over. The Gazette reiterates that a train will go into a ditch if this matter is not attended to. Such negligence is worse than criminal.

Vic Tolbert, of Six Dollar, arrived from the valley Wednesday.

W. T. Hatten has patented a dump bed for hauling gravel and dirt that ought to be a success.

Geo. Thornton has returned from Monument, completing the fastening of the telephone wire on the way over.

W. E. Niles, representing the Union Pacific freight interests, was here Wednesday.

**WOOD MOST USED.**

Pine Is Fashioned into the Greatest Variety of Products.

Oak can be put to the greatest variety of uses, but as a matter of fact pine wood is most used. A phenomenal demand for the latter in the wood-pulp industry has arisen within recent years. Over 1,500,000 tons of wood pulp were produced in the United States alone in 1894, and 2,000,000 tons in Norway and Sweden, the bulk of it from pine. Pine is also largely used in ship and house carpentry, and it is adaptable to so many purposes, and is so abundant, that it has come into almost universal requisition. Common turpentine is extracted from it, as are also tar, pitch, resin and lampblack. Splinters of the resinous roots are used by the Highlanders instead of candles.

Fishermen make ropes of the inner bark, and the Eskimothians and Laplanders steep the latter in water to make a coarse kind of bread. The oil obtained from the shoots of the dwarf pine is used medicinally by the peasants of Hungary, while the soft-grained silver fir is used for the sounding boards of musical instruments, and the Germans employ it almost exclusively in their toy factories. The wood used in the manufacture of Lucifer matches is mostly pine, and the aggregate amount of pine wood used in these various industries exceeds that of all other kinds of wood put together.

**JUDGE McARTHUR IS DEAD.**

The Able Lawyer Passed Away Monday Afternoon.

From the Walla Walla Union.

The Hon. Lewis L. McArthur, of Portland, died at the residence of Mr. Levi Ankeny, in this city, at 3:45 o'clock Monday afternoon, of Bright's disease. For a month Mr. McArthur has been here with the hope of a change for the better, but his physician, from the first, gave no encouragement for his recovery. All possible aid was rendered the afflicted man, but the dread disease could not be overcome by a physician's skill, and as stated above he expired yesterday, after a lingering illness of about five years.

Judge McArthur was one of the most widely known attorneys of the Pacific northwest. For several years he was justice of the supreme court of Oregon, and later judge of the circuit court. Under President Cleveland he was United States district attorney for Oregon. At the time of his death he was one of the board of regents of the University of Oregon, of which institution he was lecturer on pleadings in the law department and also on medical jurisprudence. He was president of the Oregon Bar association and was a member of the firm of Bronaugh, McArthur, Fenton & Bronaugh. In 1878 Mr. McArthur was married to Harriet Nesmith, daughter of the late Senator Nesmith and sister of Mrs. Levi Ankeny of this city. He was 54 years of age and leaves besides his wife, two sons, Clifton and Lewis.

Judge McArthur will be a great loss, not only to Portland but to the north-west, owing to the enterprising and progressive spirit and his general worth as a jurist.

The remains of Judge McArthur were taken to Portland on the 3 o'clock train Tuesday morning, arriving there at noon. They will be taken to the family residence on Glisan street where they will be held until Wednesday noon, when they will be taken to Rickers and laid to rest beside the late Senator J. W. Nesmith.

Notice.

I have taken up my horse, brand O on left shoulder, wearing old shoes, weight one thousand pounds, saddle marked.

**HERE'S YOUR CHANCE.**

A Busy, Industrious Young Lady Wants a Husband.

A few days ago, L. Blumenthal, of this city, discovered a note written on a piece of pasteboard in a bolt of "prints," headed, "Husband Wanted." It says: "I am a blonde, light complexion and light hair, brown eyes and weigh 130 pounds, 5 feet, 9 inches in height, would like to correspond with some nice young man about 25 years old who has no bad habits. I have two houses left me by my father. Hoping to hear from a nice young man, full of business, I remain."

Mrs. M. L. Fretz,  
Allen's Print Works,  
Providence, R. I.

It is dated Jan. 13, 1897.

If there is any young man here who fills the bill and who wants to tie up with a good, hardworking girl, here is his chance.

Is it "overwork" that has filled this country with nervous dyspeptics—that takes the flesh off their bones, the vitality from their blood, and makes them feeble, emaciated and inefficient? No. It is bad cooking, and overeating of indigestible stuff, and other health-destroying habits.

The remedy is an artificially digested food such as the Shaker Digestive Cordial. Instead of irritating the already inflamed stomach the Cordial gives it a chance to rest by nourishing the system itself and digesting other food taken with it. So flesh and strength return. Is not the idea rational? The Cordial is palatable and relieves immediately. No money risked to decide on its value. A 10 cent trial bottle does that.

**LAROL IS THE BEST MEDICINE FOR CHILDREN.**

Doctors recommend it in place of Castor Oil.

**ATTEMPTED SUICIDE.**

Mrs. Sweeny, of Eight Mile, Takes Poison But Her Life is Saved.

On last Saturday evening, on Eight Mile, Mrs. Mike Sweeny took poison but some home antidotes were administered and the woman's life was saved.

Mrs. Sweeny is undoubtedly suffering from accretion, it is to be hoped or the temporary sort. On last Sunday morning she acted queerly and got down a gun to kill a horse. The weapon was discharged accidentally before it could be taken away from her. In some unaccountable manner she procured poison later in the day and made the attempt as above-stated.

Mr. and Mrs. Sweeny are most estimable people and it is to be hoped the illness is but temporary.
