THE LANCASHIRE INSURANCE CO.

OF MANCHESTER, ENGLAND OTIS PATTERSON, AGENT. One of the Best in the World

McClure's Magazine For 1897 GREAT SERIALS SEVEN

A New Life of Grant by Hamlin Garland. The first authoritative and adequate Life of Grant ever published. (Begins in December.) Rudyard Kipling's first American serial, "Captains Courageous." (Begun in November.) Robert Louis Stevenson's "St. Ives." The only novel of Stevenson's still unpublished (Begins in May.)

(Begins in May.)

Charles A. Dana. "Recollections of War Time." Mr. Dana was for three of the most critical years of the Civil War practically a member of Lincoln's Cabinet, and is probably better fitted than any other man living to give an authoritative history of this period from his recollections and correspondence.

Portraits of Great Americans. Many of them unpublished. In connection with this series of portraits it is intended to publish special biographical studies under the general title of MAKERS OF THE UNION from Washington to Lincoln.

Pictures of Palestine. Specially taken under the editor's direction. Stories of Adventure. A serial by CONAN DOYLE, in which he will use his extraordinary taleut for mystery and ingenuity which have, in the "Sherlock Holmes" stories, given him a place beside Poe and Gaboriau.

TEN FAMOUS WRITERS

IAN MACLAREN, All the fiction that he will write during the coming year, with the exception of two contributions to another publication which were engaged from him long ago, will appear in McClure's Magazine. JOEL CHANDLER HARRIS. A series of new animal stories in the same field as the "Brer Rabbit" and the "Little Mr. Thimblefinger" stories.

RUDYARD KIPLING. Besides "Captains Courageous," Kipling will contribute to McClure's all of the short stories he will write during the coming year. OCTAVE THANET is preparing for the MAGAZINE a series of short stories in which the sam characters will appear, although each will be complete in itself.

Anthony Hope Frank R. Stockton Bret Harte Robert Barr Clark Russell Stanley Weyman will all have stories in McClure's for the coming year.

These are only a small fraction of the great and important features of McClure's Magazine for 1897, the subscription price of which is only

SUDDENLY BECAME RICH. Canadian Miner Found a Monstrous Lump

of Precious Metal.

A prospecting miner returning, wearried and disgusted, from an unsuccessful season, stumbled across a bowlder so rich in gold that in an instant he is a millionaire, says the New York Jourappens to be true. There is satisfactory evidence of the

truth of Martin Neilly's wonderful find. It was on Monday, April 27, that Nellly north of Trail Landing, B. C., at about store, noon, and, selecting a site on the bank of the stream, at the foot of Lookout mountain, sat down to eat his dinner. the sand, in a dry portion of the river at this figure. bed, not far from where he sat.

When he had finished his meal he walked over to the bowlder, examining in a casual manner, and then, as his experienced eye detected signs of the orec' us metal for which he had vainly with feverish energy. He almost swooned when a fragment of rock came away, showing distinctly the traces of gold and copper.

"I am rich," he shouted. Then he from a dozen places on the bowlder. staked out his claim, hurried into Rossand, arriving late in the afternoon, and recorded the claim. The next day he had his specimens assayed by different experts, who found that the ore ran in value all the way from four to fiftyeight dollars to the ton.

When he told of his great fortune surveyor accompanied Neilly to his bonanza, and, after making measure ments, declared that the bowlder weighed approximately 20,000 tons, and that, in round numbers, it will prove to be worth \$1,000,000.

FOLDING KITES.

Novelty from France That Closes Like A novelty from France is a folding kite. Folded up it looks somewhat like a small rolled-up umbrella; opened out ready to fly its shape is like that of the the swelling began to decrease, the kite commonly known as the bow kite. the pain to leave, and now I consider It has a single upright stick, which is that I am entirely cured. For sale by 30 inches in length. The bow is formed | Conser & Brock. of two light steel ribs, one on either side of the stick, which are raised into place and lowed into form, as the ribs of an umbrella are raised; there are braces running from the ribs to a metal nd which slides on the stick, like the under the band to which the braces are attached. As the ribs are raised their inner ends, where they meet at the stick, near the top, bow up into a light metal holder which projects slightly on either side of the stick and which holds

the two parts of the bow in line. The kite is covered with light muslin: they are used in covering the kites muslins of various colors, so that some of the kites are red, some blue, and so on. The tail is of string with little parti-colored bunches of muslin cuttings attached along its length, as little bunches of paper are sometimes attached to string kite tails; at the end there is a little bag in which may be placed a marble or other weight, if more ballast is required, in a high wind.

WHAT A BILLION MEANS. It Would Take Nearly Ten Thousand

Years to Count It. The following remarkable calculation on the length of time which it would take a person to count 1,000,000,000 recently appeared in an issue of an English periodical: What is a billion The reply is very simple. In England a billion is a million times a million. (1,000,000,000,000). This is quickly written and quicker still nounced. But no man is able count it. You will count 160 or 170 a minute. But let us suppose that you go up as high as 200 a minute, hour after hour. At that rate you would count 12,000 an hour; 288,000 a day, or 105,-120,000 in a year. Let us suppose now that Adam, at the beginning of his exstence, had begun to count, and had con tinued to do so and was counting still Had such a thing been possible, he would not yet have finished the task of counting a billion! To count a bil-42 days, 5 hours and 20 minutes, providng he should count continuously. But oppose we allow the counter 12 hours faily for rest, cating and sleeping. Then ne would need 18,025 years, 319 days, 10 jours and 45 minutes in which to com lete the task!

The Danish Prince.

The Danish prince who married one of Queen Victoria's granddaughters is more French and Irish than Danish, so far as blood goes. The Irish strain is that of the famous O'Clarys, of Tyrconnell. A hundred years or so ago, so the story runs, a member of this the West. With the Gazette, both strict family amassed wealth in Marseilles, sisters Clary, one of whom afterwards became Joseph Bonaparte's wife, queen of Naples. The other married Bernadotte, the soldier of Napoleon who became Charles XIV., king of Sweden, Prince Charles is Bernadotte's great-

> The Number Thirteen. For those who believe in the fatality

of the number thirteen, the American quarter-dollar is about the most unlucky article they can carry, says the Argonaut. On the said coin there are 13 stars, 13 letters in the scroll which compose its wing, 13 feathers are in its tail, there are 13 parallel lines on the M | "quarter-dollar."

Something to Know.

It may be worth something to know that the very best medicine for restoring that tired out nervous system to a healthy vigor if Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, nal. It reads like a fairy tale, but it gently stimulates the Liver and Kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and was returning to Rossland, B. C., after it as the very best blood purifier and an unsuccessful prospecting trip in the Salmon river district. He had reached nerve tonic. Try it. Sold for 50c or \$1. the Columbia river at a point six mi es | 00 per bottle at Conser & Brock's drug
