Wanted—An Idea

Who can think of a new idea for a product to be sold in the West? Write JOHN WEDDERBURN & CO., Patent Attorneys, 1111 Broadway, New York, for a list of two hundred successful ideas.

THE BIBLE COPYRIGHT.

It is Vested in the Crown in England.

The copyright in the Holy Scriptures is vested in the crown, and in England there are only three authorized printers, says Chambers' Journal. Oxford and Cambridge have, by royal charter, the right of printing the Bible and the queen's printers are licensed to print the sacred books during her majesty's pleasure, a license which may at any time be withdrawn by an order-in-council. In Scotland anybody is at liberty to print Bibles, but no edition may be lawfully published unless it has been read and licensed for publication.

All this, however, refers only to the "authorized" version of the Scriptures. The expenses attending the recent revision of the sacred books were very heavy—something like £20,000, and the queen's printers, who were invited to contribute a share, preferred not to do so. The two great universities alone, therefore, have proprietary rights in the revised edition of the Bible, and all editions of it emanate from Oxford and Cambridge presses. It is a remarkable fact that, although the revised Scriptures have now been before the public for 15 years, the old or authorized version is still the one in general use. The revised Bible was produced at immense cost and by the highest scholarship of the day and no competent judge is likely to dispute that it is a more accurate and, upon the whole, a better translation than the authorized edition. Yet the Oxford press still annually prints at least five times as many of the old version as of the new, and Cambridge does practically the same.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles that have been proved invincible. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorating the system. Regular size 25c. per box. Sold by Conser & Brook, druggists.

We understand that Hon. R. Alexander, of Pendleton, grand master I. O. O. F. of Oregon, says an exchange, is a candidate for the office of state treasurer to succeed Phil Matschan, whose time expires next year by limitation. Alexander is a name to conjure with in Umatilla county, where he has long been known as an honest and upright man, and as he is a hustler and in the field early, we will not be at all surprised to see him walk off with this juicy plum.

A Sure Thing for You.

A transaction in which you can not lose is a sure thing. Billousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascaree Candy Cathartic, the wonderful new liver stimulant and intestinal tonic are sold by all druggists and guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box today! 10c., 25c., 50c. Sample and booklet free. It

Hebrew News: Miss Gertrude Holmes, principal of the Holmes Business College, returned home from a very pleasant visit in Eastern Oregon and Washington. Miss Holmes remained business with pleasure and was the recipient of much attention from the hospitable people of every city she visited.

What Dr. A. E. Satter Says.

Buffalo, N. Y.—Gents:—From my personal knowledge, gained in observing the effect of your Shiloh's Cure in cases of advanced consumption, I am prepared to say it is the most remarkable remedy that has ever been brought to my attention. It has certainly saved many from consumption. Sold by Conser & Brook.

Hebrew News: Hon. McK. Mitchell, of Jerviss, Or., was in the city this week. Mr. Mitchell has many friends who are sorry to learn of his failure of appointment to office by our delegation, and hopes are entertained that he will be recognized by the administration for his good work done in the last campaign.

Certainly you don't want to suffer with dyspepsia, constipation, sick headache, sallow skin and loss of appetite. You have never tried DeWitt's Little Early Risers for these complaints or you would have been cured. They are small pills but great regulators. For sale by Conser & Brook.

W. W. Uelso: Henry Blackman, collector of internal revenue for the district of Oregon, Washington and Alaska, with headquarters at Portland, was in the city yesterday. Mr. Blackman's term of office does not expire until next January and, as he is considered an efficient officer, it is not probable that he will be asked to resign until his time is up.

Shiloh's Consumption Cure cures where others fail. It is the leading Cough Cure, and no home should be without it. Pleasant to take and goes right to the spot. Sold by Conser & Brook.

E. O.: The resignation of Sheriff Houser will not be presented to the court until he receives his commission as United States marshal. Therefore it is unlikely that any appointment will be made at the present session.

A Cure for Bilious Colic.

Resourse, Scriven Co., Ga.—I have been subject to attacks of bilious colic for several years. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the only sure relief. It acts like a charm. One dose of it gives relief when all other remedies fail.—G. D. Sharp. For sale by Conser & Brook.

Hebrew News: Miss Stella Alexander, daughter of Hon. and Mrs. R. Alexander, of Pendleton, will shortly arrive in this city to resume her studies at the St. Helens Hall.

Small precautions often prevent great mischiefs. DeWitt's Little Early Risers are very small pills in size, but are most effective in preventing the most serious forms of liver trouble and stomach troubles. They cure constipation and headache and regulate the bowels. For sale by Conser & Brook.

Geo. D. and Mrs. Fell left Saturday night for Pendleton, their home.

It Favos the Croupy Children.

Seaview, Va.—We have a splendid case of Chamberlain's Cough Remedy, and our customers coming from far and near, speak of it in the highest terms. Many have said that their children would have died of croup if Chamberlain's Cough Remedy had not been given.—Kellam & Ogden. The 25 and 50 cent sizes for sale by Conser & Brook.

Mrs. Sam Tillard and daughter, Grace, are visiting friends in Pendleton.

Beckler's Anker Salve.

The Best Salve in the world for Ulcers, Burns, Sores, Ulcers, Salt Rheum, Fester Sores, Tetter, Chapped Hands, Chills, Corns, and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Conser & Brook.

LOCAL SQUIBS.

C. J. Andrews is over from Lone Rock today.

County court proceedings in next issue.

File-cutters in England suffer much from lead poisoning, because they cut the files by hand, resting the hand on a block of lead. In the United States files are cut by machinery, and nothing is heard of lead poisoning among the craft.

Hatmakers are exposed to the danger of mercurial poisoning, a most distressing condition, popularly known as "salivation." In the manufacture of hats a strong solution of acid nitrate mercury is used to promote the setting of the hair or fur, and the workmen who handle and shape the felt are especially exposed to the danger. Mercury is volatile at ordinary temperature, and the inhalation of its vapor, dust containing its salts, produces increased flow of saliva, sore mouth, ulceration of gums, loss of flesh, tremors, vertigo and other ills. Prevention in such cases is difficult, because the workmen will not take the necessary precautions. The methods are the same as for lead, prompt removal of vapors by exhausts, good ventilation and scrupulous personal cleanliness.

Arsenic produces most of its evil effects in trades which employ colors which contain it, either as an essential constituent or as an impurity. Some of the aniline colors contain arsenic. The chief arsenical pigments are Schweinfurth green (arsenic of copper) and chrome green, but they also occur in some dull reds, such as red-striped bed-ticking.

The trades in which chronic arsenical poisoning occurs most frequently are in the manufacture of artificial flowers and of fancy colored glazed paper for boxes, playing cards, etc. Dyers are also exposed to much danger from this most distressing form of mineral poisoning. The use of arsenic for coloring wall paper seems to have greatly diminished of late years, and although it is probable that in most cases it is an accidental impurity of the colors used, a fact which does not, however, lessen the danger to which the workman is subjected. The same is true of certain of the employees engaged in the manufacture of carpets, and dress-goods printers.

Dust becomes a serious source of danger in many trades. Among coal miners or those engaged in handling fine coal—firemen, stokers, coal passers and coal dock laborers, etc.—the coal and coal dust deposited in the tissue of the lungs, producing what is known as "miner's" "lung," or anthracosis, while the similar deposit found in the lungs of those who inhale fine particles of iron or steel is known as siderosis.

In grinders, file cutters, potters, glass polishers, wood and cotton spinners, quarrymen, stone cutters, lime burners, millers, brass finishers, copper beaters, aluminum rollers, gold beaters and burnishers tissue changes in the lungs are usually found after death.

Micro-organisms cause a very considerable part of the diseases which afflict men in any occupation. While no occupation specifically produces these organisms, yet some trades make the workmen much more liable to attack than others. The bacillus of tuberculosis, which causes over 12 per cent. of all the deaths which occur in the United States, mainly affect those who work in ill-ventilated rooms. One consumptive careless about his expectations may infect his fellows. Hence the large proportion of cases of this disease among printers, accountants and clerks, and the dressmakers, seamstresses and clothing workers, who are crowded into sweatshops in the large cities.

The preventive is in proper ventilation, disinfection of premises and cupboards, in open-air exercise and the avoidance of positions in which the chest is cramped and constrained.

The special dangers to the health of brain workers, that is, persons who use their brains rather than their muscles in their occupation, are due—first, to excess of emotion, especially anxiety, worry, etc.; second, to irregular habits as to eating and sleeping; third, to excess in eating, drinking, smoking, etc.; fourth, to want of physical exercise.

The diseases to which brain workers are most liable—dyspepsia, insomnia, liver and kidney disorder, nervous irritability or prostration, irritable heart, apoplexy and paralysis, etc.—are by no means peculiar to them, as they are seen in idle loungers quite as often. They are due not so much to excessive brain work as to bad habits of various kinds.

Generally the patient feels flabby, the secretions are disordered, he feels as if he needed more rest. The causes are many; too much tobacco, too little exercise, a moist air with low barometer and a cloudy sky. Under the circumstances there is nothing to do but to drop the work, but avoid a stimulant.—San Francisco Examiner.

FANCY-DRESS BALL IN LONDON.

English Men and Women Take Their Pleasure Seriously.

A fancy-dress ball in London is slow. The streets around Covent Garden on a fancy-dress ball night are as solemn as Scotland itself, says Scribner's. A few homeless Londoners are kept at respectful distance by the police, while a procession of carriages goes slowly under the archway and deposits serious merry-makers, dressed as stoves, light-buses, monks, lamps and vegetables. Owing to these elaborate disguises the journey past the ticket-takers and to the ballroom is slow. On the ballroom floor officials, totally void of a sense of humor and dressed in black velvet and cut steel buttons, keep the center of the floor clear, apparently for their own use, and stand ready to subdue any burst of light heartedness that might appear in the circle that is kept moving about them. The general orders are "keep moving along." The man who manages the searchlight, from one of the top boxes, probably enjoys the ball the most. He certainly does more to help it. The center of interest is wherever he will have it. He can make a dull costume bright and a supper party in one of the boxes grand, and he can almost rouse the gloom caused by the officials in black.

DISEASES OF THE TRADES.

Each Occupation Has Its Peculiar Affections.

An Exception Is That of Brain Workers Whose Ills, It Is Claimed, Arise in Most Instances from Bad Habits.

File-cutters in England suffer much from lead poisoning, because they cut the files by hand, resting the hand on a block of lead. In the United States files are cut by machinery, and nothing is heard of lead poisoning among the craft.

Hatmakers are exposed to the danger of mercurial poisoning, a most distressing condition, popularly known as "salivation." In the manufacture of hats a strong solution of acid nitrate mercury is used to promote the setting of the hair or fur, and the workmen who handle and shape the felt are especially exposed to the danger. The causes are many; too much tobacco, too little exercise, a moist air with low barometer and a cloudy sky. Under the circumstances there is nothing to do but to drop the work, but avoid a stimulant.—San Francisco Examiner.

THE WONDERS OF SCIENCE.

LUNG TROUBLES AND CONSUMPTION CAN BE CURED.

An Emminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished chemist, T. A. Sloan, of New York City, demonstrating his discovery of a reliable cure for Consumption (Pulmonary Tuberculosis), bronchial, lung and chest troubles, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of this paper writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

The dread Consumption, uninterupted, means speedy and certain death. Simply write to T. A. Sloan, M. C., 98 Pine street, New York, giving post-office and express address, and the free medicine will be promptly sent direct from his laboratory.

Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw this in the Gazette, published at Heppner, Oregon.

July 9-7-1 yr.

NOTICE.

All persons indebted in notes and so accounts due to Noble & Co. are requested to come forward and settle same as soon as possible. We will continue in business and will sell goods as low as can be bought anywhere in the state.

Noble & Co. Heppner, Or., June 24, '97.

THE BOSS FRED YARD.—The first feed yard the teamster strikes in Heppner is that conducted by William Gordon, next door to the Heppner Gazette ranch. Mr. Gordon is accommodating, has a good yard and abundant facilities to take care of stock in first class shape. His prices are very reasonable. He has hay and grain for sale. Has lately added a car load of baled timothy.

Come to the Gazette office and get a decent lot of envelopes printed. Government envelopes look cheap, and besides you cannot get your business card printed thereon.

What is Hop Gold? Best beer on earth. See it elsewhere.

Put a quarter in your pocket and don't spend it till you get down to Low Tillard's. Finest liquors and cigars. Near city hall.

See those new Russian Tan shoes down at Lichtenhals'. Latest styles, best quality, reasonable prices. You cannot do better anywhere.

Come in and subscribe for the "Gazoo." Now is the time. You don't want to miss a whole lot of good, hard reading that is now being published in our "Gazoo."

Any person who is interested in British Columbia should write to W. H. Harburt, general passenger agent of the O. R. & N., for a copy of Pat Donnan's little "booklet," "The New Bonanza Land." It is well worth the trouble. 60-11.

PATENTS

Covers and Trade-Marks obtained and all Patent business conducted for moderate fees. OUR OFFICE IS OPPOSITE U. S. PATENT OFFICE and we can secure patent in less time than those from Washington.
