A WOMAN'S DEED.

A BENEFACTRESS WHO IS DOING INCALCULABLE GOOD.

Devotes Much of Her Time to the Benefits of Children—How She Helps Them.

From the Evening News, Detroit, Mich. Mrs. John Tansey, of 130 Baker street, Detroit, Michigan, is one of those women who always know just what to do in all trouble and sickness. One that is a mother to those in distress. To a reporter she said: "I am the mother of ten children and have raised eight of them. Several years ago we had a serious time with my daughter, which began when she was about sixteen years old. She did not have any serious illness but seemed to gradually waste away. Having never had any consumption in our families, as we come of good old Irish and Scotch descent, neither did she have a hacking cough, yet she grew thinner and paler each day. Our doctor called the disease by an old name which, as I afterward learned, meant leucæmia of blood. "It is impossible to describe the feelings John and I had as we noticed our daughter slowly passing away from us. As a last resort I was induced to try Dr. Williams' Pink Pills for Pale People, made by the Dr. Williams Medicine Co., Schenectady, N. Y., which I understood contained in a condensed form all the elements necessary to give new life and richness to the blood and restore exhausted nerves. Before she had taken half a box, there was a decided change and after three months treatment you would not have recognized her, as her health was so greatly improved. She gained in flesh rapidly and soon was in perfect health. I have always kept the pills in the house since and have recommended them to every one I could. I have told many mothers about them and they have made some wonderful cures. One of the girls had a young lady friend that came to the house almost every day, and she was a sight. Honestly, she seemed almost transparent. I did not care to have my daughters associate with her, as I was afraid she would drop dead some day when they were out on the street. I recommended and begged her to take Dr. Williams' Pink Pills for Pale People, and told her of their sterling qualities and how the cost was slight, being only 50 cents a box or six boxes for \$3.00, at any druggist's. Finally I induced her to try them. "They helped her wonderfully, and undoubtedly saved her life. She now recommends them to other young women. "Every mother in this land should keep these pills in the house, as they are good for many other ailments. I don't believe in doctoring and never spent much money in medicines, but I can recommend Dr. Williams' Pink Pills to every mother that has a daughter just coming into womanhood."
