Cold Weather

Though the disagreeable effects of Ca-tarrh are felt all the year round, cold and disagreeable weather aggravates the disease and it is during the winter sea-son that its severest form is felt. Each succeeding year seems to intensify the disease, so that it gradually fastens its hold upon the sufferer with a grasp that

becomes firmer each season. Catarrh often appears as only a cold at first, and is hardly noticed. But gradu-ally the cold returns, and it is more difficult to cure, and stays longer than formerly. These symptoms cannot be mis-taken; they mark the first appearance of a
