Bad!

It is news to you, perhaps, that baking powder can be bad for the insides. Good baking powder, however, is not bad for the insides.

True, it costs more than baking powder at 25 cents or 30 cents a pound; but it does better work, and more work for the money, than "cheap" baking powder does, and it does no harm.

Of the right-price baking powders *Schilling's Best* is the best—your money back if you don't like it—at your grocer's.

Nothing to give her save only this— The kiss on the curls that she gives me to kiss!— Frank L. Stanton in Christmas Ladies' Home Journal.

In order to satisfy herself as to whether or not it was loaded, she turned the muzzle to the wall, shut both eyes and pulled the trigger. A deafening report and a bloodstained hole in the wall satisfied her curiosity, and also upset her nerves for a few moments.
