IN FLORIDA the other day two little children while at play saw a moccasin snake and tried to capture it—it was such a pretty thing. They are now sleeping side by side, and two newly-made graves tell the sad story of the end of two lives, which if lived might have given profit to the world.

What is Scott's Emulsion? It is a strengthening food and tonic, remarkable in its flesh-forming properties. It contains Cod-Liver Oil emulsified or partially digested, combined with the well-known and highly prized Hypophosphites of Lime and Soda, so that their potency is materially increased.

What Will It Do? It will arrest loss of flesh and restore to a normal condition the infant, the child and the adult. It will enrich the blood of the anemic; will stop the cough, heal the irritation of the throat and lungs, and cure incipient consumption. We make this statement because the experience of twenty-five years has proven it in tens of thousands of cases.
