

FROM FOOT TO KNEE

Ohio Woman Suffered Great Agony From a Terrible Sore—Her Story of the Case, and Her Cure.

"For many years I was afflicted with a milk leg, and a few years ago it broke out in a sore and spread from my foot to my knee. I suffered great agony. It would burn and itch all the time and discharge a great deal. My health was good with the exception of this sore. I tried a great many kinds of salve, but some would irritate the sore so that I could hardly stand the pain. I could not go near the fire without suffering intensely. Someone sent me papers containing testimonials of cures by Hood's Sarsaparilla, and I told my husband I would like to try this medicine. He got me a bottle and I found it helped me. I kept on taking it until my limb was completely healed. I cannot praise Hood's Sarsaparilla enough for the great benefit it has been to me. It cleanses the blood of all impurities and leaves it rich and pure." MRS. ANNA E. EAKEN, Whitteley, Ohio.

You can buy Hood's Sarsaparilla at all druggists. Be sure to get only Hood's.

Hood's Pills are the favorite family cathartic. Price 25c.

The Birth of the "Greater" New York.

With the dawn of the New Year the "Greater" York is ushered into the world a full grown giant. The problem of municipal government is to be put to the supreme test. Within its limits is contained a population equal to that of thirteen of our sovereign states at our last census, and as numerous as that of the original thirteen states. Provisions for the life and health of this vast multitude of all nations and climes is an unsolved enigma. Thousands of sufferers in New York and elsewhere are wretched from the grasp of that agonizing complaint, rheumatism, by the timely use of Hostetter's Stomach Bitters, which is a preventative of malaria and kidney complaint, and a curative of liver complaint, constipation and nervousness.

LITERARY NOTES.

The series of addresses on the life and work of St. Paul, now being delivered on Sunday evenings in Plymouth church, Brooklyn, by Lyman Abbott, are exciting not a little discussion. They are to be revised by Dr. Abbott, and to be printed in full in The Outlook. The first of the series appears in The Outlook dated January 1, which is the January Magazine Number. The other addresses will be printed in successive numbers of The Outlook. (\$3 a year. The Outlook Company, 13 Astor Place, New York.)

The old style of portraying famous people through a "sketch" or "biography" is to be modernized in The Ladies' Home Journal during 1898. Five of the most prominent Americans have been chosen for the departure: President McKinley, Mrs. Cleveland, Mark Twain, Joseph Jefferson, and Thomas A. Edison. Each will have a special article, which will consist of about fifteen or twenty fresh, unpublished stories and anecdotes strung together, each anecdote showing some characteristic trait or presenting a different side of the subject. The idea is to show famous personalities through their own doings and sayings, and to make these articles accurate the relatives and closest personal friends of the subjects have assisted and given to the Journal the best stories and anecdotes within their own knowledge. Each article will thus represent the closest view of the one sketched. No authorship will be attached to any of the articles.

Two Millions a Year.

When people buy, try and buy again, it means they're satisfied. The people of the United States are now buying Cassara's Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved, that Cassara's is the most delightful bowel regulator for everybody the year round. All druggists 10c, 25c, 50c a box, cure guaranteed.

ATTENTION REPUBLICANS.

A meeting of the republican club of Morrow county is called for Saturday, January 15th, 1898, at the court house in Heppner, at 2 p. m., for the purpose of electing delegates to the state meeting of republican clubs, which convenes in the city of Portland on the 2d Tuesday of February, and also to elect officers for the ensuing year. All republicans are urgently requested to attend. W. W. SNEAD, Pres. J. W. HORNOR, Sec'y.

MARTIAN METEOROLOGY.

The Weather on Our Neighboring Planet is Always Fine. The Martian meteorology is less complicated and more pleasant than that of the earth, says the North American Review. There the weather is almost always fine, especially during summer. Very seldom are there clouds even in winter. Generally, when we are unable to distinguish through the telescope the details of the geographical configurations upon the planet the fault is in our own atmosphere and not in that of Mars. It is very rarely the case that when our atmospheric conditions are good we are unable to see these details. During the last period of observation of Mars in 1894, I, to speak for myself, encountered only 15 days (from October 19 to 25) when the surface of the planet was veiled by its own atmosphere. Clouds are excessively rare on the surface of Mars, and perhaps exist at all only as fogs or light cirrus; they are not clouds of rain or storm. These veils are very infrequent there, while they are perpetual upon the earth. Probably there is not a single day in the year when the entire surface of the earth is uncovered so that it could be satisfactorily observed from space. The two planets have two meteorological systems that are absolutely antithetical.

Furthermore, in the rarefied atmosphere of Mars there can be no powerful winds, like the trade winds, and the predominant atmospheric currents which rule terrestrial climates. Occasionally, however, observers have noted long streaks of snow which appear to have been produced by currents in a tranquil atmosphere. Schiaparelli, for instance, observed such streaks (cirruses) in November and December, 1891, around the northern pole, and extending a considerable distance from it. But such things are exceptions. The normal condition of Mars is first winter.

Making Artificial Sugar. A feat of much scientific interest, if not of immediate commercial value, is the production of chemical sugar by Profs. Fischer and Tafel in the laboratory of the University of Wurzburg. It has all of the properties and appearance of genuine or natural sugar, except that it is incapable of rotating a beam of polarized light.

HEPPNER, OR., Nov. 12, 1897. Messrs. Conser & Brock, Heppner, Or. GENTLEMEN—I was recently taken with a severe cold which made me very hoarse and rendered me unfit to attend to business. A friend of mine called my attention to your Dr. Bartholow's cough syrup and I bought a bottle, costing me 50 cents, which relieved me at once and completely cured me. I am subject to throat difficulty and I have found nothing that gave me so much relief as this cough cure. I am informed that it is excellent for colds, bronchitis, whooping cough and all throat and lung troubles. I beg to remain, most truly yours, OTIS PATTERSON, Ed. Gazette.
