SCHOOL MEETING.

The annual school meeting. which will be held Monday, March 7th, should be well attended. The voters of each district in the county should take greater interest in school matters, for upon the proper conduct of our schools depends in a large measure the future wellfare of our country. It is a duty that every parent owes to his children, that every lover of our free institutions owes to his country, and every friend of education owes to himself, to be present at all our thanks. He does so bubble visiting relatives here during the winter, will and every friend of education owes school meetings, and see that only over in his efforts to be neighborly. also go to Pullman progressive men are elected as directors-men who are personally interested in educational work. If greater interest was taken by the voters in this matter there would in many cases be less ground for complaint of incompetent teachers and mismanagement of affairs generally.

PRESIDENT McKINLEY'S firm attitude in regard to the Kansas Pacific railroad is likely to be as advantageous to the government proportionately as was his action in the Union Pacific matter. By rejecting the proposition of the reorganization committee in the Union Pacific matter and insisting upon full payment of principle and interest, he saved to the government \$13,311,000 in excess of what a former administration had indicated a willingness to accept, obtaining full payment of principal and interest. A part of the Kansas Pacific which extends westward from Kansas City is covered by a second mortgage held by the government amounting to \$6,303. 000 principal and accumulated interest amounting to \$6,598,000. An offer of \$2,500,000 for full payment of this claim was made, but President McKinley, unwilling to interests, despite the constant assertions that the portion of the Kansas Pacific covered by the government mortgage was of no greater value than the first mortgage which the government must assume in foreclosing its own lien, orderd steps taken in the direction ment by payment of the full well assured.
