

A LITTLE SUFFERER

Face, Hands and Arms Covered With
Scrofulous Humors—How a Cure
Was Effected.
When five years old my little boy had
scrofula on his face, hands and arms. It
was worst on his chin, although the sores
on his cheeks and hands were very bad.
It appeared in the form of red pimples
which would fester, break open and run
and then scab over. After disappearing
they would break out again. They caused
intense itching and the little sufferer had
to be watched continually to keep him
from scratching the sores. We became
greatly alarmed at his condition. My
wife's mother had had scrofula and the
only medicine which had helped her was
Hood's Sarsaparilla. We decided to give
it to our boy and we noted an improve-
ment in his case very soon. After giving
him four bottles of Hood's Sarsaparilla
the humor had all been driven out of his
blood and it has never since returned."
