STRAIGHT POPULISTS.
A Fall County Ticket to Be Nominated on April 30.
The middle-of-the-road populists do not intend to allow themselves to be forced to support a mongrel ticket in this county, says the Baker City Republican. They are determined to make a fight for those principles for which they have so long contended, and do not desire to train with their old enemies, the democrats and silver republicans for the sake of what they may get out of it in the nature of a fat office. For the purpose of perpetuating their party and to prevent the party machinery from falling into unscrupulous hands they will hold a county convention in Baker City on Saturday, April 30, and nominate a full county ticket.

Remarkable Rescue.
Mrs. Mabel Curran, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking six bottles, found herself sound and well, now does her own housework and is as well as she ever was—Free trial bottles of this Great Discovery at E. J. Slocum's drugstore, large bottles 50 cents and \$1.00

Ely's Cream Balm
COLD IN HEAD
Felt in a Well.
Mr. and Mrs. M. J. Canty met with quite a serious accident last Wednesday, says the Arlington Record. In the back part of the harness shop is a closet built over an unused well and in the closet were stored several boxes of apples. On the day above mentioned Mrs. Canty asked her husband to procure one of the boxes and followed him to the store room. Upon Mr. Canty's stepping on the boards covering the well they proved to be rotten and gave way precipitating him to the bottom of the well, and he, in the excitement, trying to save himself caught hold of his wife and carried her down with him. The well was about thirty feet deep and contained about three of mud and water, which probably broke the fall and saved their lives. Mr. Canty called long and loudly for help but could make no one hear. They were compelled to remain in the well for an hour, until their son Gregory returned from school and discovered what had befallen them gave the alarm and they were rescued from their perilous plight. Mr. Canty escaped without injury but his wife was seriously bruised.

CHILD SOVEREIGNS.
The Status of Royal Minors in the Old World.
It is an interesting circumstance that no fewer than three European thrones are occupied by children. Since the abdication of King Milan, his son Alexander, who was born in August, 1876, and is now, consequently, fourteen years old, has been the titular ruler of Serbia, though the country is really governed by a board of regents. The present King of Spain, Alfonso XIII, is an infant, and during his minority the normal head of the monarchy will be his mother, the Queen-Regent Christina. By the death of King William III. the crown of Holland devolves on his daughter, Wilhelmina, who is in her eleventh year. Here again, the child's mother, Queen Emma, is temporarily invested with the royal functions.
What likelihood, asks the New York Ledger, is there that these children will ever rule in their own names? The young King of Serbia has evidently the poorest chance of reigning. The quarrel between his father and his mother, the ex-Queen Nathalie, has divided his partisans, while the pro-Russian party, now dominant in Serbia, aims to displace the Obrenovitch dynasty to which King Milan and his son belong, and substitute the pretender, King Georgevitch. As to the infant King of Spain, his subjects have been hitherto withheld from revolutionary outbreaks by a certain sentiment of chivalry. But as the sovereign grows older, this feeling will disappear, and it will prove extremely difficult for his supporters to make head against the Spanish Republicans on the one hand and the Carlists on the other.
The close approach to universal suffrage which has recently been made in Spain must greatly strengthen the popular leaders who regard a monarchical system with contempt and detestation. The girl-Queen of Holland has the best chance of retaining her position, but her hour of trouble will come when her marriage is discussed. Her mother, who is a German, will naturally wish to marry a German Prince; but such a project is certain to be resisted by Russia and France, nor is it likely to be viewed with favor by the Hollanders, who dread absorption in the German Empire. On the whole, there is something pathetic in the situation of these child sovereigns.

SET THE CHILDREN TO WORK.
An Ingenious Englishman Who Combined a Swing and a Much Needed Pump.
An English writer on inventive geniuses tells a story of a certain August Pirch, who is the possessor of a dozen fine healthy children. Mr. Pirch, so the story goes, had a tract of land that could not be used for the want of water, since it was far from any available stream or other body which might prove of use in the fertilization of his acres, and how to irrigate the land without spending a large sum of money was a mystery which, for a long time Mr. Pirch could not solve. He figured out the cost of a well, and found that his resources would permit of his digging a sixty-foot well and the purchase of a cheap pump, but how to make the pump work was a question. Suddenly his inventive mind suggested a solution. He remembered his children and he also called to mind a certain large family swing he had seen in a neighboring town. He knew the swing would please the children, and he hoped through it their pleasure might be able to serve his interests. The well was bored, the pump was set up and the swing was put in working order.
"Here, now boys," said he, when all was ready, called the children to him, "come out here and get in this swing. I'm going to give you something to play with."
In five minutes the children were flying backward and forward through the air. The pump worked up and down gaily as you please and a fourteen-inch stream of water flowed from the well. Mr. Pirch's scheme had worked. The children do not know they are working, as the swing is some distance from the well and is connected with it by an iron rod which works the pump as the swing moves backward and forward. The scheme has worked well, and it is said that the youngsters pump enough water during their day's sport to irrigate a large tract—Harper's Young People.

THE WONDERS OF SCIENCE
LUNG TROUBLES AND CONSUMPTION CAN BE CURED.
An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.
The distinguished chemist, T. A. Slocum, of New York City, demonstrating his discovery of a reliable cure for Consumption (Pulmonary Tuberculosis), bronchial, lung and chest troubles, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discovery to any afflicted reader of this paper writing for them.
His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial of his infallible cure.
Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.
The dread Consumption, uninterupted, means speedy and certain death. Simply write to T. A. Slocum, M. O., 98 Pine Street, New York, giving post-office and express address, and the free medicine will be promptly sent direct from his laboratory.
Sufferers should take instant advantage of this generous proposition. Please tell the Doctor that you saw this in the Gazette, published at Heppner, Oregon. July 9-7-1 yr.

NOT A Campaign Lie—Lye.
If you are using the common brands of lye you are paying for a large percentage of common salt with which it is adulterated in many instances to the extent of one-half.
