### Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill.,  
makes the statement that she caught  
cold, which settled on her lungs; she  
was treated for a month by her family  
physician, but grew worse. He told her  
she was a hopeless victim of consump-  
tion and that no medicine could cure  
her. Her druggist suggested Dr. King's  
New Discovery for Consumption; she  
bought a bottle and to her delight found  
herself benefited from the first dose.  
She continued its use and after taking  
six bottles, found herself sound and well,  
now does her own household work and is  
as well as she ever was.—Free trial bottles  
of this Great Discovery at E. J. Slocum's  
drugstore, large bottles 50 cents  
and \$1.00.

### LITERARY NOTES.

The Best Novels of 1897.

At a recent meeting of the New York  
Library Association and the New York  
Library Club a committee was appointed  
to go carefully over the works of  
fiction published in 1897, and make a  
list of those deemed worthy of perma-  
nent shelf room in public libraries. The  
books published were many, but those  
that came up to the committee's stand-  
ard were few enough. They were only  
seven, and were the following: On the  
Face of the Waters, by Mrs. F. A. Steel;  
St. Ives, by Robert Louis Stevenson;  
The Gadfly, by E. L. Veyric; School  
for Saints, by John Oliver Hobbes; Cap-  
tains Courageous, by Rudyard Kipling;  
Hugh Wynne, and Free Quaker, by Dr.  
S. Weir Mitchell; and The Choir In-  
visible, by James Lane Allen. Of these  
seven first-rate novels, three were first  
published serially; and of the three, two  
—and they much the most notable ones  
in the entire list, being Kipling's Cap-  
tains Courageous and Stevenson's St.  
Ives—were published in McClure's  
Magazine.

### FRESH COMMENT.

The nomination of T. T. Geer for the  
gubernatorial chair by the republican  
state convention means that he will be  
the next governor of Oregon. Mr. Geer  
is not a politician as that term is em-  
ployed now a days. He is a thinker of  
high order; a worker of unusual energy,  
and a man against whose personal char-  
acter not a word can be said. His popu-  
larity with the people has been demon-  
strated repeatedly by his election to the  
legislature for successive terms, his  
selection as speaker of that body, and  
the fact that among the republican elec-  
tors at the last presidential election he  
polled the largest vote of any on the  
ticket. When Mr. Geer shall assume  
the duties of governor, the people may  
be sure he will give an administration  
of which the state shall feel proud. He  
will not be controlled by political ma-  
nagers, a statement which cannot be said  
concerning the present incumbent of this  
office.—The Dalles Chronicle.

In nominating T. T. Geer for governor  
of Oregon the convention at Astoria  
succeded to the wishes of every republi-  
can in the state. Mr. Geer is pre-  
eminently the man for the place, and  
there is no question that he will be  
elected by a great majority.—Pendleton  
Tribune.

A democratic exchange says that it's a  
pity we have not today a Lincoln or a  
Grant in the presidential chair. Well,  
when we had them you fellows treated  
them even worse than you now do Mc-  
Kinley. But you are of the generation  
that garnish the tombs of the prophets  
whom your fathers have slain.—Crook  
County Journal.

### THE LABOR OF ACTING.

Great Results Obtained Only by the Most  
Exact Discipline.

On first visiting a French theater an  
American will be struck by its small-  
ness, says a writer in the Atlantic's  
contributor's club. True, the edifice  
holds a good many people, but somehow  
the architectural conformation enables  
the eager audience to cluster about the  
stage, tier above tier, at no great dis-  
tance therefrom. Then can one note  
how important is the finish of the actor,  
the nuances coming into play admir-  
ably; not a shade of expression, not a  
single modulation in quality of tone  
failing to deliver its message. Is it  
strange that in France the art of acting  
should attain a polish unknown else-  
where?

When Sergeant Talourd's play of  
Ion was in rehearsal the production  
was entrusted to the skillful hands of  
Macready, at once the ablest actor and  
most exacting manager on the British  
stage. He insisted upon having the  
"certain scenes," or picturesque group-  
ing at the close of an act, care-  
fully chafed, the position of each char-  
acter accurately designated, and the  
last few effective movements clearly in-  
dicated by chalk lines drawn upon the  
flooring of the stage. So patiently and  
so painstakingly was the piece re-  
hearsed that the leading lady, Miss  
Ellen Tree (afterwards Mrs. Charles  
Keen), was found, before the perfor-  
mance, to have contracted a serious dis-  
ease of the knee-joint, caused by fre-  
quently falling upon her knees during  
rehearsals under the tutelage of the  
marinier manager.

Young and undisciplined actors, ac-  
customed to rely upon the "beautiful  
spontaneousness" of an artistic nature,  
were wont to regard Mr. Macready with  
something akin to terror, and to stigmatize  
an artificial his relentless accu-  
racy and precision in details. There is  
undoubtedly something perilously fas-  
cinating about the effortless productiveness  
which we are accustomed to regard as  
genius, and which, as it vouchsafes  
no hint of toil, is seemingly the gift of  
heaven, but if fear the more we examine  
the matter, the more we shall be inclined  
to accept the homely assurance of Wirt  
that "there is no excellence without  
great labor."

### Beauty is Blood Deep.

banish pimples, boils, blotches, blackheads,  
and that sickly bilious complexion by taking  
Cascarets,—beauty for ten cents. All drug  
gists, satisfaction guaranteed, 10c, 25c, 50c.

### Newberg Graphic: J. W. Vaughan,

of Heppner, came up on the train from  
Portland Tuesday evening and made a  
short visit with the Hodson boys. He  
was very favorably impressed with New-  
berg and there is a probability of his  
locating here.

What Dr. A. E. Sater Says.

Buffalo, N. Y.—Gents:—From my  
personal knowledge, gained in observing  
the effect of your Shiloh's Cure in cases  
of advanced consumption, I am prepared  
to say it is the most remarkable remedy  
that has ever been brought to my atten-  
tion. It has certainly saved many from  
consumption. Sold by Conser & Warren.

### TYPICAL AMERICAN STUDENTS

Two Undeveloped Statues on Exhibition in  
Boston.—The Dimensions of Each.

Two interesting statues, the result  
of much hard work, were put on ex-  
hibition in Boston recently. One was  
that of a young man and the other that  
of a girl. They were designed to  
represent the American college stu-  
dent, not the ideal American student  
of either sex, but the actual, typical  
student, the measurements used hav-  
ing been the average, or mean, of de-  
velopment of students from various  
parts of the country. The statues are  
described by the Rochester Post and  
Express as representing "fairly well  
built young persons, symmetrically de-  
veloped, and without serious physical  
defects." The figures have an easy  
pose, standing firmly and gracefully.  
The faces, which were modeled after  
composite photographs made from the  
students from whom the measurements  
were taken, are handsome and thought-  
ful, with a marked air of refinement.  
The face of the young man is the hand-  
somer of the two, but that of the  
young woman is nearest the classic  
standard. In the former's figure there  
are some marked departures from the  
standard. The hands and knees are  
large, while the wrists are small. The  
height of the male is five feet eight  
inches and of the female five feet three  
inches. The male weighs 145 pounds,  
of one hundred and thirty-eight and  
one-half pounds and the female one  
hundred and fifteen pounds. Each  
figure represents measurements taken  
from forty-two leading parts of the  
body and these show the average de-  
velopment of each sex at the age of  
twenty-one years. It is worthy of note  
that the typical American student has  
a better physical development than  
that of the British or German, as is  
shown by comparison with measure-  
ments made recently in those coun-  
tries.

### Everybody Says So.

Cascarets Candy Cathartic, the most won-  
derful medical discovery of the age, pleases  
and refreshing to the taste, acts gently,  
and positively on kidneys, liver and bowels,  
cleansing the entire system, dispelling  
cure headache, fever, habitual constipation  
and biliousness. Please buy and try a box  
of C. C. C. to-day; 10c, 25c, 50c. Sold and  
guaranteed to cure by all druggists.

His "New Scientific Treatment" has  
cured thousands permanently by its  
timely use, and is considered a simple  
professional duty to suffering humanity  
to donate a trial of his infallible cure.

Science daily develops new wonders,  
and this great chemist, patiently exper-  
imenting for years, has produced results  
so beneficial to humanity as can be  
claimed by any modern genius. His  
assertion that lung troubles and con-  
sumption are curable in any climate is  
proven by "heartfelt letters of grate-  
tude," filed in his American and Euro-  
pean laboratories in thousands from  
those cured in all parts of the world.

The dread Consumption, uninter-  
rupted, means speedy and certain death.  
Simply write to T. A. Slocum, M. C.,  
98 Pine Street, New York, giving post-  
office and express address, and the free  
medicine will be promptly sent direct  
from his laboratory.

Sufferers should take instant advan-  
tage of his generous proposition.

Please tell the Doctor that you saw  
this in the Gazette, published at Hepp-  
ner, Oregon. July 9-7-1 yr.

Not a Campaign Lie—Lye.

If you are using the common brands  
of lye you are paying for a large percent-  
age of common salt with which it is  
adulterated in many instances to the ex-  
tent of one-half. When you buy Red  
Sea Lye or Potash you get an absolutely  
pure caustic, granulated like sugar and  
packed in large REEFING TOP CANS. a-30

## FOR YOU!

Now Prepared to do Any  
Kind of Printing—Don't  
Send Your Orders Away  
'Till You Get the Gazette's  
Estimates

Heretofore the Gazette's job depart-  
ment has tried to do no work other than  
plain printing. However, this shop is  
now prepared to tackle anything in any  
line and will meet prices of any person  
under the sun in the line of druggists  
supplies, blank books, bank work  
country work, or any sort of book bind-  
ing—work that you have heretofore sent  
away to get done.

The Gazette shop is not a charity  
concern but if you give us a chance  
we will see that you are satisfied in  
every particular.

Buy your goods at home. Remember  
that Abe Lincoln said that when one  
bought goods away from home the  
foreigner got the money and we got the  
goods. But when the goods were  
bought at home we had both money  
and goods. This is good doctrine. We  
are willing to abide by it. When the  
printing drummer comes to town, re-  
member it and call up phone No. 3.
