SENATOR WOLCOTT made a manly reply to the implied charge of Senator Allen that the bimetallic commission uselessly and extravagantly wasted an appropriation of \$100,000 during its trip to Europe, in which he said: "I desire to inform the senator from Nebraska that the three commissioners spent more than six months in Europe, traveling where their duties took them. They were accompanied by a secretary, and the entire expense of the work accomplished was only \$16,000. And I desire to add that every member of the commission, in accepting the appointment and performing his duties, sacrificed thousands of dollars. It is undignified and unbefitting a senator of the United States to stand on this floor and suggest that the commission spent money it was not justified in spending. I am getting tired of hearing that sort of suggestions from the senator from Nebraska. It is not the first, the second, nor the third time he has thrown them out. Through him they are now being circulated in the West by means of 'patent insides', which constitute the bone and sinew and most of the brains of the populist party." Mr. Wolcott concluded by expressing his belief in the ultimate success of international bimetalism.

THE majorities given both Tongue and Moody are phenomenal and have surprised even the most sanguine republicans. The people are well pleased with republican management, but there is a sentiment that the administration must be supported at this time that the war may go on as planned. It is not supposed that any silver man would directly embarrass the president, but there is danger that financial disagreements will very seriously interfere with the administration's policy. A silver man would not be true to principle if he did not advocate free coinage in every way possible, and just now there is no time for theories. The people want Spain licked good and clean, and they propose to hold "Mac's" coat while he does it. Other differences will be settled afterward.

THE more that is heard concerning the recent election the more it becomes evident that Oregon has gone with a landslide for the republicans. But this does not indicate a "gold standard" victory, as the Oregonian would make you believe. Oregon is safely republican under ordinary conditions. It supports republican policies adopted at St. Louis in 1896. But this year there were other principles overshadowing all old issues of parties. It was not silver, nor was it gold. It was a patriotic stand by the president and congress, just as the president stood by Fitzhugh Lee, which was entirely non-partisan. The people of Oregon were not desirous of molesting the president in his plans to free Cuba, and regardless of politics have voted for administration men.

THE appointment of officers of the land office at La Grande, The Dalles and Burns was held off until after election for political effect. Many candidates for these offices were led to believe that they would receive appointments. This was done in the hope of holding all the applicants and their friends in line with the Mitchell republicans until after election. The program as made up by the Oregon congressional delegation, a majority of which was controlled by John H. Mitchell, included no one for federal position in Oregon except members of the Mitchell party, and the program has been carried out to the letter. The offices have been filled only by men who would serve Mitchell. The wishes of the people have been wholly ignored.—Pendleton Tribune.

Who shot a bomb into your camp, and who has given you the right to speak for the people? Not one in Washington is worrying over the news given out by the Spanish government that a large Spanish fleet is on the way to Manila. Even if it were true, where in it would be different from any other news given out by the Span-

ish government, it would cause no worry in Washington. Admiral Dewey is amply able to take care of any fleet that Spain can send against him, even without any reinforcements, and it is certain that the cruiser, Charleston, and the first instalment of troops—the second instalment will start from San Francisco this week—will be with Dewey before any Spanish fleet can possibly get to Manila.

The volunteers will not be deprived of their votes at the congressional election, if Representative Lacy's bill, which has been favorably reported to the house from the elections committee, becomes a law, and it probably will. The bill gives the volunteer soldier the right to cast his vote for congressman, wherever he may be stationed. The war will probably be over before the congressional election, but some of the volunteers are likely to be continued in service until after that time, especially those who have gone to the Philippines and those who will go to Porto Rico.

TO COMPLETE the anti-Mitchell victory, the legislature which has been elected no doubt will see fit to reward the man who has done more than any one else to accomplish the result and elect him to the United States senate. To Senator Corbett is due a certificate of election from the next legislature. He has been the Roman that has made the fight to a finish.—Portland Dispatch.

Tony, you have given the snap away. Everybody knew that Corbett put up the money in an endeavor to control the legislature, but it was not expected that any of your crowd would admit it.

THE Gazette believes that the interests of the republican party in this state cannot be best subserved by the election of a man to the United States senate who has nothing but money as his best recommendation, and who is so old and palsied as to be entirely unfit for the duties incumbent on him, if elected. It is therefore unalterably opposed to the election of Hon. H. W. Corbett.

MEN were of small moment this year in the field of politics. Management counted for nothing. The people did not seem to care a fig whether there was an ideal man in the ticket or whether there was any management at all, or, in fact, whether it was good or bad. So many agreed that principles were of more value than anything else that the victory is overwhelming.

LOCALLY, the Gazette has endeavored to promote as much harmony as possible, in the contest for offices which has just been finished. We must live together in the future, as we have in the past, as neighbors. Therefore the Gazette insists that its course has been in the interest of neighborhood fraternity, at the same time supporting the republican ticket.

THE Oregonian makes a wry face and says that the "republican party" is not being recognized by the administration. Because the Oregonian is supporting the present organization this year does not make it any more republican than it was when it bolted and tried to elect Northrup to congress. The Oregonian is a dirty sheet that deserves nothing.

**SOME** persons say it is natural for them to lose flesh during summer. But losing flesh is losing ground. Can you afford to approach another winter in this weakened condition?

**Scott's Emulsion**  
of cod liver oil with hypophosphites does just as much good in summer as in winter. It makes flesh in August as well as April. You certainly need a strong nervous in July as in January. And your weak throat and lungs should be healed and strengthened without delay.  
A. B. HERRICK, Chemist, New York

A GOOD many years ago H. W. Corbett was compelled to retire from the race for a second term as United States senator from Oregon, on account of the exposition of bribery on the part of Corbett. Have the people short memories? A republican member of the legislature who endorses such a man has little respect for the people or for his party.

THE batch of appointments that the president made for Oregon a few days ago put the Oregonian in a bad humor. It says the "republican party" is not getting recognition. If the people thought that the Oregonian was the republican party it would have as little show in their hands as a snowbank in July.

THE Hebrew News, of Portland, swallows Joe Simon without objection. The Gazette hopes that the News does not claim Simon as a representative of its race, for if it does it is easily satisfied. There are Jews in Oregon who do not endorse Simonianism, however.

THE people voted for principles and not men this year. The Oregonian need not give its dirty gang credit for the victory. It would have received more votes if the Oregonian and the so-called republican organization had been in purgatory.

THE Pendleton Tribune says that Morrow county went for McKinley in 1896, 80 votes. Our average was 44 votes for McKinley, and this year casting about 200 votes less the republican majority is increased. Don't howl before you are hurt.

Highwaymen on Wheels.  
A wheelman of West 46th street, New York, was attacked, robbed and left senseless by two highwaymen mounted on bicycles in Central Park. Repeated accounts of robberies by men mounted on wheels have appeared in the papers in various parts of the country. Those depredators of the health, diseases of the kidneys and bladder will likewise escape arrest and pursue their atrocious career unchecked, unless they are arrested by the potent intervention of Hostetter's Stomach Bitters, the finest diuretic, as well as tonic, known to modern times. It is at the start that disease is the more easily overcome. The use of the Bitters is followed by the happiest results in dyspepsia, liver complaint and nervousness.

**Beats the Klondike.**  
Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison to this marvelous cure, would have it even if it were a hundred dollars a bottle. Asthma, bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at E. J. Slocum's drug store. Regular size 50 cents and \$1. Guaranteed to cure or price refunded.

**Millions Needed.**  
Mr. Stephen E. Barton, of the American National Red Cross, and chairman of the Central Cuban Relief committee, who, together with his colleagues, Chas. A. Schieren, ex-mayor of Brooklyn, and treasurer of the relief committee, heartily endorsing the plan of the subscription, says that "from the deplorable conditions which now appear to confront the nation, there is every evidence that all the financial aid that is possible may be needed in the Red Cross work." During the Franco-Prussian war no less than 13 millions of dollars were raised for and spent by the Red Cross society in caring for the sick and wounded, and in the Russo-Turkish war, over 17 millions! Many of us remember the magnificent work done by the sanitary commission in our civil war. Millions of dollars in contributions were poured into the treasury of the commission. Now the people should respond as promptly and patriotically as then.

Those who wish to contribute to the Red Cross fund should call on Joe Williams at the postoffice. Every person who subscribes \$1 will get a copy of "The Aeoloid" or kiss of Columbia bestowed upon infant Cuba. It is a beautiful picture and is worth ten times the donation. Every cent is used for the care of sick and wounded soldiers and Cubans.

Everybody Says So.  
Cancerous Candy Cane, the most wonderful medicinal discovery of the age, pleasantly and refreshingly to the taste, acts gently and positively on kidneys, liver and bowels, cleansing the entire system, dispelling cold, cure rheumatism, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day! 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

**MAGNIFICENT OFFER.**  
Every new subscriber of the Gazette, or old one renewing, will get as a premium a copy of "The Great Debate" between Horner and Harvey. This was one of the greatest contests of the kind in this age. The dramatic question is prominent in politics and you want this book. It is bound neatly in paper and retails for 50 cents the world over. Come early before all the premiums are gone. The investment is but 25 cents.
