Perhaps prosperity will be never more welcome to any class of people than it has been to American farmers...

The people of Heppner can insist upon seven mails a week and secure same. But we must not allow a chronic lethargy to control us...

IT LOOKS now that the Spanish war will be closed ere we get a chance to give them a good licking. This will be a disappointment.

POSTMASTER WILLIAMS has more than completed the term of four years to which he was appointed. He deserves all this. Indeed, if it had not been a case of hard politics, he would have held over...

THE Heppner Gazette, the leading organ of the "Mitchell push", is boasting Judge Lowell, of Pendleton, for United States senator. He was used as a cat's paw to aid in the defeat of the late Senator Dulphe.

A man who does disreputable things believes other people capable of the same. The Gazette believes in no hold-up. It will not aid in one. The gentleman referred to does not believe in them.

Judge Lowell will serve is elected. That is enough. He has been here long enough to become identified with our interests.

THE THOMPSON-ELY SHOOTING.

Ely's Chances for Recovery Good—Thompson Will Secure Bail.

"Personally I can see no reason now why Mr. Ely should not recover," said Dr. W. G. Cole. "His temperature and pulse are normal and his tongue clean. Unless he should do something to jeopardize his chances, he will probably recover."

Moses Thompson, who brought before Justice of the Peace Rosenberg, to answer to the charge of assault with a dangerous weapon, waived examination and was bound over to appear before the grand jury at the next session of the circuit court.

Moses Thompson and George Ely are sub-contractors for carrying the mails between Ukiah and Pendleton. John T. Disney represents the original contractors, and he is in the city at present for the purpose of straightening up the tangle into which the matter between Ely and Thompson.

Are gaining favor rapidly. Business men and travelers carry them in vest pockets, ladies carry them in purses, housekeepers keep them in medicine chests, friends recommend them to friends.

LATEST TELEGRAPH.

Brief War News, Telegraphic News Notes, Etc., Etc.

A special dispatch from Shanghai says the Japanese warships Yoshino, Chin Yuen, Itakusima and Saiyu No. have been hastily dispatched to Saishee to reinforce the Japanese squadron there, making it the strongest in those waters.

It has been ordered to co-operate with the British and American admirals in the event of international complications. While the dispatch does not explain the matter, it is inferred the squadron is to be in readiness for Philippine operations.

A Spanish officer of Cervera's fleet, in talking to an American officer, is reported as saying: "We expected to get away with three of our ships. We thought the Oregon had left, and knew that the other battleships could not keep up with us. We calculated to close in on the Brooklyn and sink her, but we made a mistake about the Oregon. If it had not been for her you would never have gotten us at all. I would like to meet your captain."

Western roads are making preparations to handle the biggest grain crop in the history of the West, and if it does not materialize there will be much disappointment. Every ear that can be used for the transportation of wheat, corn, oats and rye, is being overhauled and made ready for use.

Such cars as need no repairs are being distributed along the lines and placed upon the sidetracks at country stations, so that they may be ready.

Captain E. B. E. Chandler, of the tug Sea King, has been held by United States Commissioner Grain, at Philadelphia, in \$1,000 bail, to answer the charge of manslaughter on the high seas. This is the first prosecution under a section of the United States revised statutes making the neglect of a sea captain to rescue persons in peril on the high seas a crime.

A large tug was towing a net in a storm, and it is alleged that no serious effort was made by the Sea King to rescue the men on the lost barge.

Surgeon-Major Kimball, in charge of the Army hospital on Governor's island, said that all the wounded soldiers in his care were getting along well and were being sent home on furlough when able to travel. He added that the nature of the wounds made by Mauser bullets was most gratifying to the surgeons, and that fewer operations were necessary and the percentage of recovery far greater than would have been the case had the wounds been made by the old Springfield or Martini-Henry rifles.

He said that the small, pencil-like bullets seemed to have antiseptic effect, as the wounds healed with great rapidity and caused very little discomfort to the men. He mentioned the case of one of his soldiers who was shot through both lungs. "The man has a slight cough," said the doctor, "but otherwise seems to be all right."

Discussing the Philippine question, the Japanese press generally favors the retention of the islands by the United States. There would be no objection to their transfer to Great Britain. Japan's interests, however, forbid their passing into the hands of Germany or of any other continental power. In any event, the Japanese press regards the scheme of an insignificant republic in the Philippines as entirely impracticable.

It is said that William Savage, one of Dewey's sailors, found a considerable quantity of liquor at Cavite, the day after the sinking of the Spanish fleet, and made such use of it that when found by his superiors he was only able to utter but one word—"Hurrah!" The subsequent court-martial sentenced him to 15 days in chains, but when the finding of the court was passed up to Admiral Dewey he wrote on it: "The proceedings of the court are approved, the sentence is disapproved, and the accused, William Savage, is ordered returned to his post, in consideration of the victory won by the fleet under my command." The court-martial of Lieutenant Telfer and the other Oregonians will not amount to much more.
