Professor H. T. French has tendered his resignation to the board of regents of the state agricultural college as professor of agriculture, to accept a similar position at the university of Idaho, at a salary of \$1,800 a year. In the person of the present collector of customs, Hon. I. L. Patterson, the Oregon district has a collector, in fact as well as in name. Heretofore, for many years, it has been customary for the collector to assume a dignified air and leave the entire management of affairs of the office to his deputies. But not so with Collector Patterson. When he took charge he began active work and will give the duties of the office his careful, personal supervision. He is expected to make a study of the revenue laws as applied to his office and it will not be surprising if he make one of Uncle Sam's most competent, energetic collectors.—Salem Sentinel.

The Condon Globe says: A special meeting of the city council was held on Tuesday evening of last week for the purpose of receiving the report of the water works committee. The committee submitted a letter lately received from H. Orchard, who is at present putting in a water system at Kendrick, Idaho. Mr. Orchard made numerous inquiries in regard to what was wanted here with a view to putting in a private plant, and the council, after a long session, decided to send for Mr. Orchard to come here at once and give them the benefit of his experience in the business, before going any further into the proposition.

The town of Rosell, in Gilliam county, is to have water works. A spring in the hills, 100 feet above the town and three miles away, is to be tapped with a pipe. The water is carried to a reservoir. The route is easy, most of the ditch to lay the pipe can be made with pions. The spring flows 50,000 gallons of water every 24 hours, which is ample to meet Rosell's present needs. The quality of the water is excellent. The town has money enough in its treasury to build the water works. The town has never been allowed to get in debt with the result that it has never sapped its strength paying interest. The works will cost from \$5,000 to \$6,000.

Trilwood fired four more shots, one of which struck the son, inflicting a wound in his breast from which he will die. Mrs. Adams ran out of the house to ascertain the cause of the trouble, and Trilwood fired three shots at her, but missed each time. Adams, though seriously wounded, rushed at Trilwood and threw him to the ground and tied him with a rope. The sheriff was summoned and took charge of the prisoner.

T. Allen McQuarry, a young globe trotter, who is racing around the world for a wife and \$5,000, reached The Dalles on the steamer Dalles City. He started from Springfield, Mo., July 3, 1897, and according to the stipulations of his contract must reach Springfield, November next, after having made a circuit of the globe, traveling only by water and on horseback, accompanied by two dogs. McQuarry is a printer, and his home is in Newsham, Mo. He has thus far fulfilled the terms of his contract and bids fair to win the prize for which he is working. He claims to have witnessed the Manila battle on May 1st, and will lecture on the battle this evening.—Times-Mountain.
