Bulletin issued by National Live Stock Assn.] one sections of the range country and the different markets indicate that the rather confused conditions that existed up to a few weeks ago are rapidly becoming clearer, and it is now possible to speak with some degree of certainty as to the fall movement. The movement of both cattle and sheep has been late this season, due principally to dry weather and unfavorable conditions on the ranges. The copious rains of the early season in nearly all sections were followed by a long period of dry weather. In the far West the drouth injured the feed in some sections, while in others the grass had advanced to a point Change of Cars Between Spokane, where the sun and dry weather only favorable. The crop of corn and cotton Rossland and Nelson. Also between made it better. Scarcity of water for Rossland and Nelson. Also between made it better. Scarcity of water for Nelson and Rossland, daily except the cattle was another drawback, but as seed has been unusually large and Dawson City.
