

GRANT COUNTY NEWS.

From the Long Creek Eagle.
J. B. Keeney, who in the past has had charge of the Hepper-Canyon City stage line, is now operating a line over between Elgin, Union county, and Joseph, Willamette county.

The Eagle was again designated by the present term of county court as the official paper of the county. This distinction the Eagle has enjoyed continuously for the past five years.

A single blast in the Bonanza mine, knocking down 20 tons of ore Monday. Repeated knocking of the ore, which contained practically free gold, showed that the mass contained \$60,000 worth of gold.

M. J. Chambers, who conducted the Elkhorn hotel at Canyon City before the fire, is putting up a lodging house on the site of his former building. He will build a comfortable hotel building in the spring.

J. D. Kirk has been appointed postmaster at Ritter, vice Mary E. Powell, resigned. Mr. Kirk will at once qualify and move the office from its present location to his merchandise store at the McDuffie hot springs.

The drifting snow early this week has worked a serious hardship on all mails necessitating the carriers laying out on the hills for hours on account of losing the road in the mountains. No paper mail of any kind has reached Long Creek since Monday morning.

On Willow creek, 10 miles above Malheur City, Clark Brock recently discovered a two-foot vein of rotten quartz from which he panned out in a mortar \$3,800 in two days. These are the same famous pocket hunters that discovered the Guker's Great Northern near Canyon City.

In the matter of the tax levy for the fiscal year beginning July 1, 1908, and ending July 1, 1909, it is ordered that there be levied on all taxable property both real and personal, in Grant county, on each and every dollar, for county purposes, 20 mills; and on each and every dollar for school purposes, 5 mills.

If the people of Grant county are not opposed to the losing of a large part of the county in the formation of a new county with Mitchell as county seat, and all the Greenhorn mining country in the formation of a county with Sumpter as county seat, they have only to remain silent, and inside of two months the seat of Grant county will be one-half of its present size.

The marriage of G. D. Briery, of Hamilton, and Miss Elsie Barnard, daughter of Mr. and Mrs. B. T. Barnard, of Fox, was solemnized last Tuesday evening at the home of the bride's parents. In the presence of a number of relatives and friends, the ceremony was conducted by the reverend pastor of the Methodist church at Hamilton, while Miss Barnard is one of Grant county's prominent teachers. They will make their future home at Hamilton.

The Ennis, manager of the Blue Mountain Telephone line, passed through Long Creek Sunday morning en route to his home at Hepper from Burns, where he has just completed putting in an exchange. He informed a representative of the Eagle when on his way home, that he expected to return to Long Creek in the near future and put in an exchange. This new departure will be welcomed by the business men of this place, since it will do away with many inconveniences when they desire to use the line.

J. Garst, V. Officer and S. Officer, of Dayville, passed through Long Creek Wednesday en route to the gold fields at Atlin lake, Alaska. They were joined at this place by E. Officer, who came down from Siuslaw. The Atlin lake district is located in the interior about 50 miles from Skagway. Gold was discovered in that locality during last season, and while the whole country in that vicinity has been staked off in claims, there has not been enough work done there to ascertain the value on a small per cent of the located ground. Yet it is reported quite rich and it is to be hoped that the Grant county boys will be able to return in a few years with every pocket lined with yellow dust.

From Grant County News.
Tom Hewlett, of Monument, spent a few days with us last week.

D. M. Bingham, of Monument, was in town on court business this week.

B. F. Miller, proprietor of the Canyon City and Hepper stage line, is in town this week on business.

Thomas McEwen, the veteran stageman, is doing an excellent business on the various lines which he controls, and which have Sumpter for a terminal point.

The Ennis, of the Blue Mountain Telephone Company, of Hepper, came over from Burns on the stage Friday morning. While in Burns he put in a telephone exchange and 20 private phones.

Wheat Conditions.
While wheat is still 54 cents here, the Commercial Review has the following concerning the Portland market:

The upward movement in Europe, which started just prior to the holidays, continued in action until the present week, when the advance was checked, and an easier feeling set in and values fell off. The local situation has not as yet been much affected either way, owing to the firmness of shipowners, who have insisted on a portion at least of the advance in wheat abroad. At the same time, holders of wheat consider themselves entitled to all the benefits from the appreciation in prices, resulting in a deadlock between buyers and sellers. Some unimportant sales were made during the week but holders still hold the extreme ideas as to the future, and are disposed to hold back supplies, in the belief that interest and carrying charges will more than offset by obtainable prices a month or so hence.

Stocks of wheat in warehouses here are large, indicating conclusively that exporters are under no necessity to make new or immediate purchases at the expense of values, and there is absolutely no competition between shippers to bid on the few parcels offered. Exporters are at all times in the market at full prices, but when the would-be seller expects to work the market at 1c to 3c above value, he fails to find a purchaser. Receipts continue small from both sections of the state, and the movement is not likely to show much activity unless prices should advance materially. Reports from the interior indicate recent purchases on milling account were moderately fair, and prospects of a steady movement in this direction. Shipments from Portland the past week amounted to 26,000 bushels, and from Puget sound 37,314 bushels.

How to Prevent Pneumonia.
You are perhaps aware that pneumonia is always results from a cold or from an attack of grippe. During the epidemic of the grippe a few years ago when so many cases resulted in pneumonia, it was observed that the disease was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or the grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and the grippe. Every bottle was sold. For sale by Conner & Warren.

The Army and Navy.
Have covered themselves with glory during the war. The army and navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States and the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send two cents to Chas. S. Bee, general passenger agent, N. P. R., Ft. Paul, Minn., for a copy.

Schilling's Best tea sold only in Packages State News

Mosses is prevalent in Roseburg. Ashland has \$3,471.81 cash on hand.

There were 171 marriages in Jackson county last year. Baker City expects to soon have a free delivery system.

The town of Harney has a number of cases of pneumonia.

Douglas county is soon to have an historical society at Roseburg.

Lakeview wants water works and is willing to bond itself \$25,000 therefor.

Coyotes have killed a large number of sheep in the neighborhood of Monroe.

There has been a new gold field found about six miles southeast of Hillsboro.

J. C. Lyons, a merchant of Lyons, Lin County, was murdered last Friday night.

La Grande will vote on March 13th on a proposition to fund the indebtedness of the city.

Edward Kiddle, of Island City, reports the outlook for stock trade in Eastern Oregon as good.

Two freight trains collided at Celilo Saturday, doing considerable damage, but no one was injured.

A distillery is being built at Logon, Clackamas county. It will make whisky from rye grain in Clackamas county.

Ontario is ambitious to be the seat of Malheur county. The legislature will be asked to pass a bill providing for a vote on the question. Vale is the present county seat.

Land Office Report.
The register and receiver of the local land office have completed their report for the month of December, which was one of the most active months of business in the history of the office. The report shows the receipts from all sources for the month were \$3,603.09. There were 74 homestead entries filed covering 11,270.97 acres. There were 29 final homestead entries, 6 final timber culture entries, 160 cash entries, covering 25,358.85 acres, and 24 contests served. Testimony and other fees collected amounted to \$89.86, and unearned fees collected on cases suspended were \$5,280.11. The total remittance from this office to the department during the month was \$36,074.31—Times Mountain.

How they saved their home.
They started their new happy life of love and hope together in a trim, bright-tinted little house that stood back upon a terraced lawn. A smooth path led to the broad "stoop" and hospitable piazza. The long sweep of roof, the wide curving "bays" and the little western turret with ornate windows bespoke ample room and light and air and gorgeous sunsets.

How they loved that little home! He was industrious, frugal, ambitious; she a tender wife with a heart full of devotion; and both of them determined at any cost of struggle or sacrifice to earn and pay for this cherished dwelling place, and possess it as their very own; a cozy nest in days of sunshine, a refuge in time of trouble, a paradise, a home.

HOW TROUBLE CAME.
At first it seemed smooth sailing. He was glad to work over-time, and she being deft with needle and scissors helped the neighbors with their gowns. In such ways a few dollars were added to the small, home-making fund. Day after day, alone and late, they earnestly planned and toiled, never realizing that they were going beyond their strength, until the little breakfast began to come.

Many a morning he would rise with his head feeling as he expressed it, "like a lump of lead," and no stomach for the dainty breakfast she had prepared. "O, you must eat!" she would exclaim anxiously. "You can never work without it." And all the time trying to smile, she would pass her hands lightly across her forehead as if to brush away the pain that snapped and darted underneath.

Then came days when he could neither work nor eat, and when his sight was blurred and dizzy, his limbs weighted down as if with shackles, his whole body and mind aching and aching, and his head of living, and his mind dark with dismal forebodings. Describing this terrible time afterward he said to a friend:

"What trouble me was that I could not understand what was the matter with me. The doctors said it was consumption. They did me no good. I knew something was killing me by inches. Finally I had to give up and go to bed. I could hardly lift my head off the pillow. My mother wanted to write to Dr. Pierce of Buffalo, and brought me three bottles of his 'Golden Medical Discovery' and begged me to take it. I didn't have much faith in it, but I tried it."

"What's the use?" the doctors don't help me a bit and nothing else will. At this rate I'll die anyway. This 'Discovery' can't hurt me, it may help me. I'll try three bottles just to please Jim. He was right too. The first bottle went straight to my digestion and gave me an appetite so I relished my food. I felt as if every mouthful was doing me good and making good blood in my veins. I began to feel better and pick up my flesh, my bowels came around right and I guess my liver sort of waked up. My cough stopped. I got good and strong in four weeks I was back at work again like a man."

HOW TROUBLE WENT AWAY.
"My wife never let on how miserable she was feeling all the while; when I found out she had taken the 'Discovery' too and Dr. Pierce's Favorite Prescription for her nerves, and she says she's just made over new again. I sent for his great Medical Advertiser. It's the grandest book you ever saw. If we'd had it before, we would have saved hundreds of dollars."

Then came new hopes, new plans, new power and fresh achievements. The little home in time became their very own, earned and paid for by the erstwhile nerveless hands and brain now restored to vigor and activity by the most remarkable life-renewing "Discovery" that medical science has ever revealed to man. And when at length a sweet, fresh little child came to bless their hearts, they felt that happiness was complete.

This is a true story and it cannot be told too often or too strongly. What it has done for thousands of men and women in every corner of this Union, and in every civilized country on the globe.

The "Golden Medical Discovery" is sold by all good dealers in medicines every where.

CHEATING FARMERS.

A Device Attached to scales to Detect Weight.
He is a mean man who cheats a farmer, but there are degrees of meanness even among such men. The meanest man of all has just been discovered. Realizing that the lightning rod takes and the lightning strikes, he has found plenty of dealers mean enough to buy the device, sooting their consciences by assuring them that the farmers have been getting the best of it right along and that dealers should now try to get even in this underhanded, contemptible manner.

George L. Carman, superintendent of the Western Railway Weighing Association and Inspection Bureau, Chicago, has addressed circular letters to general freight agents of lines in the West informing them of the new fraud and describing the device in detail. He will send copies to chairman of the boards of railway commissioners in Illinois, Iowa, Wisconsin, Minnesota, Kansas and Nebraska, where hundreds of these scale attachments have been sold. This he does not only to put people on their guard, but also to enable the boards to "bring such actions as they may deem advisable."

A diagram in the circular shows the wiring attached to it is made of hardened steel. It and introduced has a raised portion or "slip" on one side, which has a tendency when introduced to lengthen the beam so as to cause it to weigh less than it should. Another diagram shows the handle made to fit over the top of the scale beam and used to tip the scale beam so that one hand pressed on the rod connected with the lever on the scale raises a loop connected with the beam so as to allow a space to insert the shirker in the diamond-shaped knife or bearing on each scale holding the rod.

"Information reached me some days ago," said Mr. Carman, "that this appliance was in the hands of several buyers of grain and live stock. I visited one of the stations, procured the shirker and others are being sold for from 25 to 50 cents by a party who represents himself as a solicitor for a prominent live stock firm in Chicago, the solicitation of business being a blind to cover his transactions while introducing and selling these devices."

The enterprising agent lures the subject something after this style: "Do you want to know how to get even with the farmers who fill their stock with swill before bringing them to market to sell? I have a device that will shrink hogs from 10 to 15 pounds each. Some of these devices are bought and others are taken for use with the understanding that the dealers will ship to this firm some of their stock, of which the agent receives a commission."

Careful tests with the device have produced the following results: First, scale balance properly at 1000 pounds, which was being sold for 800 pounds; second, four hogs weighing 130 pounds and with shrinker 1270, an average of 10 pounds per hog; third, 12 hogs, weighing 1450 pounds, and with shrinker 400, an average shrinkage of 11 1/2 pounds per hog.

The trade officials will insist that traveling agents to watch sharply for the device and warn the farmers every chance they get to do so.—St. Paul Pioneer Press.

To the Public.
We are authorized to guarantee every bottle of Chamberlain's Cough Remedy to be as represented and if not satisfactory after two-thirds of the contents have been used, will refund the money to the purchaser. There is no better medicine made for the grippe, colds and whooping cough. Price, 25 and 50 cents per bottle. Try it. For sale by Conner & Warren.

SEVERAL TIMES A THIEF.
Story of Frank Ross, Recently Arrested in Hepper for Horse Stealing.

Frank Ross, the man recently arrested in Hepper, proves to have been a thief of considerable magnitude and resource. He was a cattle thief and horse raider when he commenced business. He became an all around thief within a few months. He first stole 15 head of cattle and sold them. He went to Lewiston, Idaho, with \$100 in his pockets, part of the receipts of the sale of the cattle. There he hired a team and buckboard and drove to Dayton, Washington. There he sold the harness and buckboard. He took the team on to Dry creek, where he traded the two horses with Sam Lonney for one. He rode this horse to Walla Walla, but being unable to cross the Columbia on the ice he came to Pendleton and here he traded horses and went to Hepper on this Pendleton horse. All the time officers from Lewiston, Idaho, were on his trail and overtook him at Hepper.

There Ross paraded the streets on his horse, with a goodly load of stimulants on board. While drunk he got into trouble with a fast woman, and drew a large crowd. Then he treated everybody, and acted in such a magnificent fashion with \$75 which he had with him that the police became suspicious. A description of the man was sent by the Lewiston officers, who arrived at this juncture, and it was looked for.

He had it out, however, and was captured at Butte creek, this side of Hepper, by local officers. The Lewiston officers were notified and went after him, and took him back to Lewiston where he is in jail, from where he will go to the penitentiary for five years.—East Oregonian.

No Right to Ugliness.
The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion and overall directs this business to the benefit of the sufferer. Only 50 cents at Slocum Drug Co.

Through Tourist Cars to Kansas City.
A tourist sleeping car will leave Portland every Friday at 8 p. m. via O. R. & N., Oregon Short Line and Union Pacific railroads, through Chayenne and Denver without change. No change of cars to the cities, Denver or Kansas City. East bound schedule is as follows:

Portland, leave 8:00 p. m. Friday.
Granger, arrive 1:00 p. m. Saturday.
Granger, leave 1:35 p. m. Sunday.
Denver, arrive 7:35 a. m. Monday.
Denver, leave 7:55 p. m. Sunday.
Kansas City, arrive 7:35 a. m. Monday.
Keep this service in mind when going East and consult O. R. & N. agents or address W. H. HUNTER, Gen. Pass. Agent, Portland, Or.

Death's Betrothal.

A few years ago a New York newspaper conducted an open discussion upon the topic: "Is Marriage a Failure?" The answer is easy and upon the surface. Where there is mutual love and respect, if there is also health, marriage is a success. When health is left out, even the most ardent love does not count, and marriage is invariably a failure.

Modern science has cried the warning after that it would realize the dangers of wedlock to people in ill-health. In a case of this kind death lurks on every side—in the kiss of betrothal and the caress of the honeymoon. The man who is suffering from ill-health is a physical bankrupt, and has no right to condemn a woman to be his nurse for life and the mother of babes that inherit his physical weakness. Dr. Pierce's Golden Medical Discovery acts directly on the digestive organism. It makes it strong and its action perfect. When a man's digestion is all right his blood will be pure, when his blood is pure his nervous system will be strong and his health vigorous. A woman who suffers from weakness and disease of the delicate organism of her sex is certain to suffer from general ill-health, and to see her children born weak and disappointed as a wife. Her children will be weak, puny and peevish. A happy life is an impossibility for her until her health is restored by Dr. Pierce's Golden Medical Discovery. It cures them speedily, completely and permanently. It is good for wifehood and wifehood. Both medicines are sold by all good dealers.

KLONDIKE REACTION.
All of Grant County at Present Has the Mining Fever.

A reaction from Klondike has set in. All the country has the mining fever. The Yukon excitement started it, but is unequal to the task of either curing it or feeding it.

Prospecting in this country is a picnic excursion compared with a trip to the ice-bound regions of the north. Mining here is more profitable in the long run than it is in Alaska. Old abandoned mines, the tailings and placer beds, will be worked again under new conditions. Dredges will be put on to work thousands of acres of ground not adapted to hydraulics. These modern contrivances will cause ground to pay that would otherwise remain idle and practically worthless.

About Catarrh.
It is caused by a cold or succession of colds, combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Hood's Sarsaparilla, which purifies and enriches the blood, soothes and rebuilds the tissues and relieves all the disagreeable sensations.

NOTICE OF SHERIFF'S SALE.
BY VIRTUE OF AN EXECUTION AND order of sale duly issued by the Clerk of the County Court of the State of Oregon for the county of Grant, do hereby sell at public auction, to wit: the 4th day of February, 1909, and to me directed, in a certain suit in said court, court therefor pending, wherein Benjamin Parker and Peter Gleason as partners were plaintiffs, and Nancy A. Junkins and Peter Brenner were defendants, and wherein judgment was rendered by said court in favor of said plaintiffs for the sum of \$200.00, and the further sum of one hundred and fifty dollars, and costs and disbursements, on the 30th day of December, 1908. Notice is hereby given that I will on

Saturday, the 4th day of February, 1909, at the hour of 2 o'clock p. m. of said day, at the court house in the town of Hepper, Morrow county, Oregon, sell at public auction to the highest bidder for cash in hand, all the following described real property situated in Morrow county, Oregon, to-wit: The north-west quarter of section twenty-two, and the west end of section twenty-one, in township three, south of range twenty-four east of M. Meridian, containing about 200 acres, more or less, as may be necessary to satisfy said judgment in favor of said plaintiffs, and said costs and disbursements, together with all costs and disbursements that have or may accrue.

Dated at Hepper, Morrow County, Oregon, January 30th, 1909.
E. L. MATLOCK, Sheriff.

NOTICE OF INTENTION.
I AND OFFICE AT THE DALLES, OREGON, Dec. 12, 1908.
Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before J. W. Morrow, United States commissioner at Hepper, Oregon, on February 24, 1909, viz:

EDWARD C. JOHNSON, of Hepper, Or.; Homestead entry No. 7994, for the N 1/2 sec 34, sec 34, sec 35 and 36 and 1/4 sec 34, 35, 36, 37 E. W. BARTLETT, Register.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Andrew Tillard, William C. Brown, V. L. Tillard and Hugh Fields, all of Hepper, Oregon.
