RICHEST IN THE WORLD. Gold Strike at Isabelle Ground, Colo., Ex-

ceeds Wildest Expectations DESVER, Jan. 30,-A special to the News from

Cripple Creek, Colo., mys of the recent strike in Isabello Ground: Your correspondent saw chunks of sylvanite that were three inches thick, and solid metal, and chunks of oxidized ore of same width that he whittled with a pocket knife. No assays have been made on the rock; it is not necessary, but pieces of free-gold ore, if ore it can be called at all, run over \$500.-000 per ton. The Mollie Gibson never produced any ore that carried more outces in silver per ton than this Isabelle does in gold. With every hour's work the streak is lengthening and widening. Joining this metallic body there are six feet of quarts that will run from \$1,000 to \$2,000

per ton. Manager Kilburn said: "I don't like to say anything that will eachte people any more than they are at present. The meta ile ore body has ubled in size both ways since yesterday torning. Some of the pieces of ore are 30 per cent gold. I never saw such mineral, and I do

be picked out that would run anywhere from \$50,000 to \$200,000. The strike was made in a and digestive organism ; purifies the blood and imparts a natural stimulus to the ex-

of their Eastern friends and acquaintances, and a copy of the work will be

sent them free. This a matter all should be interested in, and we would ask that everyone take an interest and forward between Portland and Chicago have just such address to W. H. bright, happy cheerfulness of disposition which only complete health can insure. A woman with a bright eye, clear com-plexion, mantling color in the cheeks and

buoyant elastic step and manner has a natural attractiveness that no artificial agency can counterfeit. A woman who is afflicted with the morti-fying misfortune of a dull, sallow, pimply alexion or that listless movement and ttitude which provokes only disgust and not believe its like was ever mined in this or any other camp in the world. We have had no assays taken on the rock, but a ton of it could of Dr. Pierce's Golden Medical Discovery,

450,000 to 4200,000. The strike was made in a new ore body at the depth of 800 feet. The chute has been and also at the difth. At the latter place above, and also at the fifth. At the latter place that 30,000 per ton. There is at least blocked out in one level, between the ninth and seventh levels, 45,009,000 worth of ore.

And nineteen rangers' districts. The central division, looked after by Rafe B. Dixon, of Roseburg, is cut into sixteen rangers' districts. The southern division is composed of ten districts and is in charge of Nat Langell, of Jacksonville This division was made by Captain Ormsby for the purpose of securing the very best results from the forest patrol next season, and the department will be asked to permit the employ ment of that number of men for the purpose watching over the forests of the reserve. Last year the total number of employed was only

thirty-one. In addition to the three supervisors and forty-five forest rangers, Captain Ormsby asked for the appointment of forty-five trail cutters to be used in opening trails through the forest, between the main traveled roads crossing the reserve from east to west, for the purpose of establishing communication between the various rangers in the division, or between the divisions.
