BABY'S SMOOTH, FAIR SKIN

A Grateful Mother Writes this Letter—

Tells all about Her Troubles when Baby Broke out with Scrofula Sores.

"At the age of two months, my baby began to have sores break out on his right cheek. We used all the external applications that we could think of or hear of to no avail. The sores spread all over one side of his face. We consulted a physician and tried his medicine, and in a week the sores were gone. But to my surprise in two weeks more another scrofulous looking sore appeared on baby's arm. It grew worse and worse, and when he was three months old, I began giving him Hood's Sarsaparilla. I also took Hood's Sarsaparilla, and before the first bottle was finished, the sores were well and have never returned. He is now four years old, but he has never had any sign of those scrofulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy owes his good health and smooth, fair skin to this great medicine." Mrs. S. S. WOTREN, Farmington, Delaware. Get only Hood's

DIED—At the county poor farm last night, Samuel Vaughan, an aged charge, almost 80 years old—leebled and "only in the way." Distressingly sad is this end of a career of a man who has been a bright, intelligent business man in his time, leaving a family of five children, all commending the confidence of their respective communities. Physical debility together with childishness of old age at times made the old man a difficult charge, but it does seem that a private home for the aged would have been more in accordance with filial devotion. Fathers and mothers in this land of ours are deserving of a better fate. One son responded to comfort his last hours and assume the expense of his burial.

DIED.

Mrs. Harriet Bidwell, mother of Mrs. J. W. Jenkins, passed away at the home of her daughter yesterday morning from the effects of a severe cold contracted a few days since and developed into la grippe. The funeral services took place from the Christian church this afternoon, Rev. Shelley officiating.

DEATH OF MRS. M. C. FUQUA.

Expires Suddenly at Her Lexington Home of Brain Apoplexy.

Wednesday morning the whole community was shocked by the report of the sudden death of Mrs. Fuqua. After supper she was in her apparent good health when she was called to open the door to admit one of her daughters, and upon doing so was seized with an instant severe pain in the head, and retiring to the sofa close by, expired in a very few minutes. In the meantime Dr. Swinburne had been sent for, but on his arrival there she was beyond recall. He at once pronounced the cause one of apoplexy of the brain.

She was known and dearly beloved by nearly all the residents of the county, having been engaged as a teacher in both the Heppner and Lexington public schools, having ended the winter term in the latter place just recently, and had been reengaged to teach the coming year.

Her husband was at Eight Mile at the time of her death, making comfortable their summer home on the ranch, to which they intended moving very soon. Her three daughters, Eva, aged 11 years, Viola, 15, and Della, 23, were with their mother at the time of her death, who have the sympathy of everyone in this their saddest bereavement.

Her age was but 45 years, and could she have been spared to the community longer, not only as a devoted mother, but a loving teacher, her usefulness could not be overestimated, in the development of character and shaping the lives of those who are to become our useful citizens.

Within the past few months she became a member of the Artisans, and carried an insurance policy of \$1000.

DISTINGUISHED VISITOR.

State Superintendent of Public Instruction Visits Heppner's Schools.

State Superintendent of Public Instruction J. H. Ackerman arrived in Heppner last night and spent today carefully reviewing the various departments of our school. Professor Ackerman has been making a circuit of Eastern Oregon's principal schools on his return from the educational meeting held at Walla Walla among the schools already visited are: La Grande, Baker City, Pendleton, Union, Weston and The Dalles. Returning to The Dalles from here he will visit Dufur, then back to Salem. The efficiency of the broad minded professor in his position as state superintendent is making itself manifest throughout his entire jurisdiction, and where modern and practical ideas are needed, they will surely be introduced. Our state is to be congratulated on having in this position an exceptionally talented man, capable of accomplishing results progressive in the extreme.

Regarding Sheep Sales.

J. J. Carson, the well known live stock operator from Wynning, in a interview with prominent sheepmen, said to these men, regarding prices of sheep: "At the present time sheepmen want within 50 cents of the price paid last year, which was \$2.25 for yearling wethers. This price cannot be paid under present conditions, and, consequently, no sales are being made. Some few hands have been sold in Idaho, yearlings mixed, after shearing, at \$2 per head, and buyers are reticent to pay that price there."

Mr. Carson thinks \$1.75 all that any trader can afford to pay for Oregon yearlings, mixed, at this time, and he says he is satisfied that at the prices now offered few if any sales will be made. Buyers are not anxious to take chances at prices within 50 or 75 cents of last year, owing to the recent heavy drop in the wool market.

Returned to the Asylum.

Walter S. Brundage, well-known to the residents of our town and vicinity, was returned to the insane asylum at Salem, which he was released last December, by the morning's train, in charge of Sheriff Matlock and County Coroner E. R. Hunkler. The many friends of this comparatively young man of powerful physique and pleasant manner can scarcely believe that he is an irresponsible being, and must be confined during his remaining years. His mania seems to be a hereditary one, and that his father is incapable of the responsibility of the farm, and has been prompted to administer the discipline in vogue, as he claims at the asylum, of the "shaking-up" process, which is liable to result seriously if allowed to continue. At his examination before the county judge yesterday it was decided the safest plan to return him to the asylum, although the young man deemed it altogether unnecessary.

IMPROVED ORDER OF RED MEN.

Saturday Night's Meeting Favored With Senator J. H. Mitchell's Presence.

Grand Sachem John H. Mitchell, senator from Wasco, paid this tribe a visit at its last council and made the occasion a most interesting one. Following is an extract from his address to the lodge:

"The Improved Order of Red Men dates its institution from the Sons of Liberty in 1765 and the later S. T. Tammany societies. Tammany Hall was first organized in New York City, under control of its Sachem and Sagamores. As its institution would indicate, the order is intensely American, and from the Revolutionary struggle to the Spanish war Red Men have been in the front rank of the army establishing the principles of freedom, friendship and charity, and maintaining the honor and integrity of the flag. During the late Spanish war there were 20,000 Redmen who volunteered, and they have sealed their patriotism with their blood on the fields of La Quasina, El Caney, Santiago, and around Manila. The order numbers about 200,000 members and is in a very prosperous condition."

The Fire Lads Meet.

At the meeting last evening of the Heppner firemen officers were elected as follows:

"The Tigers" or No. 1—President of company, Elmer Slocum; foreman, Joe Cline; assistant foreman, Dock Matlock; treasurer, Pearl Jones; secretary, John Horner.

"Eagles" or No. 2—President, E. L. Freeman; foreman, Frank Natter; assistant foreman, E. M. Shatt; treasurer, James Hart; secretary, Jesse Stewart.

By ordinance the city has granted the fireman a charter, under which the companies will be managed by delegates from each, who are E. W. Rhee, Lee Cantwell and P. Davis for No. 1, and Bert Phelps, Will Smith and M. B. Galloway for No. 2.

The election of chief will be in ten days of the time of posting notice by the board of delegates. 12-t

Stopping at The Dalles to visit his daughter and niece who are attending the secondary there, he met many old-time friends, and returns home exceedingly pleased with his trip.

THE MARKET SOCIAL.

A Most Enjoyable Social and Financial Success.

M. E. Church, South, Remodeled.

The work of remodeling the M. E. church, South, edifice is progressing at a very satisfactory rate, there being five men working on it at the present time. The auditorium has been partitioned off and now will contain a classroom of about 20 feet square, with doors connecting the two, and can thus be thrown into one in case of necessity. The main auditorium is 50 feet long and the full width of the building. The pulpit is to be located in the centre on the north side, with the choir to the right of it, thus bringing the audience closer to the preacher and leaving no seats remote for mischievously inclined attendants. It is hoped to have all needed repairs finished this week so that services next Sunday may be held there.

A Russian Joke.

One reads in a Russian periodical which has a corner devoted to the "comic," this pleasant: "What, Yanyusha, drunk again? I thought you only got drunk on the great holidays?" "To-day is a great holiday; my mother-in-law has gone away."

FROM JOHN DAY.

Dismal Results to Stock Somewhat Overestimated.

Chas. P. Johnson of John Day, the wide-awake sheepman, and former manager of the Canyon City Telephone Company, arrived in Heppner the first of the week to make a transfer of the company's interests to the Blue Mountain Telephone Company, which now owns the entire system of Telephone lines in this interior part of the county.

Discussing the severity of the winter in his section, Mr. Johnson estimates a loss of from 5 to 10 per cent of the sheep and cattle, and while hay in that section is exhausted with most stockmen, before he left the weather has so far moderated and sufficient grass was in sight to probably ward off further disaster.

Being unfortunately short of feed Mr. Copper, of Monument and also Mr. Bierly and Emil Scharf are reported as having lost more sheep than most others.

Range horses, he reports, well thinned out, as no effort was made to save them, and the majority of owners considering them valueless in consideration of the grass they consume.

He reports the dredging experiment of the John Day river a failure, owing to incapacity of the dredging machinery. The company still have faith in the values being in the river bottom, and have already arranged to have a much more extensive plant brought in, and depend on having it in working order by the first of next September.

HIS OWN GRAVEDIGGER.

Appearances Went to Show That the Man at Walla Walla Buried Himself.

From the appearance of things, people of Walla Walla thought the man whose body was found there Saturday had been injured on the railway, and then had tried to bury his broken leg in the sand, and died in that situation, says the E. O.

The remains were found about half a mile from the O. R. & N. depot and the man had to all appearances been dead for some time as all the flesh, to a great extent, was gone and only a skeleton remained. One leg had been broken and to all appearances the man, after an accident, had crawled to the spot where found, to die. The lower portion of the body was covered partially with sand as if drawn over him to obtain warmth and all indications point to an injury, and sick and faint the poor fellow dug his own grave and pulled a slight covering over him for warmth. The weather being cold, the injured man soon perished—a death away from all human aid and one that is pitiful to contemplate. He was a laboring man to all appearances.
