FROM FOOT TO KNEE

Ohio Woman Suffered Great Agony From a Terrible Sore—Her Story of the Case, and Her Cure.

"For many years I was afflicted with a milk leg, and a few years ago it broke out in a sore and spread from my foot to my knee. I suffered great agony. It would burn and itch all the time and discharge a great deal. My health was good with the exception of this sore. I tried a great many kinds of salve, but some would irritate the sore so that I could hardly stand the pain. I could not go near the fire without suffering intensely. Some one sent me papers containing testimonials of cures by Hood's Sarsaparilla, and I told my husband I would like to try this medicine. He got me a bottle and I found it helped me. I kept on taking it until my limb was completely healed. I cannot praise Hood's Sarsaparilla enough for the great benefit it has been to me. It cleanses the blood of all impurities and leaves it rich and pure." MRS. ANNA E. EAKEN, Whitesley, Ohio.

You can buy Hood's Sarsaparilla at all druggists. Be sure to get only Hood's.

Hood's Pills are the favorite family cathartic. Price 25c.

The young boys of the city gave a most delightful dancing party at the opera house on Friday night, at which they entertained the Holly club, who turned out en masse, most delightful music being furnished by Mrs. H. W. Bartholomew and Miss Julia Hart. Judging from the reports and the crowd who attended, all had an enjoyable time.

The latest success of House-Haines Mfg. Co., of Stockton, Cal., in combined harvesting machinery is their two wheel side hill machine especially built for the Oregon and Washington trade. Works with equal advantage on level, rolling and steep hill side land, and adapted for use on all kinds of soil. Having high wheels and wide tires there is no lost power.

Jan. Hart, one of our emigrants, has commenced the work of remodeling his storeroom by adding to the front of the building about eight feet, which will bring him out to the edge of the sidewalk, and, with a glass front, will make his store as nice looking as any in the city. He will partition off a part of his room on the north side for the new jeweler, Arthur Clarke.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. Stroud, Ponomaque City, Md. For sale by Conser & Warren.

A humanitarian has handed an exchange the following: Dr. Hiss, a celebrated English physician says: "The worst case of smallpox can be cured in three days simply by the use of cream of tartar dissolved in hot water and drunk at intervals when cold. It has cured thousands, never leaving a mark, never causing blindness and avoiding tedious 'ingering.'" The drink is entirely harmless. It is merely a concrete salt. His receipt should be published in every paper in the United States.—Ex.

The O. R. & N. Co.'s new book on the Resources of Oregon, Washington and Idaho is being distributed. Our readers are requested to forward the addresses of their Eastern friends and acquaintances, and a copy of the work will be sent them free. This matter all should be interested in, and we would ask that everyone take an interest and forward such address to W. H. Harburt, General Passenger Agent, O. R. & N. Co., Portland. 51-11

It is reported that the new pipe organ for the Church of the Redeemer, at Pendleton, the splendid gift of Mr. E. Y. Judd, president of the Wool Scouring and Woolen Mills of that place, has just arrived and will be set up for use in the course of a few weeks. The organ is to be blown by power furnished by a water motor. This last addition to the equipment of this prosperous church will make one of the most complete and attractive church buildings in Oregon outside of Portland. The members of that parish are to be congratulated on their good fortune.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by Conser & Warren.

Rev. W. R. Hanson, of Myrtle Creek, Oregon, who for the past week has been conducting the revival meetings at the M. E. church South, left on this morning's train to resume his work at home. The efforts of Mr. Hanson as an evangelist have been highly crowned with success and the church has gained a number of converts since his arrival. Yesterday Mr. Hanson was presented with a very nice gold watch and chain as a token of regard and esteem from the Christian people of Heppner. The watch and chain were presented to him by the pastor, Rev. F. S. Clair, who is heart and soul in the work.

Rev. W. E. Potwine, of the Church of the Redeemer, Pendleton, held Episcopal services in the Baptist church on Sunday last. Rev. Potwine says he has about 30 communicants here and a building fund of about \$1,200 on hand for the new building soon to be erected.

T. J. Matlock is doing some quite extensive improvements on his residence property on Chase street. He has moved his residence to the south side of the lot, raised the building a foot higher than it was formerly and is making it have the appearance of a new one throughout. It is understood he will erect a new building on the corner in the near future.

Mr. Turner and wife, from Big Wall creek, friends of E. C. and P. J. Bowerman, were among the arrivals at the Hotel Heppner last week. Mrs. Turner was in to see Dr. McSwains about a catarrh on her eye. They report from 16 to 20 inches of snow between Wall creek and Parker's mill. They started home on Sunday with a four horse load of seed grain and other supplies.

M. J. Devin was in town Saturday, the first time since being taken down with the measles, complicated with la grippe. He has been very unfortunate this spring with his family, as all the members who were at home have had a siege of about the same complications as himself, all six being down at the same time. Mr. and Mrs. Devin wish to extend their heartfelt thanks to their neighbors for the many acts of kindness shown them during their illness.

Tom Hunter, of Baker City, was in Heppner a few days ago and gave the Gazette man some very interesting facts concerning new developments in the Virtue district mines. Mr. Hunter states that during the past winter a claim was located twelve miles northeast of Virtue, by Jim Baileys, and that since then there have been two shipments of ore, which have given Mr. Baileys very handsome returns. The first shipment was of surface rock and after paying all expenses, netted him \$11.50 per ton, while the second lot, from a depth of 65 feet, more than doubled in value. Mr. Hunter is very jubilant over this year's prospects for Baker and adjoining counties, and predicts some great things for the mines of Eastern Oregon.

Spring, the harbinger of peace and plenty, is once again with us, and the knowledge of this fact makes all nature smile broadly. Winter has been compelled to relinquish its hold, and the bright, warm sunshine and plentiful moisture is bringing forth an abundant crop of young, tender blossoms to gladden the hearts of the anxious stockmen and have a corresponding effect on the stomachs of the nearly starved stock throughout this section. Nor are they the only ones immediately benefited, for the farmers throughout the country are taking advantage of the welcome change, and hundreds of acres of land are being put in such a shape as to produce an abundant crop that will, this coming fall, fill the granaries of Morrow and adjoining counties to overflowing.

Mr. E. H. Clarke entertains. On Wednesday evening Mr. E. H. Clarke entertained a party of friends at the home of Mr. and Mrs. C. E. Redfield. Three hand organ, instrumental music and songs occupied the evening, and at 11 o'clock refreshments were served. The guests departed at 12:30, delighted with the evening's entertainment and fond in their praises of the hospitality of their host. Those present were: Mr. E. H. Clarke, Mr. and Mrs. C. E. Redfield, Mr. and Mrs. Geo. Conser, Mr. and Mrs. J. W. Morrow, Mr. and Mrs. E. R. Bishop, Mr. and Mrs. H. W. Rhea, Mr. and Mrs. A. M. Gunn, Mr. and Mrs. E. L. Freland, Mr. and Mrs. R. F. Hynd, Messdames H. Blackman, W. E. Brook, F. K. Bartholomew, P. B. McSwains, Misses Bertha Cate, Julia Hart, Lena Rhea, Emma Welch, Messrs. M. F. Metzler, Arthur Clarke, G. W. Phelps, Frank Borg, Jesse Stewart and Fred Hart.

To Elect a Chief and Assistant. At a meeting of the delegates of the Heppner fire department on Sunday the main business transacted was setting a day for the election of a new chief, and appointing E. M. Shatt and Dock Matlock as clerks and Bert Phelps and E. L. Freland as judges. The polls will be open from 5 to 7 o'clock p. m. on Monday, April 17th, at the council chambers, and the members of the department will decide on whom they wish for a chief by ballot. An assistant chief will also be elected at the same time.

Good Sale of Saddles. J. C. Carson, the well-known sheep buyer who has been stopping in Heppner for a number of weeks, left on yesterday morning's train for the Willows to purchase a head of sheep at that point. Before leaving Mr. Carson called at the saddle store of Horner & Thompson and left an order for over \$300 worth of saddles, harness, etc., to be used on the trail between here and Wyoming. This order will probably be doubled by Mr. Carson on his return from the Willows, which will be in a few days.

Mr. Horner and his employees are very busy, working early and late, manufacturing the goods that will be necessary for the sheep trailers, and although the store seems to be well stocked with saddles, the managers assured us that he would have to make at least forty saddles more to meet the present demand.

REWARD. A reward of \$500 will be paid by the Oregon Railway and Navigation Company for information that will secure the arrest and conviction of the persons who assembled at N. N. Cook, head brakeman on train No. 2, at Hay Station, Washington Co., Washington on March 29, 1899. J. P. O'Brien, Superintendent.

To Build a New Church.

Active steps are now being taken to build an Episcopal church in Heppner. A building committee consisting of Mr. Wm. Hughes, chairman, O. E. Farnsworth and Hon. J. W. Morrow has been appointed and bids for the work of constructing the stone foundation as well as for doing the carpenter work will soon be called for. The cost of the building is estimated at \$1500. It will be Gothic in style, the main building being 50x24 feet with a chancel and vestry room. The structure will be erected on Chase street diagonally across from the residence of J. W. Morrow.

The lumber and mill work has been ordered from Portland, and are expected here within a week. The ceremony of laying the corner stone will be performed by Bishop Morris as soon as the workmen are prepared for it. The date of this service will be announced later.

Roosters vs. Newspaper.

For the past few days Wm. A. DeWitt has been in the city in the interests of the East Oregonian of Pendleton. Among those that Mr. DeWitt desired to secure as a subscriber for his paper, was Eli Keeney, but for some strange reason Eli would not "get there." Thinking to bluff the E. O. man off, Mr. Keeney, who by the way is interested in the breeding of game cocks, offered to give two of his best roosters for a year's subscription to the paper. Unexpectedly to him his offer was accepted and the live stock are to be sent to the E. O. office in Pendleton. They will "get there" at Eli's expense.

SANTA CRUZ FELL.

Philippine Driven From the City With Great Loss.

MANILA, April 10, 6:30 a. m.—General Lawton has captured Santa Cruz, at the extreme end of the lake, and driven the rebels, who were commanded by a Chinaman named Po Wash, into the mountains. The American loss was six wounded. The rebels lost 65 killed and 40 wounded.

7 p. m.—Santa Cruz was the Filipino stronghold in Lake Laguna de Bay, and it fell into the hands of General Lawton's expedition after some sharp, quick fighting, forming one of the most interesting and important battles of the war. The plans of the American commanders worked perfectly, with the exception that the progress of the expedition was delayed by the difficult navigation of the river.

About 500 picked men, commanded by General Lawton, on account of the illness of General King, partly surrounded the city while the gunboats Laguna de Bay, Ooste and Napinda, under command of Captain Grant, of the Utah battery, shelled the city and outlying trenches.

One Filipino, in trying to make his escape, slipped viciously at Major Weisenberger, who shot and killed him.

Yesterday the insurgents captured two men of the Fourteenth Infantry while unarmcd, but the Americans stole the guns of their captors, clubbed them, hid in the woods over night and returned this morning.

ARLINGTON MERCHANT INJURED.

Wheat Tumbled on an Arlington Bay, Under Which He Laid for Hours.

A correspondent to the E. O. from Arlington, Ore., on April 10th says: The stage driver on the run between here and Cundon, brought word to Arlington, that the stage going to Cundon Sunday broke down near Mr. Dennyman's and that E. Weir, of the mercantile firm of Weir & Shure, of Arlington, was thrown out and seriously hurt. The driver states that they got Mr. Weir to the home of Mr. Dennyman and when he left there about noon on Sunday Mr. Weir was still unconscious. Medical aid was immediately dispatched from here.

The little son of Mr. and Mrs. A. W. Sheppard, of this place, was at the depot with some other little boys, playing on a wheat platform, when a number of sacks of wheat tumbled over on him, pinning him to the floor, where he lay for one or two hours, so one knowing just how long, for the other little boys went home and ate their dinner, and returned to play, before they informed another boy what had happened. The boy was found in an unconscious state when the sacks were removed, but he soon recovered under treatment and is now getting on nicely.

The New Regents.

Weston Leader.

Senator G. W. Proebstel, of Weston, Senator J. W. Morrow, of Heppner, and J. W. Scriber, cashier of the Farmers and Traders National bank, La Grande, have been appointed regents of the Eastern Oregon State Normal school at Weston, Mr. Scriber being reappointed to succeed himself. The regents whose terms expire are W. M. Pierce, R. M. Powers and J. W. Scriber. The duties of the new board date from Monday, April 31. The next regular meeting of the board occurs on the last Wednesday in May, when the school president and members of the faculty will be elected.

The wisdom of the governor in appointing these gentlemen seems to be generally recognized and approved in this locality. It is believed that they will have the school's best interests at heart in performing their responsible but somewhat thankless duties.

Make Fish Schemes.

A letter will be forwarded to the fish commissioner, as soon as the governor makes a new appointment, asking him to open up Willow creek so that the residents above Lexington can have the benefit of a salmon occasionally. Five or six people at Lexington are depriving that many hundred from either catching salmon or trout, as the latter are fast disappearing from the waters of upper Willow creek, owing to the fact that salmon are shut out by dams at and below Lexington. It is to be hoped that the fish commissioner will take prompt measures and remedy this matter in the near future.

Mr. East is buying cattle in Grant county to a Montana Indian reservation. He is paying \$18 for yearling steers, \$25 for two-year-old steers and \$27 for cows and calves.

The people of Ione seem to be hunters. They held a mass meeting last week and decided to have a depot and station agent at their town, also to build a road and telephone line to Cundon. Cundon will be strictly in it some of these days if the plans of our neighbors don't miscarry.
