BABY'S SMOOTH, FAIR SKIN
A Grateful Mother Writes this Letter—
Tells all about Her Troubles when Baby Broke out with Scrofula Sores.

"At the age of two months, my baby began to have sores break out on his right cheek. We used all the external applications that we could think or hear of, to no avail. The sores spread all over one side of his face. We consulted a physician and tried his medicine, and in a week the sores were gone. But to my surprise in two weeks more another scrofulous looking sore appeared on baby's arm. It grew worse and worse, and when he was three months old, I began giving him Hood's Sarsaparilla. I also took Hood's Sarsaparilla, and before the first bottle was finished, the sores were well and have never returned. He is now four years old, but he has never had any sign of those scrofulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy owes his good health and smooth, fair skin to this great medicine." Mrs. S. S. Wagoner, Farmington, Delaware. Get only Hood's.

Hood's Pills are prompt, efficient and easy in effect. 25 cents.

Dr. Hodara is an Austrian physician who has invented a new process to be called capillature, or something of that sort. The doctor secured a few bald subjects for his experiments, and after rubbing or injecting into the skin both antiseptic and anaesthetics, he plowed little furrows in rows across the baldness areas. Then he pulled hair after hair from the head of some economically persons who had a few locks to spare, and literally planted this borrowed plumage in the furrows he had made. The experiment is said to have been successful.

THE EDITORS OF THE NATION
Will Direct the Attention of the World to Oregon.
The national editorial convention, which meets at Portland in July, is anxiously looked forward to by the editors in all parts of the United States, and Portland is making every effort for their entertainment. Mr. Harcourt, a newspaper man of ability, spent a few days this week in Heppner endeavoring to raise by subscription a fund sufficient to insure in a souvenir, to be carried home by the editors, a write-up of Morrow county, setting forth its resources, opportunities for investment, etc. A few of our enterprising citizens seemed to appreciate this opportunity of gaining world-wide recognition, but the majority failed to be impressed with its importance, and he retired from this field somewhat disappointed.
According to our judgment this convention of newspaper men will place Oregon with its vast resources prominently in the minds of every intelligent being within the boundary lines of the United States, and this effort on the part of Portland's prominent men to furnish them with all the possible information regarding our state is worthy of the support of every Oregonian, and expense should be spared by no community, necessary to its just recognition. Without a doubt, their visit here will result in a marked increase in the population of our banner state in a very short time, and in the solicitation of immigration capital should not be overlooked.
To the Gazette has been entrusted the responsibility of furnishing data for the write-up of Morrow county and we shall endeavor to do it justice.
M. E. Church South Conference.
Judge Bartholomew, accompanied by his family and the Misses Adkins, left here Saturday evening, staying over night at his son Harry's, on Butler creek, and on Sunday attended the quarterly conference of the Methodist Episcopal church South held at the O. F. Thompson school house, for the Umavilla and Rhea creek circuit. A huge gathering was from far and wide, and at the conclusion of the morning services a basket dinner was spread in the grove adjoining the school house. Every thing Butler creek produces was served as only Butler creek housewives are capable, and such a feast is indulged in but seldom. This is Rev. Thoroughman's circuit, and his work in that field has made many converts during the past year.

County Superintendent Shipley is now holding a three days' examination of teachers for certificates, with Mrs. Shipley and J. W. Hornor as assistants. Stander will take their examination Friday for state life diplomas.

A BICYCLE
Within the Reach of Anyone.

You are invited to inspect the machine, and it remains entirely to your judgment as to purchase.

SUICIDE AT MILTON.
Another suicide has shocked and startled the community of Milton.
Early yesterday morning, Mrs. George DeHaven, an elderly woman belonging to one of Milton's most prominent and respected families, was found drowned in an irrigation ditch near her home.
According to the particulars of the sad affair Mrs. DeHaven, who is nearly 75 years old, had been in poor health of late and for the past few days seemed in a despondent frame of mind, having asked her aged husband to give her poison. Yesterday morning she stepped out of the house into the yard, telling her little granddaughter, a daughter of John McRae, to remain inside until she returned. At this time Mr. DeHaven was out milking the cow and on his return found her lying dead with her face in the water.
The suicide had evidently gone about her round task in deliberate fashion. Around her neck was tied a towel with a heavy flation dangling from either end. This weighted, she placed her head in the ditch, which contained no more than three inches of running water, and must have held it there with grim determination until the longed-for death came to her relief.
Mrs. DeHaven was a pioneer woman, having come to Oregon with her husband in 1852. She leaves several grown sons and daughters, to whom the sympathy of the community is extended in their hour of sudden and sad bereavement.
