Am Unfortunate Royal Family. The Duchess d'Alencon, whose watch and betrothal ring were found in the ruins of the burned Paris bazar, was a member of a royal house which has had more than its share of misfortune in recent years. She was the daughter of Duke Maximilian of Bavaria and a younger sister of the empress of Austria and the ex-queen of Naples, and she had a good deal of the high spirit which distinguished those two brilliant ladies before public and private sorrows had dimmed their vivacity. The empress has lost her only son under peculiarly painful and melancholy circumstances. The queen, the dashing horsewoman of the '60's, has long lived an exile from the kingdom which her husband's weakness did a good deal to forfeit, and now the third sister has come to a tragic and untimely death. Their cousin, ex-King Louis of Bavaria,

that is an unfailing cure for all weakness and disease of the delicate organs distinctly feminine. That medicine is Dr. Pierce's thirty years many thousands of women have used it with marvelous results. It imparts health, vigor, virility, strength and clasticity to the organs that bear the burdens of maternity. It fits for wifehood and motherhood. Taken during the period of gestation, it makes the coming of baby easy and almost painless. It completely banishes the pain and misery that are the result of a woman's neglecting her womanly health. An honest medicine dealer will give you what you ask for, and not try to persuade you to take some inferior substitute for the little added profit he may make thereon.
