A RIDE OF TORTURE.

Up in the Blue mountains, along the ridges near the Saddle, which divides the watersheds of Willow creek and the John Day's, is a picturesque place, and a romantic region, but the side hills are necessarily steep, and the horse that slips hurts himself and rider.

Such an accident happened to Robert D. Watkins up there, and it broke one of his legs. His horse fell on him.

And after the accident he remounted the horse and rode home, more than 4 miles, and sent for Dr. Swinburne, who went up at once and set the broken bone.

The torture of a horseback trip with a broken leg can be imagined.

BICYCLE TRACK.

The number of bicycle riders in Heppner has increased surprisingly during the past week, and the need of a proper track on which to practice the exhilarating exercise is at once felt. Anyone having a level tract of land on which a half mile track can be built, can easily arrange to rent same by calling on Cashier Geo. Conser, of the First National Bank, or some other of the leading wheelmen.

STOLE A HORSE.

A man giving the name of George Smith, and claiming to be a Montana sheepherder, is in jail here in default of \$250 bonds Justice Richardson asked him to furnish. He took Eugene Jones' horse and saddle from in front of the Palace hotel Saturday night, and seemed to have led up Clinton creek. He tied the animal to a wire fence, which resulted in its being so badly cut that Marshal Thornton had to shoot it. The marshal tracked the man up a canyon in George Harrington's pasture and captured him.

BEARDLESS BARLEY.

LATEST WAR NEWS.

Gen. Joubert is dead. But he has no fault to find with fate, for many men he met here when he went shooting chickens with Denny the Frenchman up at Bod Dexter's ranch are also dead, and they did not go to war. He died at Pretoria yesterday from stomach trouble.

The Boers are pushing more to the fighting line near Bluefontain, southeast of Heppner, and have blown up the coal mines in Natal that might be used by the British. The Boers are re-entered Ladybrand, wherever that may be, and the shelling of Makinging has been very vigorous.

NAVIGATION OPENED.

Heppner is the connecting link between the main railroad line down the Columbia and the great interior mining and stockraising region that stretches away for more than 100 miles to the south of Morrow county.

The roads between those points traverse portions of the Blue mountains, where travel is supposed to be suspended during winter and early spring. But navigation opened early this year, and already one big freight outfit has started over the road. It is not supposed to be fit for heavy hauling until about six weeks later, but Tuesday the cheerful jingle of the freighter's bells was heard coming down Stansberry canyon, and Perry Shank and Newt Smith rolled into town with their big 8-horse freight outfits, and soon had their horses feasting at Billy Gordon's feed stable. They are the first through outfits of the year, and will soon be followed by strings of teams coming to Heppner for general supplies.

Mr. Shank came for general merchandise for merchant Cummings, of Mt. Vernon, 100 miles from Heppner, and was five days on the road, camping out at night. There were mudholes in places, but no snow, and the roads are better than ever before at this season. They are 6 weeks ahead of usual conditions, and have been kept open all winter by Mr. Miller's stage line from Heppner to Canyon City.

RAILROAD REPAIRS.

The O. R. & N. Co. is a prosperous organization, and it delights in doing good along its lines. It establishes, fosters and encourages all industries in the great region tributary to it, and works early and late to improve conditions and make its roadbed better.

Just now the Heppner branch is receiving marked attention along its entire 47 miles. There are three crews at work—a rock crew, a bridge crew and a pile-driver crew. They are repairing, renewing and improving everything in sight, and will shortly have the whole business in the best possible condition. And then when the up run is changed to a daylight run it will be a delightful trip.

SPRING STOCKS.

Spring is here, with the wild flowers in bloom, and the latest spring and summer shoes are on sale at the store of Rhea & Welch. Their spring and summer suits of clothing are unexcelled.

HOME AGAIN IN HEPPNER.

People who have once lived in Heppner and enjoyed its good climate and many pleasant days are generally glad to return here after trying other localities, for they find here many advantages not enjoyed elsewhere.

Two years ago Wm. D. Lord left Heppner and sold his house to D. B. Stalter for \$475. Now he has returned and bought back his home, paying \$600 for it. Mr. Stalter has moved out to his farm, where his time will be fully occupied in looking after his coming crop and live stock.

Mr. Lord makes no mistake in buying back his Heppner property at an advance, for its value will surely advance still further. He will operate the mail route between Heppner and Galwady, which will probably soon be extended up Butter creek to Ione, as it should be.
