LATEST WAR NEWS.

London, April 17 .- At last General ng his advance toward Pretoria. Unless all usual reliable sources of infor-mation and all indications smuggled past censor are at fault, the British army, with a few days, will be marching been \$117,185.

There is, even in the best-informed circles, considerable besitancy in settling upon the day on which Lord Roberts is likely to leave Bloemfontein, but there is a settled impression that it will occur either at the end of this week or at the beginning of next. Long, weary waiting in the Free State capital has apparently effected much-needed rehabiliaed his advance had not Boer activity forced him to put his force in such positions that, today, unless they quickly tage will be lost.

The critics agree in the supposition that the advance will be made in parallel columns, with a broad front west of the railroad, the Third and Eighth Divisions sweeping northward to the extreme northwest, the entire force smounting to 75,000 men. Exactly what part General Buller will take is a ecret which no one is able to probe. From the seat of war there is a sig-

nificant silence. From The Hague comes the news that the Boer delegates refuse to make public the object of their mission. They hope to be received by Queen Wilhelmina, but nothing in this direction has yet been decided upon. Boers Are Active.

Masern, Basutoland, April 16.-The Soers for two days past have been displaying great activity along the Reddersberg and Rouxville road. Their scouts report that the British are advancing on those places to the relief of Wepener, and the burghers consequently are divided whether to remain or retire. A majority of them desire to abandon the investment of Wepener, fearing to be cut off, while the minority, led by commander Oliver, are rejuctant to move as long as there is a chance to capture Colonel Dalgety's garrison.

sing for several days. Regarding the extreme age of Mrs. Si-mons her memory was remarkably bright and clear. She was the reference ok, so to speak, of her neighbors and talked interestingly of the days of Washington and the administration of Thoma veritable encyclopedia on the war of 1812, at all times manifesting an intense interest in reciting the details of that trying period of the nation's history. One peculiarity of this aged woman was that her memory of happenings a quarter of a century ago was more vivid than of events in the immediate past.

In disposition she is said to have been a model woman—kind, considerate and gentle. Industry was a part of her re-ligion and she was fond of out of door life, spending a great deal of time in her garden. She was an artist with the needle, and up to her last illness gave ended in Consumption. I had frequent a great deal of her time to embroidery hamorrhages and conghed might and day.

Mrs. Simons was married at the age of sineteen and gave birth to thirteen children. Her husband preceded her to the grave years ago and at the time of her death she was drawing a pension for the killing of a son in the union army in the war of the 60s. Her husband as a soldier in the war of 1812.

Those who urge that the use of tobacco is injurious to the system have a problem to solve in the life of this woman. The remarkable statement is vouched for that she began smoking when three years old and kept it up the remainder of her life, over a century. All well adapted to either City or Country Trade.

Manila, April 17 .- 1200 Tagalos attacked Case's battalion headquarters of the 40th Regiment at Cagayan, Mindanao, on April 7. The Americans had 15 casualties, while of the attacking force 50 were killed and 30 wounded or taken prisoners.

The enemy, numbering 150 riflemen, the remainder being balomen, archers and mounted spearmen, swooped down in a bowling mass at daylight, surprising and killing three of the sentries. They swarmed through the streets in small parties, some bearing scaling ladders, by means of which they attempted to enter the houses. The Americans tumbled out of the barracks and formed in the plazas and companies be gan sweeping the town. The subsequent street fight lasted 20 minutes.

Twelve of the wounded Americans are now on board the hospital ship Relief. The enemy withdrew to the mountains in great confusion. General Young reports that 300 insurgent riflemen and bolomen attacked the American garrison at Batoo, Province of North Ilocos, yesterday, but were repulsed, losing 106 men. The Americans had no casualties Captain Dodd, with a squadron of the Third Cavalry, recently surrounded a village in Union Province, and surprised
