MORROW MOUNTAINS.

In the south end of Morrow county are about a dozen townships which are crossed by the Western spur of the beautiful Blue mountains. The snow falls 3 or 4 feet deep there in winter, and it is therefore considered not a desirable place to live except in summer time, when it is delightful.

But there will come a time when these Morrow county mountains will be all settled up and full of happy homes. S. W. Florean was in there this week and visited his mountain ranch on Little Penland prairie, where he found the snow all gone and ground solid enough to drive over. He lived up there 7 years, and will soon return there for the summer. He would have remained there except for lack of schools for his children. He found it the healthiest place on earth, and did not have to wear a coat in winter.

Mr. Florean has an abundance of wild grass on his ranch, and will improve it by sowing timothy. He sowed \$10 worth of seed on the snow this winter, and it washed down Butcher Bill creek clear to the John Day. Now he has plowed a tract, and will put in timothy seed and let the first crop rot down, thus insuring good yields thereafter. He thinks it takes the first year's cultivation to take the wildness out of the soil.

LAND SALES.

Alexander Lindsay yesterday bought from J. W. Morrow his Old Reliable Ranch, No. 2, comprising the Sam Smith and Ben Matteson places, 1720 acres, for \$10,000.

There are symptoms of buyers and ranches getting closer together, and the 60,000 head already bought in Heppner will soon start east.
