

THE FAIR THE PLACE TO SAVE MONEY

National Bank Building, Heppner, Oregon.

We open up the season with the usual rush characteristic of this "The Fair Store". We have been receiving and marking goods for more than two months past, that we might be prepared for this rush and our greatly increased trade. We have a mammoth stock---have added several lines not heretofore carried, prominent among which is some staple Dry Goods, Millinery and Children's and Infants' ready-to-wear Dresses. All lines have been purchased in large quantities. Nearly every article is spick span new, and the fact that every thing you may want that can be found at The Fair is a guarantee that the price will be the lowest possible to be given consistent with good quality and workmanship. For the coming season we shall so exemplify our motto, "The place to save money," that not a single man, woman or child will ever forget us. The public generally for miles around have rallied to our support and we propose to do our duty by them in return. See the following descriptive list with prices which we quote---they are hard hitters:
