TO A SECOND GRAVE.

Young Ten-Tons, 13th assistant secretary of the muskrat department in Chief Howlish Wampo's jurisdiction of the Umatilla Reservation, arrived in Heppner Tuesday.

He came in a light back, and his load was a neat basket enclosed in a plain box.

His journey was at the request of Columbia Dick, a brother red man, and they and two other Columbians started for the Blue mountains, a day's journey south from Heppner to bring back the body of Wah-pee-tah (which means Bell of the Blue Jays), a young woman who mem-a-loosed at the camas camp last summer.

She will be re-interred among the rox and sage-brush along the Columbia, and the journey from her first grave to her second will cover a distance of 110 miles.

In explaining the woman's death the Indians seemed to think it was caused by over-exertion in trying hard to breathe.

IN CHINA.

London, Nov. 5.—Dr. Morrison, writing the Times from Peking, says: "The evidence in the Pao Ting Fu trial to fix the responsibility for the massacres showed that an American lady, before execution, was led naked through the city and that her breasts were cut off. The destruction of two temples is not an adequate punishment for such inhumanity.

Advices from Tien Tsin show that confusion, disorganization and absence of security are the chief characteristics of the allied occupation.

Tien Tsin, Oct. 28.—The return of Li Hung Chang to Tien Tsin has brought about a marked change for the better in the native city. The people apparently still have the greatest confidence in the old Viceroy.

Gen. Chaffee called on the Viceroy the day after his arrival from Peking, and had a long conference. Li expressed to the American commander his keen desire for an absolute cessation of hostilities, saying that, in his belief, that was a necessary preliminary to a settlement.

All the armies now have the situation pretty well in hand, as far as winter supplies are concerned, and every effort is being made to push forward preparations for the rigorous weather to which the troops will be exposed.

Wherever possible the British, Japanese and European troops are being quartered in houses. There is not a foot of roofage now vacant in the city. Every house has been commandeered or rented, and rents for private dwellings have advanced 100 per cent.

The large compounds or walled grounds which usually surround dwellings in the East are all occupied as camps. These quarters are much sought after, as the thick brick walls, often 15 feet high, form windbreaks and are also utilized as one wall of a barracks, timber and matting roofs being constructed on the inner side.

Pekin, Nov. 3.—The international commission has convicted the Chinese grand treasurer, the Tartar governor of Pao Ting and a Chinese colonel with being accessory to the murder of English and American missionaries and they have been sentenced to death, execution to occur shortly.

Eight boxers who took a prominent part in the massacre of missionaries were discovered in Tien Tsin by the Germans and summarily shot.

STRANGE STORY.

R. D. Larson, stage driver on the Ontario and Burns stage line, has recently had some queer experiences with a strange wild animal that haunts the road at an isolated point 30 miles between stations. The animal has the form of a man, but has the head of a cow. At times down near the road and stands quietly as the vehicles pass.

The driver has seen the creature several times and had passengers on the stage one time to verify the report. The animal does not seem to be frightened by the presence of human beings, but on the other hand has a curiosity to investigate them. He makes no sound and has never been seen in the night.

Larson has prepared to capture the thing the next time it shows up. It is supposed it is a ruse of some kind, but some agitation is being felt. It shows itself in the neighborhood of former stage hold-ups, and is in the vicinity of where Indians in former days did some of their worst work.

Although the strange thing frequently comes within 100 feet of the road in broad daylight, Larson is unable to say whether or not it is clothed.
