Coasting is now a favorite amusement with Heppner children, and school-house hill is the favorite place. It is the redeeming feature of the location. Co., was in Primeville Saturday, says the Review, in the interest of his company, and also trying to buy cattle and sheep. He says that he finds that our stockmen hold their stock too high. STEER ON THE TRACK. Monday evening when darkness had settled down and the snow was whirling, Engineer Patterson was bringing the Heppner train along with its usual punctuality. Just this side of Lexington one of Bill Penland's invisible steers stepped upon the track and was struck by the Jenner coupling. If the latter had not been on there the cow-catcher would have thrown him upward and outward. But it knocked him down and he went under, and threw one pair of wheels off the track, and they slid along the ties and across a culvert before the train could be stopped. The crew had the wheels on again in 10 minutes, as Mr. Patterson carries all tools for such accidents. Yes, the steer is dead. GIRL WANTED.
