

Home-seekers who are now planning to come to the Northwest will have among their number some who think they are coming to an earthly Paradise. They will be disappointed. But they will find here a good climate, and will reap returns in proportion to their industry, and that is all that reasonable people can reasonably expect.

SENATOR IS NEEDED. If the Oregon legislature has made up its mind to not elect Mr. Corbett or re-elect Mr. McBride, it is time that factionalism was dropped and some one was elected.

Senator McBride has certainly done his duty, and is entitled to the usual courtesy of a re-election.

But if the majority of the legislators think otherwise, they should soon center on some other man. It isn't right to take a nice old gentleman like Mr. Corbett away from his profitable banking business and increase his infirmities with the worries of high office, but there are other able men who might be elected, such as Mr. Mitchell or Editor Scott of the Oregonian.

There is no lack of good timber, and some of it ought to be elected soon.

HOME MINING.

The Heppner Mining Co. is a home institution that deserves support on its merits. It has put a few blocks of stock on the market as a development fund at 10 cents a share.

This home stock is far preferable to outside stock that is brought to Heppner and sold by strangers at a cent a share or anything they can get for it. It is dear at any price, compared with Heppner stock, for you don't know what kind of a wildcat proposition it represents.

Its prospect hole may be away up in the wilds of B. C., with no merit whatever.

The property of the Heppner Mining Co. has true merit, and is located right on the great recognized mineral belt that has yielded millions and is still yielding, and has on it rich mines now being worked.

Actual results of quartz from the Heppner Mining Co's property worked at the great Tacoma smelter may be seen at the First National Bank, and the stock at its present price is a good investment.

IT MEANS MUCH.

The transplanting of 50,000 people from the east and middle west to the Pacific Northwest means a great deal to every county in Oregon and Washington.

Well-posted railroad men say that the movement is sure to reach 50,000 people this spring.

They will scatter throughout the land upon the tax-rolls where it now yields no public revenue; they will vastly increase the business of sawmills, material-men, builders and merchants, and every branch of trade will feel the impetus.

Come from where they may, the newcomers are sure to find in the northwest a climate superior to that they left, and with industry and energy they are all almost sure to better their conditions.

No spot on earth offers them lower priced lands than does Morrow county, and a fair proportion of them should come here and see for themselves.

There is vacant government land in Morrow county—plateau, foothill and mountain timbered land. There is semi-arid land near the Columbia that may be bought at 50 cents an acre; if irrigated it will produce good crops.

THANKS.

Many of the newspapers of the northwest have given the illustrated edition of the Heppner Gazette very kindly notices, and many letters have been received commending it,—all on its merits. They all agree that such an edition is sure to benefit Morrow county in showing up its resources as they actually are.

For all of which the Gazette returns its thanks and wishes it could have done better.

WONDERS OF WATER.

Eastern Oregon has thousands of acres of arid and semi-arid lands, now producing comparatively nothing and unprofitable because of lack of water.

The government can do a work of incalculable good by bringing water upon such lands, and all they need to make them productive is water.

Where now is desert, water works wonders, and makes so-called sand produce beautifully and bountifully. There is no experiment about such matters. Results on such lands show for themselves.

There are oceans of water with its hands in its pockets softly sailing to the sea, right past millions of acres that it might make fruitful, but the work of raising it to the land level is too great for private enterprise.

A great and good government should do this work of irrigation and make possible the founding of thousands of homes. It has millions to spend on the mouths of rivers, and should spend some on their heads.

There is no reason why Morrow county cannot support twice its present population, and for those who are willing to work, homes are here. The man with cash to invest would probably reap as rich returns from it here as elsewhere, for land values here are the lowest on earth considering the production and profits.

A recognized authority—The Weekly Oregonian.

SENATORIAL.

The latest from Salem is: Corbett 32; Binger Herman 29; Inman 26; scattered 3.

It is said that Corbett will gain two votes tomorrow. The legislature voted to adjourn Saturday at midnight.

IT PAYS.

It is now generally admitted that sheep-raising and wool-growing in Morrow county are pretty fair paying propositions.

There are at present in Morrow county 235,355 head of sheep, and O. E. Farnsworth, who has been running sheep here for 23 years says that sheep pay an annual 50 per cent. net profit on the investment. He says they have been doing that for the past three years, but that for 5 years previous to that, in free trade days, sheep paid practically nothing, and many men ran behind.

Sheep are herded here in average bands of 2000 head, and herders get an average of \$50 a month and board. It is a lonely life.

Present prices on sheep here are \$5 a head for breeding ewes and \$2.50 a head for yearlings of mixed sexes delivered after shearing next spring.

ART AMATEUR.

An indispensable aid to anyone interested in art is the Art Amateur, the old reliable magazine published in New York.

It is a periodical of rare beauty, and every issue is an education in itself. Besides good counsel and general news on art matters, it contains studies of various subjects and plans of interior decoration. The subscription price of this beautiful magazine is \$4 a year, and each subscriber gets \$1's worth of art materials free. Sample copies may be seen at Gazette office.

THE DETAILS.

In response to a form letter of inquiry sent out in the agricultural division of the twelfth census asking for information regarding domestic animals, a farmer in Iowa replied as follows: "I have 6 cats worth 50 cents apiece and 2 dogs at \$1 apiece. Cats are: Two yellow, one Tom and the rest shes. Dogs are terriers and spotted spaniel. One can run like hell."

Free sample copies of the Heppner Gazette are sent to anyone desiring information about Morrow county. The Gazette has been published at Heppner for 19 years. It is a 6-page paper, \$1.50 a year, 50 cents for 3 months.

FACTORIES FOR DOG FEED.

A Place Where Sustenance for Aristocratic Canines is Manufactured Wholesale.

One of the two factories in this country for the making of patent food and patent medicine for dogs has been described in the New York News. The founder of this establishment was a Scotchman. He was employed in London kennels, studied the needs of dogs, thought out special treatment for them, and then returned to the receiving room of the raw materials. Thousands of pounds of butchers' scraps are brought here in the course of a month. Oatmeal in wholesale quantities and tons of herbs are used. The old-fashioned dog's bone, boneseat, catnip and beef-root, under various scientific names, find a use as food or as medicine. The second floor is occupied by four curious machines, with great cylinder attachments. After the fat and meat have been sorted they are ground separately in these machines and then placed in great wooden tubs where various mixtures are added.

The next process seems so much like the ordinary baker's work that one is quite disposed to taste things, and when the round and square cakes of the brick oven are really envied the aristocratic dog. After cooling, the biscuits are packed in neat pasteboard boxes. According to size these boxes are labeled for pet dogs, for greyhounds and St. Bernards. There are especially prepared dishes for cats. Sufficient food to keep pussy for two days may be had for five cents. But it costs a pretty penny to keep a dog. A large dog must have six or eight cakes, besides a quantity of meat. The meat costs probably about ten cents and the cakes are four cents apiece. The most interesting department is that of the patent machines, at the top of the building. The mixtures of herbs and chemicals are boiled in great kettles, and the liquid is brought up to this floor to be put in bottles of various sizes and labeled "cure for mange," "pliment for sprains," and to "prevent baldness." Sure cures for seventeen diseases, and pills as well as liquid medicines, are made. This curious establishment also makes dog-collars, dog soaps, crates for carrying or shipping dogs, dog brushes and combs, blankets and mackintosh waterproofs, with hoods, for greyhounds.

REWARDS FOR WORKERS.

Anyone can make money getting up Clubs of Subscribers for the Heppner Gazette.

Until further notice the Gazette will pay \$3.75 in cash to anyone sending in a club of 5 new cash 1-year subscribers. Will pay \$7.50 for 10 new cash 1-year subscribers.

Anyone sending in a club of 25 new cash 1-year subscribers will be given a fine gold watch.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been ill for five years for which she could turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a god sent to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cts. Sold by Conser & Warren Drug Co.

WOOL.

In Boston manufacturers have succeeded in lowering the price a shade in territory grades. While there has been more activity in the market this week, the demand is for purchases for immediate use. Manufacturers are disposed to pay on the scored basis of 43@45c for fine medium and fine territory wools, and enough in the trade are inclined to meet this demand as to make it a fair quotation in the market. This is, no doubt, caused by the considerable holdings, and there is a desire to sell which gives the buyer the advantage.

Territory; scored basis—Montana and Wyoming, fine medium and fine, 15@16c; scored, 44@45c, staple 57@48c. Utah, fine medium and fine, 14@15c; scored, 42@43c, staple, 46c. Idaho, fine medium and fine, 13@14c; scored, 42@43c; staple, 46c.

WHEAT, WOOL AND STOCK.

Portland, Feb. 19. The wheat market was off again yesterday, with not enough business doing locally to enable an accurate quotation to be secured. There were the usual reports from the interior of stiff prices paid, but locally 55 1/2 cents was the best figure reported for Walla Walla, and some of the dealers declared themselves out of the market at these figures.

Wool—Valley, 13@14c for soanes, 15@16c for best; Eastern Oregon, 10@11c; mohair, 25c per pound. Shearings—Shearings, 15@20c; short wool, 25@35c; medium-wool, 30@50c; long wool, 60@81 each. San Francisco, Feb. 19—Wool—Spring—Nevada, 11@13c per pound; Eastern Oregon, 10@14; Valley, Oregon, 14@15c. Mail—mountain lambs, 9@10c; plains, 6@7c; Humboldt and Mendocino, 10@11c.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

AMERICAN PLAN ONLY.

The Palace Hotel, of Heppner, is one of the home institutions that Eastern Oregon may well be proud of. It fills the field as a first-class house, and it employs only competent white help. It is conducted strictly on the American plan, and its commodious well-furnished rooms and beautiful tables give satisfaction to all its patrons.

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevents a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors, but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes the marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1. Every bottle guaranteed. Trial bottles free at Conser & Warren Drug Co.

MRS. MARY GREGOVICH. Of Philadelphia, Montana, Tells How She Was Cured of Dandruff. Mrs. Mary Gregovich, of Philadelphia, Montana, under date of Nov. 26, 1899, writes: "I had typhoid fever this summer, consequently was losing my hair, and my head in places was perfectly bald. Dr. Wood's Herpicide had just come into use in Philadelphia, and the doctor strongly recommended it to me. After 3 or 4 applications my hair stopped falling out, and is coming in again quite thick. I used to be troubled with itching of the scalp, and I am now quite cured." Kill the dandruff germ with Herpicide.

A Citizen of Albany, Ga., owns a pet catamount. It was captured while young, and has been reduced to a degree of docility which enables its owner to fondle and play with it, not without, however, a degree of consideration as to which way he strokes the cat's fur, for the natural ferocity of his nature is, even after a year's imprisonment and training, easily aroused, and his snarls and the greenish glitter of his eyes at such moments makes him anything but an object of affectionate consideration from the average citizen. He is rapidly clearing his quarters of rats.

The greatest danger from colds and influenza is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. It will cure a cold or an attack of influenza in less time than any other treatment. It is pleasant and safe to take. For sale by Conser & Warren, druggists.
