NEW YORK WEEKLY TRIBUNE
Published on Thursday, and known for nearly sixty years in every part of the United States as a National Family Newspaper of the highest class for farmers and villagers.

IN AFRICA.
Mac Clarke, of Minor & Co's store, has received another letter from his brother who is with the British army in South Africa, and part of it reads as follows:
Winburn, Dec. 16.—Dear Mac: Last mail brought my Heppner Gazette, and I was very glad to receive same.

It is too bad the British authorities cannot reach the more reasonable of the rebels and try and make arrangements for a peaceful settlement.
I fear the only thing which will satisfy the guerrillas is some sort of restored independence, and this cannot be granted. As far as I can see, it will be some time, owing to the bitterness which prevails, before there can be established a beneficial self-governing colony.

Getting Thin
is all right, if you are too fat; and all wrong, if too thin already. Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion. Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity. The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.

the part of "leading lady," and played it well. Heavens! What a scene. The daughters were de-lit and shed many bitter tears, while the old man played the passive part. He evidently had nothing to say in the matter and was quite satisfied to let his wife do the protesting, when she did in a very ferocious manner. In the meantime I went along with the wagons to an adjacent field, containing "loads in the stock," and kept account of the number of sheaves taken away. After loading meagles and manna and collecting the livestock, carpets, etc., I handed the receipt to the old lady for the amount. For oats we paid \$4 a bundle. Just think of that! Three pence a sheaf. Meal, 22 shillings per 200-pound bag. The latter is just like your American corn. Cattle, 410 each. I said to myself, if Canadian farmers could only get such prices they would soon become wealthy. In passing over the field I was amazed to see the condition of that patch of ground. Huge lumps or boulders of earth could be seen all over, indicating that the place was ploughed in the wet season, and no harrow or roller ever went over the same, so you can imagine what the aspect was like.

Morrow county has a dozen townships of mountain timber lands that will some day yield immense incomes to lumbermen and fuel dealers.

RESOLUTIONS OF CONDOLENCE.
Eks Hall, Thursday, March 14, 1901.
Whereas, It has pleased the Grand Exalted Ruler of All to bring to a close the life of our beloved brother, William Penland, and

Resolved, That in the death of William Penland Heppner Lodge No. 358, B. P. O. Elks, has suffered the loss of one of its most respected members and we mourn him as "one who loved his fellow man";

DANGEROUS DAYS.
The Athena Press gives a graphic account of the celebration of Tom Page's 60th birthday. And that reminds Eastern Oregon Pioneers that Mr. Page used to do daring deeds in early days. Hundreds of times he has ridden on the stage between Canyon City and The Dalles, with a saved oil shotgun in his hands, watching for hostiles and highway robbers, while Tom Morgan, now of Heppner, held the line with a steady hand. Those were dangerous days, and there were big bags of gold dust in the boot.

Working 24 Hours a Day.
There's no rest for those tireless little workers—Dr. King's New Life Pills. Millions are always busy, during torpid liver, jaundice, biliousness, fever and ague. They bewitch sick headache, drive out malaria. Never gripe or weaken. Small, taste nice, work wonders. Try them. 25c at Slocum Drug Co.

L. O. Howard the distinguished entomologist, felt somewhat flattered at receiving a letter from a gentleman asking him to send a copy of his report. Mr. Howard replied promptly, and asked to which particular report his correspondent referred. The answer came: "An not particular which one you send. I want it for a scrap book."

FORAGE PLANTS.
Prof. Spillman, of the Pullman Agricultural College, says:
"For a century past timothy has been almost the only important hay grass of the middle and eastern states. Now, timothy is one of the least nutritious of grasses; it will not stand pasturing; it is not good for only three or four years at the most; it is not much relished by any kind of stock except horses. Yet it is the kind of hay grasses in the east, for no good reason except that it produces a great abundance of seeds that are easily saved; and being very small, a small quantity will seed a large area. I could name a half-dozen other kind of grasses that would be better in every way if they had the seeding habits of timothy. So far as I know, no other grass can be compared with timothy in this respect. Yet this old standby is not adapted to the wheat lands of the inland empire, except in a small strip near the mountains, where the rainfall exceeds 20 inches.

For those sections where it is too dry for timothy, orchard grass and tall fescue are the best substitutes. Italian ryegrass is good all over for a two-year grass, but it is inclined to lodge badly. When the time comes that the present areas are devoted to raising feed for livestock, and that time is not far distant, I believe the system of farming will not differ much from the following: Wheat, followed by oats and peas for hay; then two or three years of timothy and clover, followed by potatoes, corn for ensilage, with fall sown wheat again."

Residents of Boise, Idaho, are much excited over the discovery of a mineral which has illuminating power. The discovery was made by G. F. Ayers, a well-known mining man of Boise, in one of his claims about sixty miles from Boise. At the time he did not think much about the matter, and therefore paid no attention to it. The further he went into the mine, however, the brighter the light became, until, after a few feet had been worked, it was not necessary for him to use a lamp. There is a large body of the deposit, and the farther the miners go in the stronger becomes the light. If the use of this mineral can be made practical, it will be a perpetual light, for in the throwing off of its rays there does not appear to be any waste of the mineral.

HEPPNER CHURCHES.
Episcopal church—Rev. W. E. Potwine.
M. E. church—H. L. Beightul, pastor. Services at 11 a. m. and 7:30 p. m.
M. E. church, South. Services at 11 a. m. and 7:30 p. m.—Rev. F. M. Candfield, pastor.
Rev. Victor Carlson will preach at the Christian Church, Sunday morning and evening. Morning subject: "The Pillar of the Truth." Sunday school at 10 a. m. Christian Endeavor meets at 6:15 p. m.; topic, "What I owe to Christ." Special music will be prepared for the evening services. You are cordially invited to attend all these services.

AN HONEST MEDICINE FOR LA GRIPPE.
George W. Waitt, of South Gardner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine. For sale by Conser & Warren, druggists.

IT PAYS.
It is now generally admitted that sheep-raising and wool-growing in Morrow county are pretty fair paying propositions. There are at present in Morrow county 283,533 head of sheep, and O. E. Farnsworth, who has been running sheep here for 23 years says that sheep pay an annual 50 per cent. net profit on the investment. He says they have been doing that for the past three years, but that for 5 years previous to that, in free trade days, sheep paid practically nothing, and many men ran behind. Sheep are bred here in average bands of 2000 head, and breeders get an average of \$30 a month and board, it is a lonely life. Present prices on sheep here are \$5 a head for breeding ewes and \$2.50 a head for yearlings of mixed sexes delivered after shearing next spring.

A Horrible Outbreak
"Of large acres on my little daughter's head developed into a case of scald head," writes C. D. Isbell of Morganton, Tenn., to Baughen's Arnica Salve completely cured her. It's a guaranteed cure for eczema, tetter, salt rheum, pimples, scabs, ulcers and piles. Only 25 cents at Slocum Drug Co.

BOSTON WOOL MARKET.
Boston, March 15.—The American Wool and Cotton Reporter will say tomorrow:
There is a steadier tone to the wool market and on the whole a more careful feeling is apparent than has been manifested for some time. A large volume of business has been transacted and it has been without making any further concessions in prices. The pressure to sell wool is decidedly less marked than it was, and some holders have refused to let wools go on a difference of only one-half cent between their views and those of intending buyers. Reports from manufacturers as to the business which they are doing indicate that orders on large sales have been surprisingly large. The sales since Jan. 1 amounted to 40,889,830 pounds against 34,480,000 pounds for the corresponding time last year.

LONDON WOOL AUCTIONS.
London, March 16.—The offerings at the wool auction sales today numbered 13,567 bales. A much better feeling prevailed and competition was spirited. Best scored realized full rates and greasy was firm and sold freely at unchanged prices. There was an important demand for the Continent and buyers secured good lines of scored merinos. Cross breeds were taken freely, fine grades selling at full rates. Inferior cross breeds were irregular. A smaller supply of Cape of Good Hope and Natal were offered and it sold fairly well, but there were withdrawals, as bids were 1/4 @ 1/2 below sellers' views.

WHEAT, WOOL AND STOCK.
Portland, March 20.
There very little doing in the wheat market, owners still holding firmly. Unless the holders of the wheat supply are more willing to sell matters will remain at a standstill.
W. W. b. s. 50@57.
Wool—Valley, 14@15c for coarse, 15@16c for best; Eastern Oregon, 16@17c; mohair, 25c per pound. Sheepskins—shearings, 15@20c; short wool, 25@35c; medium-wool, 30@35c; long wool, 40@45c each.
San Francisco, March 19—Wool—Spring—Nevada, 11@13c per pound; Eastern Oregon, 10@13; Valley, Oregon, 14@15c. Fall—mountain lambs, 9@10c; plains, 6@7c; Humboldt and Mendocino, 10@11c.
Chicago, Mar. 19—Cattle—Receipts 4,500; including 450 Texans; choice steers strong; medium, slow. Butchers stockers, strong; Texans, steady. Good steers \$4.80@5; poor to medium, \$3.60@4.50; stockers and feeders, \$2.65@4.65; cows, \$2.65@4.35; heifers, \$2.65@4.65; calves, \$4.50@6; Texas fed steers, 4@5; Texas grass steers, \$3.34@4.
Sheep—Receipts, 13,000; strong; lambs steady to slow.
Good to choice wethers, \$4.00@5; fair to ch. mixed, \$4.00@4.65; Western sheep, \$4.00@5.00; Texas sheep, \$2.50@3.70; native lambs, \$4.50@5.40; Western lambs \$5.00@5.40.

SOME IDEA OF THE MAGNITUDE OF THE requirements of an army, such as the British now have in the field in South Africa is afforded by the details given of the stores and animals sent out up to 4000 time before the occupation of Pretoria. These included 170,000 small arm cartridges, 500,000 artillery cartridges of various calibres, 175,000 horses and mules gathered from all parts of the world, 300,000 khaki suits, 370,000 pairs of boots, 420,000 blankets, and tents, sets of camp equipage, harness, and other articles in similar proportions. Besides, great quantities of meat, bacon, preserved vegetables, groceries, flour and biscuits, and forage were shipped.

STILL MORE COUNTERFEITING.
The street venders have unearthed another lot of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, or nervousness, and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order, it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

While walking in the suburbs, the Bishop of Norwich met a little girl of eight, who asked: "Oh, please, sir, will you open this gate for me?" The bishop, smiling on the demure little maiden, held back the gate for her to pass through, and when she thanked him with a smile, he asked her if she was not big enough to open the gate herself. "Oh, yes, sir," she replied sweetly, "but, you see, the paint is wet, and I should have dirtied my hands."

There is no reason why Morrow County cannot support twice its present population and for those who are willing to work, homestead here. The new wool trade, almost entirely unexplored, makes Morrow County a most desirable place to live and raises the price of wool to a point where it is profitable to produce and sell.
